## Lafayette Hall was crowded last night to its utmost capacity to hear the address of Prederick Douglass. So dense was the asoffice in this origin. They have a comes, which has herved the hands and the hearts of their races at Milliken's Band, Vicksburg and Fortwager. Now is the time for them to assert their manhabod. Let them show that they have the same occuracy, the same privided in the same herving that other man have, and then they will soon be respected. All men admire cearage, and if the colored men will only diplay it now, they will command the respect of the Government and the Nation. Let them only get on the United States uniform, and they will soon have the same privileger, as they have now the same privile office in this crisis. They have a comes, which has nerved the hands and the hearts of their race at Millitan's Bond, Violaburg and Fort Wagner. Now is the time for them to assert their manhood. Let them show that they United States District Court. The United atates District Court met at tan e'cleck yesterday morning. The following parties plead guilty to the charge of making and using tokens, vis : Henry Miner, S. Riddle & Co., Frank Snyder. Jos C. Buffam, Thos. Smythe, Gottelb Ludwig, Wm. Carson, George Hahr, John Gregg, John W. McCarthy. They were each fined one dollar and Lorens Hoese and Mathias Huess (Frenchmen) were found gallity of obstructing an enrolling offser in the township of New Bewidting, Beaver county. They were each fine distance and coats of proceeding. The Judge remarked that, is they were lost and ignorant men, and had not influence, he would impose a light face, but if they ever did a similar act against they would be fined for fundred dollars and be imprisoned two years. Remarkles T. Oliver, aged filteen years, in the savetee of the Provest Gard, of this city, will be said for a few for the day of the men in a day or two. Remarkles T. Oliver, aged filteen years, in the service of the Provest Gard, of this city, will disalize the filter of his city, will disalize the following consolidated report for its most of a population of the father. Indistance were found against Irwin Badgett, for procuring st soldier to desert, and also against Hiram Hirschberger for aiding a flowarded to general depots east and west, vis. Recents, 83; deserters, 169; stragglers, 250; aggregate, 650. Salks or Stocks, at the Commercial Sales Payatte Springs. This popular and fashionable place of resert is new in the full tide of success, under the same of the full tide of success, under the same of the full tide of success, under the same of the full tide of success, under the same of the full tide of success, under the full tide of success, under the full tide of success the full

The very title of this work indicates that

Professor Tyndall is an adherent and ex-

under of the dynamical or mechanical the-

ory of heat; that he teaches the new philoso-

radually developed and substantiated by

gradually developed and substantiated by Count Runford, Sir Humphrey Davy, Parraday, Joule, Thomson, Regnault, Grove, etc., whose beautiful and ingenious experiments, together with the eareful induction of the facts thus assertained, have long since left the supporters of the "material theory"—the ed school doctrine—eadly at a loss for arguments to maintain their position. Professor lyadali in these masterly isotures reviews the whole progress of the growthef our knowledge on this important subject, and illustrates it effectually at every step with experiments, which are described so vividly, that, with the aid of numerous and excalient wood-outs, they almost seem to be performed before our our eyes as we read.

they almost seem to be produced on the seem of the consumption of mechanical processes; the determination of the mechanical equivalent of heat; the consumption in the mechanical equivalent of heat; the consumption of the mechanical equivalent of heat; the consumption of the approximation of the approxi

the mechanical equivalent of heat? the cen-ception of heat as melecular motion; the ap-plication of this conception to the solid, il-quid and guescus forms of matter; to expan-sion and combustion; to specific and latent heat; and to calorific conduction. The re-maining five lectures treat of radions heat— the interstellar medium, and the propagation of motion theorem the section.

COMMERCIAL RECORD.

passable. The men have suffered great hardships.

The Blohmond Enquirer says that it is reported that a force of Yankee cavalry has appeared at a store in Stafford, fifteen miles east of Fredericksburg.

The same paper says that Gen. Heal Dow will proceed on a trip to Mobile this morning, escorted by two officers of the Confederate police. We are not infurmed of the purpose of sending him to Mobile.
