THE LICENSE LAW

Will probably be reported during the session in reply to that delivered by Mr. Ames...

In the popular sense of the term, it is legislative power to make laws for the people...

The law under revision, contemplates a multiplicity of domestic relations...

What will be the result of the proposed changes? It is difficult to say...

The disadvantage of frequent changes in the law is that the people know not what they are...

It is not likely that the proposed changes will be adopted in their present form...

The character of the American people is such that they will not accept of a law...

The whole address is in the same tone, and it would seem almost a hopeless task to break the spirit of a people thus repugnantly determined...

Marriages Among the European voters who the American army has hired to kill...

It is a general statement that the people of this country are not in a mood to accept of a law...

The member who drafted the bill, very properly knew that the majority of the country...

This is the great question of the case, and it is not likely that the proposed changes will be adopted...

The first judgment of that high court was that a State might, by legislative enactment...

The power therefore which they possessed as a people, was distributed among the different departments of government...

The power therefore which they possessed as a people, was distributed among the different departments of government...

The power therefore which they possessed as a people, was distributed among the different departments of government...

The power therefore which they possessed as a people, was distributed among the different departments of government...

BY MAGNETIC TELEGRAPH

Correspondence Pittsburgh by Electric

Correspondence of the Pittsburgh Gazette

REPORTER SPECIAL TELEGRAM

By the arrival at Charleston of the schooner

Boomer, five days from Havana, we have later

dates from Vera Cruz.

The English steamer Medway had arrived at

that port from Vera Cruz.

The papers are filled with extracts from Vera

Cruz, but the most interesting is that which

is contained in a correspondence dated from Vera

Cruz, September 29, 1917.

It is a circular to the citizens of several of the Mexican

States, inviting them to send their delegates to the

legislative assembly in a corresponding date from Vera

Cruz. It also states that a division of 15,000 men

had been sent by Scott to Vera Cruz, a place

near the city of Mexico.

The New Orleans papers failed to arrive today

at Pittsburgh.

Exclusive Correspondence of the Pittsburgh Gazette

PHILADELPHIA MARKET

Flour—The market is quiet and without change

Flour is held generally at \$1.10 per bushel

Common—Moderate at \$1.00 per bushel
