He particularly invites such as have been long and unsuccessfully treated by others to consult him, when every satisfaction will be given them and their cases treated in a careful, thorough, scientific and manner, pointed out by long experience, study and investigation, which it is impossible for those engaged in compounding of medicine to give any one class of general practice of medicine to cure any one class of disease.

50,000 DEATHS BY CONSUMPTION

Would perhaps be a small estimate for the ravages of this dreadful disease in a single years then add the fearful catalogue of those cut off by Inflamation of the Lungs, Hemorrhage, Asthma, Coughs Influenza, Bronchitis, and other diseases of the Uterus, or Womb which enables it to perform its functions in all their native simplicity of action and freedom from pain.

It is a singular fact, also, that the Indian women of North America are in a remarkable degree free from those pains and dangers of pregnancy and child birth to which the white women are subjected—Whether they use the same plants as do the women of Asia we cannot tell. Certain it is that the fact is no less remarkable than true.

This Remedy is now extensively used throughout France with the most marked success and many females who were once single through apprehension of the dangers consequent to the state of marriage the duties of wives and mothers with comfort and happiness.

It is at this time now first presented to the women of America, by Dr Bordeloque, through his sole agent, Dr A C MORTIMER, and he feels confident that independent of its intrinsic merits it will recommend itself to the favor of the discriminating, as it is totally calculated to do away with that horrid crime of which some, through fear of pains of child birth, are guilty, (the production of premature delivery.)

This medicine is also remarkable for remedying that hitherto incurable disease Barrenness, and its almost constant accompaniment Fluor Albus; in fact that relaxed and fallen state of the Womb in which complaint this disease is never felt after the shortest use of this medicine.

This medicine is prepared in such a way as to be agreeable and pleasant to the taste.

Dr A C MORTIMER, No 36 1-2 Lispenard st, New York, has been appointed sole agent for the United States, by Dr Bordeloque, and is the only person in this country who is authorized to vend this invaluable medicine, as the following letter will show:

(*Translated from the French.*)

PARIS, June 10th, 1847.

Dr A C MORTIMER—Dear Sir—Agreeable to the agreement entered into between us, I wish by this letter to inform you that written authority to sell throughout the United States, (my Remedy for relieving the pains and dangers incident to pregnancy and child birth,) which I have been using for you to good and satisfactory result, I will cheerfully furnish you. As you are aware the exposure of the medicine to the influence of the sea air obliged me to send it to you in a concentrated state, I have also sent you instructions of the manner in which it is put up in Paris. In like manner I should wish it to appear in the United States. Sir, with great esteem I am your friend and obedient servant,

P. BORDELOQUE, M. D.

P S—I also send you a copy of a letter received by me from the Royal Academy of Science, at Paris.

(*Translated from the French.*)

Paris Jan 22, 1846.

To M. BORDELOQUE—Sir—The commissioners of the Academy have appointed the undersigned to examine into the merits of the discovery regarding the remedy you employ during the dangers incident to pregnancy and child birth. Several eminent Surgeons having submitted to the Academy the results of their experience in the use of your remedy, we have at present to report before you, believing it to be the best test to refer before you, believing it to be the best decision regarding its claim to distinction, and of its great value, that either you or the public could desire. Whatever opinion this body may possess on the members of the profession will exerted no further that adoption of this remedy into general use, which as a scientific discovery and as a valuable remedy, it so richly deserves. Eight Physicians having used this medicine, each in fifty cases of delivery, found it entirely successful in promoting a favorable and easy delivery, lessening the pain and danger. With the exception of three patients and danger. With the exception of Dr Paquet there was a perfect immunity from any subsequent weakness or disease; one of these terminate in consumption, is effectually relieved and three a laboring woman who had met with a severe fall a week previous to confinement, was taken immediately after with a profuse hemorrhage, which was with difficulty arrested. The other two malformations of the pelvis, were in no wise relieved of pain. These key exceptions to the general rule of cases as they do show the undoubted efficacy of your remedy, and have determined us to give it that recommendation and approval which is due to it, and the furtherance of scientific medicine (Signed)
