OFFICE PITTSBURGH GAZETTE
Friday Morning, April 28.

The weather cleared up in the afternoon. The swell noticed elsewhere came to nothing, but we think there will be a rise, if but a moderate one.

The market for Flour was very dull yesterday, owing to the rain in the morning, and small stock on sale. Buyers were not disposed to go over $4.50 for round lots. A few small parcels sold at 56¼ and 62½. Nearly all the receipts are to go forward — There is more clearing by canal than previously.

Sales 8 tons Potash and Scorchings at 4½@5c, currency' and credit. Cheese of good quality continues very scarce.

Provisions continue an active demand, but at former prices. All arriving sells quick. Of Bacon, sales from store of 20,000 lbs city smoked, at 6½@6¾c for Shoulders, 8c for Sides, and a small lot Hams. The sales by the Packers are about as follows: at 6¼, 8 and 8½@8¾c. No Lard on the market worth notice.—Sales 20 bbls Rolls Butter at 10@12½c. 150 bbls Glass, country brands, at 2.37½ and 2.62½. A sale 100 bu Oats from canal at 28c—which is less agent. Sales 300 bbls No 1 Salt from boat at 80c; net bbl, and an equal amount from store, delivered, at 85c. Some arrivals of Hanging Rock iron, to go on the market—held at $35, credit, for h. b. 500 lbs good Feathers at 28c. 3000 lbs country mixed Rags at 3½c. 800 lbs Common and Skin Wool at 25c to 30c.

The condition of the Canal at Louisville at this time, renders it one of the greatest nuisances on the waters of the West. The water on the Falls is insufficient for the passage of St Louis and New Orleans boats, and the canal is so choked up with mud, boats are detained for more than two days at a time in it, while a dozen more are waiting—there. The Dutchess was the first boat to stock, and the Roscoe was detained two days and six hours. All the efforts to induce Government to buy this work or build another, and to secure a reduction in the enormous Tolls, have failed. It ought not to be endured, that the immense and increasing commerce of the West, should be limited and taxed as it now is by this monopoly.

We are happy to say we had a refreshing rain yesterday, which has had the effect of rendering things, in general, more agreeable, and will have the effect of raising the rivers. It commenced sweeling in the morning.

Capt Haslett is building a new boat for the Wheeling trade, in general, and any good trip, in particular. To be out July 1st.

The clearances of Produce by canal are very large. One Line alone, shipped 500 tons last week. As the receipts are now lighter, the surplus here will soon disappear at this rate.

There was rather an interesting sight on the River Thursday morning. The Beaver and Cincinnati Packets were leaving, the Roscoe coming in, two or three boats passing, and four Steam Ferry Boats in sight—making 12 steamers about at one time and seven of them close together.

The comments of the Cincinnati papers on the New York markets, Telegraphed to this paper on the 20th, need no notice. A sufficient answer appears in the Cincinnati Gazette of the very date on which they (the comments) appeared; being the N. Y. markets, as copied from the Tribune, proving our report to have been correct.

We copy below the memoranda of the Steamer Roscoe; from St Louis. It is one of the best we have had this season and every boat coming up should make out. The difficulty is that many boats make out no manifest at all.

The N. Y. Tribune of Monday evening says — Freights are quiet with plenty of vessels offering. Flour is 3s6d to 4s. Grain 10d@12d. Heavy freight 3s6d@4s. A vessel was taken at 12d for Ireland, two ports. To Antwerp, Grain was taken at 23c, and for something over 21.

The National Intelligencer says the Potomac Fisheries have yielded an abundantly within a few days, as to cause a great reduction in the price of Shad and Herring. At Alexandria on Monday, Shad were $4,75@5,50 per 100, and Herring $2,50@3,50 per 1000.

The Philadelphia Ledger says — Bank Stocks continue very firm, and as their business is large and unusually prosperous, their next dividends will probably show that the prices of stocks are not above their worth. We are informed that on a business of one million of dollars by one of our banks, its President declares there is not a loss of three hundred dollars, and, indeed, doubts the loss of a single dollar.

Extract of a letter from London, received by the Steamer Cambria.

We have had a long, though not a severe winter, everything has been fetching a most extravagant price. Brewers have had a bad time of it, malt having fetching as high as 9s 1p qr, and they are obliged to sell their beer at the cautionary price. Within the last 3 weeks things have drooped, and you may now buy the best malt at about 75s p qr, Hops are abundant, good, and cheap. Wheat is the hope you are not exporter. There has been vast deal of deal of speculation, in which you on the other side of the water, have had something to do.
