CITY AFFAIRS.

OUR OFFICIAL PAPER OF THE CITY.

The State Teachers' Association.

The Pennsylvania State Teachers' Association met at Reading on the 4th inst., and continued its session until the evening of the 5th. In consequence of the President's proclamation, no meeting was held on Thursday, as was intended. There were more teachers in attendance than was anticipated. The proceedings were interesting, and will be published in full in the *Pennsylvania School Journal*. In the absence of the President, Asariah Smith, of Mifflin, Vice President S. D. Ingram, of Dauphin, presided. Reports were read by Professor S. S. Hillman, of Dickinson College, Rev. J. S. Ermentrout, Superintendent of Berks, and W. F. Wyers, Esq., of the West Chester Academy. The following questions were discussed with much ability: "What are the prominent objects of text books, and to what extent should they be used?" "Should a military spirit be encouraged among the pupils of our school?" A beautiful poem was read by Miss Annie F. Kent, of Chester county. On Wednesday evening Maj. Gen. Sigel attended the Association, and delivered an able address; he was enthusiastically received. Major General Stahl was also present and made a few remarks. The State Superintendent, Professor Coburn, also addressed the Association. Dr. Burrowes made a statement in reference to the Teacher's cannon, and a report of funds received which was perfectly satisfactory, completely exonerating himself from any censure. S. D. Ingram, of Dauphin, was elected President for the ensuing year. The Association adjourned to meet at Altoona next August.

The Buckeye Fruit Jar.

We direct the attention of housekeepers and others to the celebrated Buckeye Jar, manufactured and for sale by Messrs. Adams & Co., No. 27 Wood street. Glass jars are preferable to tin or earthenware, because they are easily cleansed, are never subject to rust, and their utility cannot be impaired by age. The Buckeye Jar is so arranged that no cement or other composition is required in sealing. The top of the jar is ground to an even surface, while the edge of the lid is supplied with a gum band, and the lid adjusted by means of a strong iron clasp. The work of sealing does not require half a minute's time, and the jar will be warranted perfectly air-tight. It is just such a jar as every lady will approve and adopt. It is made of strong material, and will not break except through carelessness or accident. These jars can be used for an indefinite number of years, and there is no possibility of having the fruit spoiled by cement, which often happens when corks are used. But our lady readers will, no doubt, call and examine this jar for themselves.

Messrs. Adams & Co. have also on hand the ordinary cork jars, which they are enabled to sell, either wholesale or retail, at the very lowest Market rates.

U. S. District Court.

United States vs. Hiram Hershberger, for aiding a soldier to desert, was acquitted.

New Books at the Y. M. A. Library.

Those of our citizens who were members of the above institution many years ago, when it occupied a small dark room on Market street, or even when it entered upon its second epoch, in a somewhat more ambitious room on Fourth street, who may now visit its large, well lighted and handsomely furnished apartments, on St. Clair street, cannot but be surprised and gratified at the progress it has made.

We are pleased to announce that the Library has, within a few days, received several hundred volumes of the most popular and valuable works, in all the departments of literature, selected by the Librarian while on a visit to the eastern cities. A portion of the books have been received, and are now open for inspection before being put into circulation. Young men and young ladies who wish to keep up with the age, should, by all means, be members of the association; and parents who would wish their children to acquire a taste for reading should enroll their names at the Library.

First National Bank of Pittsburgh.

It will be seen by a reference to our advertising columns that "The Pittsburgh Trust Company" has organized itself into the "FIRST NATIONAL BANK OF PITTSBURGH," and having complied with the requirements of the act of Congress, entitled, "An Act to provide a National Currency, secured by a pledge of United States stocks, and to provide for the circulation and redemption thereof," has been duly authorized by the Comptroller of the Currency, to commence the business of banking under said act.

The Pittsburgh Trust Company has been, during the eleven years of its existence, one of the most successful institutions in our city. Its stock was seldom found exposed for sale in the stock market, and when exposed always commanded a high premium. Its dividends have always been large and its credit undoubted. Under the admirable management of its well-known President, Alexander Laughlin, Esq., and its good natured, amiable and enterprising Cashier, John D. Scully, Esq., we have no doubt but that the same success awaits its operations in its new relations. Business entrusted to its care will meet with prompt attention.

The present capital is 400,000, with the privilege of being increased to $1,000,000.

THE Ladies' Aid Society of Allegheny during the two weeks, ending August 6th, have made up 19 new shirts and 13 new pairs of drawers.

Capt. Wm. S. Kranz, $5 00.

LECTURE.—Mung Shaw Loo, a native Burmese, will address the citizens of Allegheny, in Sandusky street Baptist Church, this afternoon, Aug. 11th, at three o'clock. He will speak of things of interest in the Burman Empire, and contrast the heathen and the Christian Sabbath. This lecture will be free. In the evening, at the same place, he will lecture in full Burman costume, on the "Manners, Customs and Religion of the Burmese." He will exhibit the image of Gaudama, and other curiosities, and will give a description of Burmese courtship and marriage. Admission fifteen cents. Children ten cents.

SCRAGGLERS.—There are about forty convalescent officers now in our city, who, by orders of the War Department, numbered 61 and 100, should report themselves at Annapolis, Md., to be assigned light duty or placed in hospitals.

Our Book Table.

A SUPPLEMENT to Ure's Dictionary of Arts, Manufactures, &c. &c., containing a Clear Exposition of their Principles and Practice. From the 3d, 4th, Keeper of Mining Records, formerly Professor of Physics, Government School of Mines, etc., etc., assisted by numerous Contributors, eminent in Sciences and familiar with Manufactures. Illustrated with Seven Hundred Engravings on Wood. New York: D. Appleton & Co., 1863. Pittsburgh: for sale by R. S Davis, 93 Wood street. 1090pp. royal 8vo.

Ure's Dictionary has been for many years the standard reference-book on all the numerous and important subjects embraced within that wide scope and range which the design of its learned and laborious author gave it. But though each successive new edition contained much new matter, making the work keep pace with the progress of knowledge and the ever accelerated course of improvement and discovery in "arts and manufactures," so rapid and so vast have been the recent advances of improvement, and accessions to our knowledge, in this department, embracing the practical application of science, that a supplementary volume like the present, equal at least to one-half the latest edition of Dr. Ure's original work, has become necessary to embrace the whole subject, or, rather manifold subjects, involved in the design of this great cyclopedic undertaking, so as to bring everything up to the present time. No man living, perhaps, could better undertake such a work, than the eloquent and ingenious author of "Researches on Light," "The Poetry of Science," "Pantheon," etc., etc. Mr. Hunt has also associated with himself, we find by a list of the contributors printed in the work, not less than fifty gentlemen eminent for their attainments in science or the practical arts, many of whom are themselves actually engaged as manufacturers in working out those processes which they have described in the volume before us. No more valuable work than this has appeared for a very long while—none at once so comprehensive and complete, dealing with such a range of subjects in the practical applications of science in manufactures, etc. Indeed it may be truly said that many of these elaborate articles would form complete treatises on the several subjects to which they relate, and might be published in a series of goodly volumes, at ten times the cost to the purchaser charged for them as they appear in this volume. It is scarcely necessary to mention any of these articles specially, but we may say that those on Artillery, Liberty, Law, and of justice. Few have seen more or harder service during the same length of time. It was his fortune to participate in many of the greatest battles of the war. On the plains of Bull Run, South Mountain, Antietam, Chancellorville and Gettysburg he contributed all that a brave officer could do towards rendering the war-worn battery to which he belonged, famous for its skill, courage and devotion. His conduct, after on the march, in camp or in action, earned for him the highest encomendation from his superiors, and endeared him to all who were associated under his command.

J.

ONE BOTTLE DID IT.—Rev. S. R. Morley, Attleboro' Mass., writes—"The effect of Mrs. S. A. Allen's World's Hair Restorer has been to change the "crown of glory" belonging to old men to the original hue of youth. This was done by a single bottle. Others of my acquaintances have used it with same effect. The Zylobalsamum I regard as an invaluable dressing for the hair."

It is stated that the number of conscripts now going through to reinforce the Army of the Potomac, is over one thousand a day.

THE DRAFT.

The Board here began granting exemptions from the draft for disability, alienage, improper enrollment, &c., to-day. The negro conscripts take their draft kindly, and are besieging the Provost Marshal to tell them how soon he wants them.

THE "IMPENDING BATTLE."

The persons in Philadelphia who persist in telegraphing that a battle in Virginia is imminent, are either very ignorant or very resolute in their determination to circulate lies.

REGULATIONS FOR THE BORDER TRADE.

Regulations for the Border Trade, revised and adopted to the new condition of things since our recent victories, have been prepared and will speedily be issued.

The heat continues as intense as ever.

FROM PHILADELPHIA.

Special Dispatch to the Pittsburgh Gazette
PHILADELPHIA, Aug. 10, 1863.

It is evident that neither the Army of the Potomac or the rebel army, on the Rapidan, have altered their positions within the last 48 hours. The rebel army is badly off for horses. Though a fight might take place at short notice, yet it is not probable that Lee will act on the aggressive. An intelligent military gentleman, who arrived at the Continental to-day, says that a general engagement may not take place before fall. Substitutes are going in small squads daily to reinforce Gen. Meade's army.

To-day, according to certin rumors, the big ball was to be opened on Fort Sumter. If so, we may expect to hear of the most striking events of the war in the East within the next 48 hours.

Judge P. G. SHANNON, of Pittsburgh, was serenaded at the Continental this evening. He was also sent in a Union speech.

The Curtin campaign may be said to be opened. W.

Proclamation from Gen. Meade.

HEADQUARTERS ARMY OF THE POTOMAC, Aug. 10.—The following proclamation has been issued by Gen. Meade:

Headquarters Army of the Potomac, July 13.

Numerous depredations committed by the citizens, or rebel soldiers in disguise, harbored and concealed by citizens along the Orange and Alexandria Railroad, and within our lines, call for prompt and exemplary punishment under the instructions of the Government. Therefore, every citizen against whom there is sufficient evidence of his having engaged in these practices, will be arrested and confined for punishment, or put beyond the lines.

The people within ten miles of the railroad are notified that they will be held responsible in their persons and property for any injury done to the road, trains, depots or stations by citizens, guerrillas or persons in disguise, and in case of such injury, they will be impressed as laborers to repair all damages. If these measures should not stop such depredations, it will become the unpleasant duty of the undersigned, in the execution of his instructions, to direct that the entire inhabitants of the district or country along the railroad be put across the lines, and their property taken for Government use.

GEORGE G. MEADE,
Major General Commanding.

The depredations, having been continued, a number of citizens, suspected or known to be complicated in these transactions, have been promptly arrested.

From Fortress Monroe.

FORTRESS MONROE, Aug. 9.—The expedition that left here on the 4th, under the direction of Major Gen. Foster, was accompanied by the turreted Iron-clad Sangamon and gunboats Commodore Barney and Cohasset.

They proceeded up the James river, and when within seven miles of Fort Darling, at a point called Dutch Gap, a torpedo was exploded under the bows of the Commodore Barney by a dock string connected with the shore. The explosion was terrific. It lifted the gunboats bows ten feet out of the water, and threw a great quantity of water high into the air, which, falling on deck, washed overboard 100 of her crew, among them was Lieut. Cushing, commander of the Barney. Two sailors were drowned. The rest were saved. Major Gen. Foster was on board when the explosion took place.

The enemy then opened upon them from the shore with a 12 pounder field piece.

Barney was penetrated by fifteen shots, besides a great number of musket balls, but not a man was injured except the paymaster, who was slightly wounded in the leg.

The gunboat Cohasset received five 12 pound shots, one of which passed through her pilot house, instantly killing her commander, Acting Master Knox, striking him in the back.

The Commodore Barney was towed down to Newport News to be repaired.

The object of the reconnoissance was accomplished, and the fleet returned.

From Cairo.

CAIRO, Aug. 9.—Maj. Greenwoldt, one of the paymasters supposed to have been lost on the steamer Ruth, is safe. He was not on the Ruth, having been left here, but followed on the City of Alton early in the morning. The latter boat passed the burning wreck, but not knowing what it was went on to Memphis, where the Major first learned of the loss of the Ruth, and returned here to day.

In consequence of the disposition of steamboat men on the Mississippi to extort exhorbitant rates of fare from soldiers passing up and down the river, Gen. Grant has issued an order regulating the prices. Commissioned officers will be charged three-quarters of a cent per mile, cabin passage, including berth, and pay fifty cents per meal. Enlisted men are half a cent per mile, with the privilege of cooking rations. Boats are not at liberty to refuse to carry any soldier traveling under proper orders. The penalties for violating this order are fine or imprisonment, at the discretion of a court martial.

Southwestern News.

MEMPHIS, Tenn., Aug. 10.—The report of Gen. Hurlbut's resignation is untrue. Gen. Halleck declines to accept it. Gen. Hurlbut therefore remains in command of the 16th Army Corps.

The Mobile *News* of the 31 says: We have multitude of reports, horribly detrimental to the character and patriotism of the people of many places of Alabama and Mississippi. Some of these are too disgraceful to publish. A portion of our people have gone stark mad. They are bastard Southerns and recreant Confederates.

The chiefs of the Choctaws have gone to Richmond.

Johnston's army, 25,000 strong, is still at Meridian and Enterprise, ready to go to Mobile or to the east, as circumstances may require.

Bragg is at Chattanoooga, with a part of his force at Rome, Georgia.

Extensive preparations are being made to finish the fortifications at Mobile,

From Washington.

WASHINGTON, Aug. 10.—During his recent visit to New York, Secretary Chase, on consultation with capitalists of that city, determined to continue the sales of the 5-20's till after ten days' notice to the public of their discontinuance.

Plates for Treasury Notes, bearing per cent after date, are being prepared for use, should it be found expedient.

No doubt is now entertained of the ability of the Secretary to procure all the funds necessary to the successful prosecution of the war, if economically and vigorously conducted.

Arrival of the Hartford.

NEW YORK, Aug. 10.—The U. S. steam frigate Hartford, Admiral Farragut, Mississippi squadron, arrived to-night.

Return of Gen. Shepley to Portland.

PORTLAND, Me., Aug. 10.—An immense audience crowded the City Hall to-night to greet Gen. Shepley, Military Governor of Louisiana. He made a speech two hours in length, which was received with enthusiastic applause.

A sale of 500 bbls "Standard" in bond, for immediate delivery, was reported at 50 and 60 bbls; free, prime white, at 59c. U. S. T.—1860—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

Which are now recommended by the highest medical authorities, and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supercede all other tonics where a healthy, speedy, certain cure is required.

They purify strengthen and invigorate.

They create a healthy appetite.

They are an antidote to change of water and diet.

They overcome effects of dissipation and late hours.

They strengthen the system and enliven the mind.

They prevent miasmatic and intermittent fevers.

They purify the breath and acidity of the stomach.

They cure Dyspepsia and Constipation.

They cure Diarrhea, Cholera and Cholera Morbus.

They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, winter-green, sassafras, roots and herbs, all preserved in perfectly pure St. Croix Rum. For particulars, see circulars and testimonials around each bottle.

Beware of imposters. Examine every bottle. See that it has D. P. Barnes' signature on our private U. S. Stamp over the cork, with plantation scene, and our firm signature on a fine steel plate engraving on side label. See that our bottle is not refilled with spurious and deleterious stuff. We defy any person to match the taste or character of our goods. Any person pretending to sell Plantation Bitters by the gallon or in bulk, is an imposter. We sell only in our log cabin bottle. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters or not, is a criminal under the U. S. Law, and will be so prosecuted by us. We already have our eye on two parties re filling our cases and quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c., is perfectly incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, steamboats and country stores.
