LOCAL INTELLIGENCE.

From Yesterday's Evening Gazette.

Did Not Want Exemption.

As a general rule all the drafted men would rather be exempted on physical or other causes than pay the required $300. But this, like every other rule, has its exceptions. A young man residing in Lancaster county, who was drafted, was very fearful that he would not pass an examination, and while before the Board put on a martial mien, expanded his chest to its fullest capacity, kicked his legs about in a vigorous manner, and performed other antics, to show that he was what he claimed to be—a perfectly sound man. The examining surgeon, much pleased with the manifested zealousness of the young man to be accepted, after a short examination, packed him as one fit to make a good fighting man for Uncle Samuel. Every one expected that the young man would immediately report for duty; but he, by dint of pulling at doing anything of the kind, and his anxiety to be passed war owing to the following:

The young man had been paying his addresses to a young lady who, in addition to her personal charms, is worth a round sum of money. After he was drafted, the young man made a tender of his hand to the lady, but she had heard so much of that fearful complaint "physical disability," so prevalent amongst drafted men, that she refused to marry him unless he would pass an examination before the Board of Enrollment, and provided further that if he would pass, she would pay the $300 exemption for him, and make him her lawful master. The young man, much to his relief, passed as above stated; the young lady, true to her word, has already paid the $300 for him, and in a few weeks the couple will be united in matrimony—especially the money part.

A Substitute in Trouble.

A young colored man, giving the name of Cyrus Augustus Ball, was arrested on Tuesday, in Philadelphia, on the charge of misdemeanor in obtaining money under false pretenses. The defendant had been sent from this city, as a substitute for a white man who had been drafted in this place. He received the sum of three hundred dollars for so doing. He reached the camp at Chelten Hill, and soon after a habeas corpus writ was taken out before Judge Cadwalader. The mother of Cyrus testified that he was in the sixteenth year of his age. He was, therefore, discharged. Upon being restored to liberty, and as he was about to go his way rejoicing in company with his mother, he was arrested by an officer on a warrant already issued. He was charged with obtaining money under false pretenses. He admitted that he had received the amount of three hundred dollars, but had spent it. He was committed to await the action of the authorities of this county.

The New Postal Arrangements.

We have already alluded to the fact that our excellent Postmaster, S. F. Von Bonnhorst, Esq., has made arrangements for putting up a number of letter boxes, in the more remote parts of the city, for the purpose of facilitating the transmission of letters to the post office. Mr. Von Bonnhorst is now engaged in selecting the sites for these boxes, and we understand that about twenty of them will be placed in various parts of the city. As there is no post office between Birmingham and Temperanceville, two or three boxes will be placed on the south side of the river, between those boroughs. These boxes will be examined by carriers previous to the departure of each mail, so that while all time will be saved the trouble of taking long walks to the post office, their mail matter will be transmitted as safely and speedily as before. The arrangement will prove a great convenience to those whose business does not call them to the vicinity of the post office.

Fatal Railroad Accident.

A young man named John Keech, a fireman on the Pennsylvania Railroad, was so severely injured, internally, on Wednesday, at Kittanning Point, as to cause his death in a few hours after the accident. It seems that the engine upon which he was fireman had detached from a freight train it was pushing and dropped back for the purpose of taking water, and while Mr. Keech was attending to that duty, a portion of the train broke loose, and running back, came in collision with the engine, knocked him from the tank, up against the boiler, and from thence upon the track, injuring him as above stated, but not leaving a single mark upon his person.

EDITORS GAZETTE:—Allow me, through the columns of your paper, to call attention to the manner in which the Rebecca street, or "lower road" branch of the Pittsburgh, Allegheny and Manchester Passenger Railway is at present managed, or, more properly speaking, mis-managed. One serious cause of complaint with all persons along the line, is the irregularity in running, and although a car should leave the station every five or ten minutes, I have frequently had the choice of waiting from five to ten minutes after the time for starting, or trudge to dinner in the sun, while I have as frequently noticed three cars coming one direction, before one went the other direction. One fact which makes the matter worse is, that the irregularity is greater at noon than almost any other part of the day, owing to the drivers' "changing off" to get their meals. In my opinion, the substitution of the road shunt for this provision was made for the driver getting his meals. Than again, but three cars are run upon the road. Some time ago, after considerable exertion, on the part of the road, the fourth car was placed upon the track, and to all appearance, carried a sufficient number of passengers to justify its continuance. But alas! after a short career it was discontinued, and on making inquiry, I learned that three cars made as much money as four, and it did n't pay to run the car for nothing—an acknowledgment that public accommodation is a matter of too little importance to receive the attention of this corporation. The plain facts in the case are, that the parties having charge of the road are bent on making all the money possible, and fail to see that the course they are pursuing may pay for the present, but will not succeed in the end. FIRST WARD.

THREE YOUNG MEN BURNED TO DEATH.—On Wednesday night of last week, a fire broke out in the store and dwelling of Jas. Mulligan, in Fort Griffith, Luzerne county. Three young men by the name of Barrett were sleeping in the part of the building occupied as a dwelling, and perished in the flames. The mother and a sister barely escaped with their lives.

GEN. SIGEL COMMANDING IN PENNSYLVANIA.—Major General Couch, commanding the Department of the Susquehanna, has issued an order placing the districts of country including the counties of Berks, Schuylkill, Lehigh, Northampton, Carbon, Monroe, Luzerne and Columbia, under the command of Maj. Gen. Sigel, headquarters at Reading.

DISCIPLES' MEETING.—The annual meeting of the Disciples of Christ, for Western Pennsylvania, will be held in Excelsior Hall, Allegheny, on Friday, Saturday and Sunday, August 28th, 29th and 30th. A number of distinguished speakers will be present, including Rev. Alexander Campbell, of Bethany, Va.

MR. CHARLES KELLY, of Johnstown, Pa., a member of the 21st Pennsylvania cavalry, was killed on Thursday last, at the camp near Chambersburg, by his horse rearing and falling on him. He survived but a short time. He was about 22 years of age.

DEATH OF AN EDITOR.—The Mercersburg Journal announces the death of J. M. Bradley, Esq., one of its editors. His disease was typhoid fever, contracted while on a visit to Gettysburg, immediately after the great battle there.

ON LEAVE OF ABSENCE FROM CAMP CAMERON.—Lt. R. H. BAXTER.—If any friends of soldiers in Camp Cross, desire to send packages to parties, will leave them at Hahn & Riddle's, Allegheny, Diamond, before 9 o'clock on Friday.

HAND INJURED.—Mr. Shirey, conductor of a local freight train on the mountain division of the Pennsylvania Railroad, had his hand badly crushed, at Altoona, on Monday, while coupling two freight cars together.

HON. B. C. GRIER, of the United States Circuit Court, is not seriously ill, as reported, but enjoys better health now than he has had for years.

FIFTH WARD PUBLIC SCHOOLS.—The following teachers have been elected by the Board of Directors of the Fifth Ward Schools, for the ensuing year: Principal—Mr. A. Hartz. Grammar Department—Miss Lizzie A. Wilkinson, Mrs. E. Hawk, Mrs. J. L. Yost, Miss E. Munn. Intermediate Department—Miss M. J. McCreight, Miss Fanny Kyle, Miss Hester Munn, Miss S. Fleming. Primary Department—Miss A. McClelland, Miss B. Talbot, Mrs. E. Eshrod, Miss E. Grumlish, Miss E. Harrison, Miss L. Dalzell, Miss A. E. Irwin, Miss Jane Robison.

DEATH ON RATTLESNAKES.—On last Saturday, about two miles from Somerset, at what is called the "Rattlesnake Den," Chauncey Hanlon and Geo. Saylor killed thirty-one rattlesnakes and wounded several others. Four of these were very large, about as large as they generally get in this section of country. It is a pity that they were not "copperheads."

LATE TELEGRAPHIC NEWS.

FROM OUR EVENING EDITION.

Latest from Charleston.

FORT SUMTER DEFUNCT!

Grand Army and Naval Attack on Forts Wagner and Gregg.

THE CITY SHELLED WITH GREEK FIRE!

Protests of Beauregard, the English, French and Spanish Consuls.

GREAT TROUBLE IN CHARLESTON.

The Ruins of Ft. Sumter.

THE END APPROACHING

&c, &c, &c.

NEW YORK, Aug. 27.—The steamer Arago, from Charleston bar on the 25th, has arrived. C. G. Fulton sends a dispatch dated "off Morris Island, on the 24th, at noon." Admiral Dahlgren, at midnight on Saturday, with five monitors, bombarded Fort Sumter till six o'clock. The fort was struck over 100 times, the balls going through the sea-wall. The whole parapet was also knocked away. Fort Sumter fired one gun five times, but Moultrie, Gregg and Beauregard for three hours rained shells on the monitors. They were struck several times, but no harm was done. Fort Sumter is defunct. The last gun was dismounted yesterday.

To-day a grand army and naval attack on Forts Wagner and Gregg takes place.

Now that Sumter is defunct, the rebels will be driven from Morris Island. General Gillmore is determined to have possession to-night.

General Gillmore on Thursday notified Gen. Beauregard that if he did not surrender the forts he would shell the city in 24 hours. No attention was paid to the demand, and on Friday Gen. Gillmore threw 16 shells charged with Greek fire into the city.

On Saturday afternoon General Beauregard sent down a flag of truce, with an urgent protest denouncing the Greek fire as a most villainous compound, unworthy of civilized nations, and demanding more time.

The English, French and Spanish consuls also denounced the short time given, and claimed more time to remove the subjects of their respective countries. Gen. Gillmore replied by renewing his demand for surrender.

Beauregard asked a truce of forty hours. Gilmore refused time on any terms but an unconditional surrender.

At 12 o'clock last night shelling the city with Greek fire was resumed.

It is generally thought the stars and stripes will wave over Sumter to-night.

There is evidently great trouble in Charleston.

It is not believed there are over 200 men in the ruins of Sumter. Her guns are now mounted on Sullivan's Island. The end is approaching.

NEW YORK, Aug. 27.—The *Herald* has the following:

The Richmond *Enquirer* states: The enemy it seems have been able to throw a few shells into the city from a distance of five miles, and we are told Gen. Beauregard has protested against such proceedings on the ground of humanity. This protest will be of little use indeed. If he cannot disable those batteries which fired the shells.

The Yankee commanders, with their accustomed bravado, have demanded the surrender of Sumter, and our forts on Morris Island, but in this they can by no means be indulged. They will find that they are now only at the beginning of the siege of Charleston, and between them and that city there is still a fiery path to travel.

Union Mass Meeting in Johnstown—Speeches of Gov. Curtin and Gen. Bonneau.

JOHNSTOWN, PA., Aug. 27.—The largest and most enthusiastic Mass Meeting ever held in Cambria County, came off at this place last evening. Long before the hour appointed, the new Town Hall, accommodating over 1,000 persons, was filled to suffocation, whilst as many more were outside seeking in vain for admission.

The vast assemblage was adjourned to the public square, where they were addressed in a most powerful and eloquent strain by Gov. Curtin, of this State, and Gen. Bonneau, of Kentucky.

This glorious Union demonstration has spiked the opposition guns in southern Cambria, and prove conclusively that the fire of Liberty is not yet extinguished, but burns as brightly as in the days of Bunker Hill and Yorktown.

Morgan's Operations in our Front—Rumors and Government Trains Captured.

NEW YORK, Aug. 27.—The Times' special dispatch says:

Morgan's operations in our immediate front are assuming rather gigantic proportions. From a band of risky marauding his force has grown to 2500 able-bodied guerrillas, who prey upon everything which comes between Falmer and Warrenton.

Early this morning with his whole force he attacked a supply train between Centreville and Bull Run, capturing forty-one wagons, a number of government horses, and much other property, on its way to the army.

COMMERCIAL RECORD.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH DAILY GAZETTE, THURSDAY, Aug. 27, 1863.

The produce market is quiet and dull, with small transactions at about former quotations. Gold is a shade higher, being qu ted to day at 185¼ in New York. The rates for coin here, remain without material change.

FLOUR & GRAIN.—The flour market continues quiet and dull, without, however, any perceptible change in rates. Wheat is unchanged, and very dull, sale of 1,000 bush prime Shelled Corn at 75c, and 1,200 bush do on private terms. Rye is firm and in demand at 80c. Oats may be quoted at 55c by the car load, and 60c in the small way from store.

BACON—is firm but unchanged at 6¾@6¾c for Sholders; 8¼@8¾c for sides; 9¼@10c for Plain Hams; 10½@11 for Plain Canvassed; and 13@13½c for Sugar Cured. Sale of 5,000 lbs Shoulders at 6¾c and 7,000 lbs Plain Hams at 9¾c.

SEEDS.—Sale from store of 25 bgs prime new Timothy Seed at $3,50 ₩ bush. Flax Seed may be quoted from first hands at $1,75, and Clover $5,00.

HAY.—Continues in active demand and sells readily at full prices; sales from scales of 35 loads at $25@28 per ton, according to quality.

FRUIT.—Sales of 150 bbls apples, in different lots, at $2,50@3 per bbl, and 40 boxes Peaches at $3@4 ₩ bushel.

POTATOES.—firm but unchanged; sale from store of 75 bush Nockamocks at 75c ₩ bush.

CHEESE.—firm and a shade highery sale of 62 boxes W R at 10¾c.

Pittsburgh Petroleum Market.

AUG. 27.—The market for both Crude and Refined, has been less active to day, without, however, any particular change in rates. Crude was a shade higher, ranging from 24 to 29@30c, packages returned and included, with sales of 120, 163 and 213 at 24c, packages returned; 150 on private terms—understood, to be a shade over 28c; 120 at 29, and 53 at 30c, packages included. Holders of bulk oil are asking 25c. Refined was rather quiet to-day, and the transactions, as compared with yesterday, were light. Sale of 500 bbls bonded, city brand, to be delivered on the first of September, at 51c; and 825 bbls, free, an outside brand, at 60c. No sales of Benzine reported. Oil Barrels remain about as last quoted.

New York Petroleum Market.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, Aug 27, 1863.

The market for Crude is dull, and prices have declined fully one cent per gallon, with sale on the spot at 33@33c. Refined, also is a shade lower, with sales of bonded on the spot at 59@60c; September, 60@61; October, 64@65c; November, 67¼@70c. Refined, free, is held at 69@70c.

Metal Market—Advance on Nails.

As the rolling mills have again resumed operations, there is quite an active demand for metal, and large sales were made this week, at a slight advance over last month's rates. We quote:

Anthracite Red Shorts	$2,30—cash.
" Gold "	2,35—time & cash.
Allegheny Charcoal Metal	4,00@4,—time.
Penn's " "	4,50— "
Lake Superior " "	4,75@5,— "

There has been an advance of 25 cents per keg established on nails. The present prices are:

10d to 60d	$4,37½ per keg.
8d to 9d	4,62½ " "
6d to 7d	4,87½ " "
4d to 5d	5,12½ " "

There is an improved demand for bar iron, and our manufacturers have about as many orders as they can fill. So far, however, as prices are concerned, there has been no change whatever.

Wool.

The wool market continues unsettled and rather dull, the transactions being very limited. The great obstacle to this branch of trade, is the widely conflicting views of sellers and buyers, and especially is this the case in domestic discriptions. Some small sales have been made during the past week, at quite a range in prices. Some dealers quote as from 55 to 60c—others at 60@65c. The majority of our dealers, however, refuse to buy at over 55@60c, while producers, with but few exceptions, are holding out for higher figures. The clip in this vicinity, generally, remains in first hands, and the same can be said of the clip throughout the entire country.

Allegheny Live Stock Market.

THURSDAY, AUG. 27, 1863.

There was a short supply of Cattle on sale this week, especially good stealing qualities. The whole number offered did not exceed 600 head, not one-fourth of which were fit for the stall, and could not have been sold for, that purpose, if any other kind could have been obtained. All grades of cattle advanced in price except very inferior, which sold still lower than at any time this year. Good Cattle sold readily at 6@6½c, and some choice bullocks still higher, while fair stock sold equally well; but bulls and stags, a class of stock with which the market has been flooded for some weeks, could not be sold for over 3½c, and very slowat that; as there is no demand except for shipment, and this class of stock will not pay for transportation, as anything more than the hides are worth. There is a good demand for all classes of stock cattle, at prices ranging from 2½ to 3½c, and it is generally believed that these prices will be sustained during the coming fall.

The demand for Sheep cannot be termed brisk, though most all that offer are sold at about former quotations, 3½@4c. Good qualities of which there are but few in market—could have been sold at an advance of fully ¼ cent per lb, above our quotations.

There is an improved demand for Hogs, and several hundred head, strictly prime, changed hands at $4,00@4,10 per cwt, gross. It is but proper to remark, however, that only the best corn-fed will bring the above prices; common grades may be quoted at $4@4,25 ₩ cwt.

New York Coffee Market.

AUG. 24.—The market is firm, especially for the finer grades of Brazil, which are in request; the low grades have also attracted more attention, and a good business in such has been done in Rio at the currency of the close of last week. Other descriptions share a moderate inquiry, without change in prices. The sales include 3000 bags Rio, per Mount Vernon, and 2750 do, per Hannah, at 25½c; 2361 do, per Constant, 25½c; 810 do, in lots, 25@25¾c; 200 Maracaibo, 25½@26c; 101 Costa Rica, part 30 (cash); 300 mats Java, 34c; 1000 bags do, 33½c; 75 bags do, 32½c; Domingo, 26; and 500 Cape, on Boston to come here, 25, cash. The stock of Rio in the Country, as made up by Messrs W Scott & Son, is 93,813 bags, viz: 51,813 bags here, and 8500 at Baltimore—shipping 34c.

New York Sugar Market.

AUG. 25.—There has continued a steady good demand for New Orleans and the market is strong, both for Refining and Grocery grades, fine qualities of the latter being much sought after, the latter commanding very full prices, while Refining grades may be quoted ¼@½c higher. Fair Cuba being now worth 9¾c. The sales include 2526 hhds, and 100 bbls Cienfuegos, 56 bbls Clarified do, 1254 hhds Porto Rico, 1000 bbls, 163 hhds, 2 tcs, and 9 bbls Martinique, 106 bbls Nevis, 10¼@10¾c; 30 hhds Inferior N O, 8¾ and 991 hds Havana, 9¾@10¾c 6 mos.

SEMPLE GLAY, St. LOUIS, MO.

Having accepted the Agency for the sale of the SEMPLE CLAY, mined near St. Louis, Mo., I invite the attention of Glass and Steel Manufacturers to the Analysis given above, as reported by Profs. A. A. Hays, of Boston, and J. G. Booth, of Philadelphia, which, together with the test of actual experience by manufacturers in Pittsburgh, Cincinnati and St. Louis, determines it to be the purest and most valuable Clay now known, whether Foreign or American. Pots made from it have stood in the Glass Furnace from 9 to 9 months.

The Analysis is of the Clay as taken from the mine, without any washing or preparation whatever. It possesses great adhesiveness and plasticity qualities, which are not shown by the analysis, and which admit of the admixture of a large proportion of chalk or burned clay.

I am now prepared to fill orders for the above Clay, to be shipped from St. Louis or delivered here.
