LEGAL DESIRITION OF THE REBELLION. Two questions must be considered:

1st. When did the rebellion become let. When our use research the enemy representation of the laws of war?

2d. What are the rights of the enemy representation of the laws of war?

The first question has been settled by the Supreme Court of the United States in the case of the Hiswaths, decided on the 9th of March, 1863. In that case, which should be read and studied by every citizen of the Dan Haggerty, Kighth ward, Win Morrison Dan Haggerty, Kighth ward, Win Morrison Dan Haggerty, Kighth ward, Win Morrison Cook Brown, Histon William ward, Win Morrison Cook Brown, Histon William ward, Win Morrison Cook Brown, Hall ward, Win Morrison Onto, the memors of the court undered in opinion as to the time when the war became territorial. The majority decided that when the fact of general hostilities existed, the war was territorial, and the Suprema Court was bound to take judicial cognizance thereof. The minority argued that as Congress alone has power to declare war, so Congress alone has power to recognize the existence of war; and they contended that it was not until the act of Congress of July it was not until the sot of congress of July 18th, 1861, commonly called the non-inter-course act, that a state of civil, territorial war was legitimately recognized. All the judges agree in the position "that since July 18th, 1861, there has existed between the United States and the Confedera States a civil, territorial war.
"That since that time the United State have full belligerent rights against all per-sons residing in the districts declared by the Presidedt's Proclamation in a state of reballion." STATE RIGHTS."
