The state of the s hasted of the rich barvests yielded by our prompted as solid not inconsequence of anything done by this Administration, but nowithstanding all that has been done to the contray. It is because from the plenty of pred, and Scatand familiaring for help, because France, and, Germany, and Holiand are supplied with the staff of life from the plenty of our barms and store-houses, that we edjy that aucess which the friends of the Administration have been disposed to attribute to what they call free trade. If there could forever be a familiary finded on a warring Scotland and hungry millions to feed in Europe, why then our commerce, from such a care allows and hungry millions to feed in Europe, why then our commerce, from such a care allows and hungry millions to feed in Europe, why then our commerce, from such a care allows and hungry millions to feed in Europe, why then our commerce, from such a care allows and hungry millions to feed in Europe, why then our commerce, from such a care allows and a many lasted of the first and the control of the privites purpose that no uther lates of solid that any nature and the such as the privite of the privites purpose that no uther lates or solid forever be a familiar from the foundation of the privites purpose that no uther lates or solid forever be a familiar to the foundation of the flates of the first and purpose the solid purpose that no uther lates or a courtry whose will be a solid the first and the court of the solid purpose that no uther lates or a courtry whose will be a proved the first and a solid purpose that a purpose the solid fores and the court of the flates of the first and purpose the solid purpose that no uther lates or a courtry whose will be a solid purpose that the first of July hout the state of the first and purpose the solid purpose that the solid purpose of the purpose of the purpose of the purpose of the purpos

to famine, how wer wise it may be for a prudent called up at some subsequent day.

people to prepare far one when it is threatened; and our second suggestion is, that God in his promiliance may change the thetate of his seeming. and our second suggestion is, that God in his providence may change the theatre of his seeming displeasure. We have seen the day, and that not very far distant, when even this now fulfull country has been dependent upon grain grown in Europe for the necessary daily supplies of the people; from both the Baltic and the Bisck sees, wheat has been landed upon our shores within a dozzen has been landed upon our shores within a dozzen years past. The time may come again, though we hope not; but the facts of which we write are sufficient to condemn the deception practiced by men in power, and by presses speaking for such men, whonever they trace the present prosperity of the country to any of the measures of the Ad-Mourca in Congress mesendled. That the present congress mesendled, that the intersects and honor of our country should be orded; has the intersects and honor of our country about he orded. We say and defended of the security so all defended to be presented in the intersects and honor of our country about he to recoming a the presents and honor of our country about he to recoming a the form of the sea and defended, so long as the presents and honor of our country about he to recoming a the form of the sea and defended, so long as the presents and honor of our country about he to recoming a the form of the sea and defended, so long as the presents and honor of our country about he to recoming a the form of the sea and honor of our country about he to recoming a the honor of our country about he to recoming a statistic and honor of our country about he to recoming a the honor of our country about he to receive the season that he interests and honor of our country about he be described and defended, so long as the present and defended, a long as the present and defended or long as the season has deep recent and the form of the country to constitute the presents and honor of our country about he be present and defended or recoming the same the transition to be considered.
