"With mitth, with song, with tabret and with harn." was the music with which Laban would have regaled Jacob in olden time, and almost from the time of Laban to the present day, Music, in attraction of mankind. It is, indeed, the conne ting link between the old and the new, and it many tuings between present results and future anticipations. All nations, people and persuasion

cannot show too high an appreciation of such an der a Constitution, making men secondary an art. One might go, like the German Robbers, from law suprems, when thus the independence of the the song of the carousal to deeds that would regislature is trampled under foot? The next Co frighten the souls of men trained to duty and en- gress, Providence be praised, will be beyond the uses, tends to temper the judgment and soften ev- bate, or impose silence upon the Executive. aught more freely than it is. Of old, in Egypt the young were taught Music as a branch of com.

of the mechanical currosities of this far famed mechanical city. The machine at Pittsburgh with six moulds, makes about 36 bricks per minute, and rages over twenty thousand for a day's work annum. There are several machines of the same and espable of making double the quantity of the

gard this as one of the most wonderful we have Assembly: as simple as valuable. A machine like this we making, and in process of time it no doubt will, but in a country improving as this is, and where from three thousand to five hundred edifices go ip in a year, (these are the numbers for New to the demand. The process of this unique mode

of manufacturing is as follows:

The clay is taken from the Bank to the machine

or a brick. The lower cam lords unlower plung-er with the brick to the top of the mould, while the filter box is coming forward to fill the mould, pushes the brick towards the off-brearry, (boys) who place them on waggons or barrows which are wheeled to the kin and set, dispensing entirely with the process of drying and packing usually

the judgment of Gen. Scott's friends, another call for the record, we undertake to say, on the part

The Union's notions of due season and du The entire Whig party in Congress called loudly. called loudly, for the President's order for the admission of Santa Anna to Mexico. It was, however, like calling spirits from the vasty deep. They would not come when called. Mr. Ashmun's Resolution, asking for information, must have been thout authority, it promises info

Hall Read Mevements.

The question whether the city authorities of Nashville should subscribe for \$500,000 of stock in Nashville should subscribe for \$500,000 of stock in Nashville and Chattaneoga nailroad having been submitted to the voters of that city, was decided by an overwhelming majority in favor of the measure. The vote stood, stock 724, no stock 285—majority in favor of taking stock 450. The sanction of the Legislature will be necessary before the corporation can issue the bonds.

pay 15 per cent. The receipts for the two past seasons, for six months, to June 1st, have been thus: 1645-6, \$131, 410 75; 1846-7, \$160,275,75.--

Aprents Restricts in New York masses, and all strokes, peeples and prevances, and all show had their beaus. As whether of the vices, sugging like Dougl, their strokes, and the vices of the vices, sugging like Dougl, their strokes, and the vices of the vices, sugging like Dougl, their strokes of the vices of

mon education. In Germany now-more are not achools for the instruction of the young where Music is not taught, and we hope, that with all the bad customs which we borrow from the Old World, we may in time imitate this which is wor, thy of all praise and admiration.

Brown's Patens Brick Machine
Hann Manirr Proparation, designed for manufacturing bricks out of dry clay, has been in successful operation since January 1846. We have a contended in the successful operation in the state which is more included by no other hotel in the country. We understand the Messry. Brown contemplate making further improvements in their establishments as form Nat. Int.

All of which is well deserved. The Messre

of ten hours and between four and five millions per ple, and there is no hotel at the Capitol more

County held a Convention on Monday, 12th inst., Among the new things under the sun, we re- and nominated the following ticket for Senate and Senate—David Sankey, Mahoning.
Assembly—Robert Black, Springfield, Wm.
Leech, Salem.

Mr. Sankey is well known throughout the Com monwealth as an able representative in the Leg-islature during the sessions of '45 and '46. Should will be little doubt of his election. A more popular candidate could scarcely be found in that Senatorial District. The ticket is altogether wor-

The clay is taken from the Bank to the machine without undergoing the usual process of tempering with water. From the hopper in which it is deposited it is conveyed by elevators to another hopper under which are two cylinders or rolls, revolving at different degrees of speed and motion which the clay passes and falls on a row of stationary teeth while revolving teeth pessing between the stationary ones, cuts or polyérizes the clay to powder. This, falling into a trough is conveyed through spouts to small filler boxes, which pass over the moulds and fill them.

The pressure is then given by cams operating above and below on a set of pistons or plungers, pressing the clay equally on both sides to the size of a brick. The lower cam forces the lower plungers with the brick to the top of the mould, while the Silar box is coming forward to fill the mould, where the plungers is the silar box is coming forward to fill the mould.

ROME, 1847.

ROME, 1847.

Abrorch of Contract of Hank and Styons.—Our cities of the contract of Naminis should emperinator poor, so the surface of a relation of the surface and matching and point is the voters of the legislature will be measure. The vote stood, stock 724, no stock 725—majority in favor of taking stock 459. The sanction of the Legislature will be measure before the corporation can issue the bonds.

We hope to see, ere long, dust such a question put to the people of the counties interested in our Rail Roads East and West, and with like increase. Public improvements are for the benefit of one class of laborers than another. They improve the value of property, the demand for labor and the general property, the demand for labor and the general property of the country. It is but flit that those who derive great benefit from their existence should pay something for the good received.

Cexyral Pa Rail Rada.—The Lewistown Gazette of Saturday, July 10, says.—The engineers, off-the Central Railroad completed their survey to this place on Thursday evening—neers off-the Central Railroad completed their survey to this place on Thursday evening—neers of the proved by turning out 27 of the police. On New-many flags and the care of the candidate of the ca

neers, cf.:hs Central Railroad completed their survey to this place on Thursday evening—
They will cross the river to this side a short distance above Lewistown. The Chief Engineer,
Mr. Thompson, we understand is making. a re
connoisance of the Alleghenies.

Micrican Central Railroad method the dependence of the Place of the Pale Pales. The Pope came out on a balance above Lewistown that a fill br air has commenced, and a car house of 400 feet length is also commenced, and a car house of 400 feet length is also commenced, and a car house of 400 feet length parity completed. The expenditures for improving the depois, and on the read this year, will be \$1,000.

The expenditures for improving the depois, and on the read this year, will be \$1,000.

On They grading of the canal by opening a passage through the aqueduct, is that this structure is now prefrectly tight, and it is not desirable to do anything that would in the less tingine the aqueduct. There is a rewer running down Ohars street to the river, which is five fort in the clear, and lower than the bottom of the canal. The oxpenditures for improving the depois, and on the read this year, will be \$1,000.

The grading of the canal by opening a passage through the aqueduct, is that this structure is now prefrectly tight, and it is not desirable to do anything that would in the less tinging the track of the Michigan Central converted anything a passage through the aqueduct, is that this structure is now prefrontly on the street in the river is now prefrontly on the street is to take place to-day for the purpose of setting any place of the canal by Garcie to the structure. The objection, as we have been infurmed, to the canal their interal these that the structure interaction is total their interaction, as we have been infured, to the canal their interaction, as we have been infured, to the canal their interaction, as we have been infured, to the canal their interaction, as we have been infured. In the canal their interaction is to take place to day for the purpo

A Saxura of 100 guns, being the usual salute for a Whig victory, was fired on the Common at Boston on Monday, in honor of the triumph in New Hampshire.

Public Improvements—The Rail Road Westown in common within the limits of the county
of Arocstock, thirty dour townships of surveyed
land, 1,200,000 acres of unsurveyed land.

It is stated in the London Shipping Gazet e
on undoubted authority, that within the last five
years, the English men-of-war on the Sastin above
2000 acamen; and it has been exertained, for
official purposes, that the American men-of-war
on the same stations are more than half manned
with English men-of-war and merchant seamen.

Desartizes—Capital Adams brought over two
deserters from the U.S. Army, by the names of
Isase McPields and Christian Reath, who aband
oned their colors and fied to the enemy, just before
the battle of Buena Vista—They were receptured during the battle—New Orleans Times.
