PRIORS OF ADMISSION-35. 15 and 15 cents The New York Evening Post thus de-OF PITTSBURGH. EATON, MACRUM & (O.'s, H. P. Tuttle, of Eaglesville, relates an on the Boath, by the National Government, on what the rebellion is tottering to its fall:

The Southern States have no doubt endowed great wrongs under the Federal Government. Governor Seymour has declared this very emphatically in sundry of his public speeches, although Alexander Btephens, Vice President of the Southern Confederacy, in a carefully prepared speech, once as empatically denied it. Such as those wrongs were, the Federal Government is shout, not only to repeat them in a more grievous form, but to add to their number.

• • Let us make a little castallogue of the wrongs which the South has yet to endure on being received back into the Union.

We shall give it free speech and a free press. Vehemenity as these are disliked by the sisveholders, we must impose them on the South, which for years has denied them both to those who reside within its borders and to the stranger from the Free Btates. All this must be changed and a new order of things must begin, in which the discussion of any question of polity or legislation shall be strictly unfettered, and a traveler from the Northern States may say what he pleasees of any institution of the South, without the risk of being hanged on the next tree. There is no doubt that such the stream of the stream o scribes the "wrongs" about to be inflicted becorrence in a church in Indiana. Sev- Sixty-eight New and Popular Songs, No. 17 Fifth Street.
