MISCELLANY.

If I were a Rich Man.

"If I were a rich man!" said Mr. Harris,

"And suppose you were, neighbor, what then!" said Mr. Brown, who overheard the exclamation.

"Why, I'd give to the poor, and reap the pleasure of charity."

"You would, would you?"

"Yes, sir, most certainly."

"And wouldn't wish to keep a trifle for this purpose or for that, and ride in your carriage, when you might as well go afoot?"

"No, sir, not I, Mr. Brown."

"And would prove yourself an honorable exception among the rich men, would you?"

"I should try, I think."

"But what makes you think you would be so much better than the rich in general?"

"O, I can't say, exactly; I suppose it is because I so frequently experience the inconveniences of poverty."

"You poor! Mr. Harris. Why, I always considered you a wealthy man."

"*Me* wealthy! Why, sir, I couldn't muster five hundred dollars, if I should sell every thing I possess. Rich! I'd like to own my dinner before I eat it; I am sure I should grow fat at the here thought."

"But, Mr. Harris, what would you really do if you were as rich as John Jacob Astor?"

"Well, I don't know exactly what I would do with so much money as he has; but one thing is certain, I'd give all the poor in my neighborhood one good dinner."

"Is that all?"

"O, no! I would repeat the dose so often that the leanest should cry enough!"

"Well, Mr. Harris, I have heard a great many people talk in just this manner; but when Providence has blest them, they have almost invariably forgotten their good resolutions."

"Some may have done so; but just give me a chance, and I'll show you the difference."

"Ah! I fear, neighbor," said Mr. Brown, as he walked away, "but few are able to withstand temptation."

"And I am willing to be tempted; the sooner the better," said Mr. Harris, and he passed on.

But one year from the date of the above conversation, Mr. Harris was what the world calls a rich man. An uncle had died in the Indies, (or some where else,) at just the lucky moment, leaving him sole heir to a fortune. Mr. Harris' first intelligence was a draft for fifty thousand dollars, payable at sight. The poor man could hardly contain himself for joy! a thousand brilliant visions danced through his brain. His wife should not labor; his children should be finely dressed, and delicately fed—and—his neighbors should have—yes, he would give—something to his neighbors.

The news of his good fortune spread like wildfire. Friends gathered round to congratulate. One and another volunteered this service and that—offers they would never have made but for the ringing of that same fifty thousand dollars.

Mr. Harris moved from his humble cottage to a splendid house in town.—Mrs. Harris no longer performed the drudgery of her family. Jane and Ellen left off knitting mittens for their brothers and Henry and Edward split no more wood for the kitchen fire.

With wealth came wants unnumbered. Labor once performed from necessity, was renounced entirely, and with it the pleasure that labor brings.

Mr. Harris soon found himself unable to walk. Horses must do the drudgery his limbs had hitherto been able to perform, while pampered appetite rejected wholesome food, which not long ago crowned his table.

In the process of time Mr. Harris fell ill. Mr. Brown, who had never lost sight of his old friend, now renewed his former friendly intercourse. Dim recollections of a conversation once held with this same Mr. Brown, haunted the sick man's mind. He was willing to be tempted; his wish had been granted; and, like many others, proved him a frail man. During a protracted illness, recollections of neglected opportunities and wasteful extravagance troubled him. Resolutions for the future were frequently avowed, but, through the arrangements of Providence, nipped in the bud.

The man who but a few years ago found his heart so deeply touched with sympathy for his fellows, had not fulfilled his better promptings when means were in his power, and sought therefore to atone for past neglect, by bestowing in one generous bequest that which he could no longer retain, purchasing at once a name in the world for charity, and a right to be remembered at the portals of heaven. Mayhap the knowledge of his ultimate benefactions preceded his own appearance there, but unbelief questions the efficacy of such claims for admission.

Were this an overdrawn, or solitary case, charity would prompt us to drop the veil, and bid him God speed in his journey on the skies. But many a man, with means at his command to alleviate much of human suffering, pleads inability with the piteous addendum, "If I were only rich."

"If I were only rich." What then? The good performed in this world is not estimated by dollars and cents, by Him that seeth the heart. There was once a poor widow, more commended for the bestowal of two mites, than her wealthy compeers for their large gifts. "Do good as ye have opportunity."—*Troy Budget.*

Mr. Macaulay's Intentions.—The English Nonconformist Magazine, in explaining the reasons of Mr. Macauley's defeat at the late election, thus speaks of his future intentions:—"Mr. Macauley has a great work in hand—the History of England, from the time of the revolution of 1688. The first two volumes are now nearly ready, and, according to those who have seen them, they are superior to anything that the author has ever yet written. A man of the age of fifty does not surely expect to be able to complete such a great work in his hours of leisure from the performance of duties as a Cabinet Minister. Fifteen years of almost undivided attention would not be too much to bestow on a production of such magnitude. Mr. Macauley should no longer

To party give up what was meant for mankind.

Last year he declared that he would never become a candidate for any other place, should the electors of Edinburgh reject him. It is to be hoped that for his own reputation he will adhere to his promises, and confine his future attention to literature, in pursuit of which he finds a pleasure which, to use his own phrase, "the pursuits and honors of political life can neither give nor take away."

MEDICAL.

SEVERAL REASONS WHY DR. LEDDY'S SARSAPARILLA BLOOD PILLS are becoming so universally popular.

First, Because they are prepared by Dr N B Leddy himself, a regular Druggist, Chemist and Physician of Philadelphia, who knows the nature, the quality and character of the Medicines used in his pills and their adaptation to disease.

Second, Because the public can take them with greater confidence than most other pills which are prepared by persons ignorant both of medicine and disease.

Third, Because of their combined effects, properties not contained in any other pills; namely, purging from the stomach and bowels all unhealthy substances, and at the same time purifying the blood and fluids of the body.

Fourth, Because they are the cheapest and best medicine known—a single box costing but 25 cents, and containing 40 pills, saving to persons as many dollars oft-times in Doctor's bills, and numerous medicines bought & tried on the recommendation of others.

WHOLESOME ADVICE.

Whenever you have occasion to take any medicine, do not be trifling with your constitution by trying all kinds of pills or other medicines you best understand and recommended by one and another but take at once

Dr. Leddy's Sarsaparilla Blood Pills

and you will not have occasion to take anything else. They will always be found good in almost all forms of disease, inflamation of the stomach, bowels, liver and intestines; cramps of the stomach; colic, Waterbrash; inward fevers, foul breath, bad taste in the mouth, Sour eructations and acidity of the stomach, costiveness and indigestion, want of appetite, billious affections, diseases of the spleen and kidneys; diseases of the skin, scaly eruptions; dry and watery pimples or blotches of the face and body; tetter; rash; prickle heat and salt rheum, headaches, giddiness, faintness; pains over the heart, of the breast, sides, along the back and spine, rheumatism and gout, fevers of all kinds, small pox, varioloid, measels, scrofula, erysipelas, and in short they are good in all diseases having their origin in the stomach, liver, and intestines, and impurity of the blood

DR. JAYNE'S FAMILY MEDICINES.—It is our principle in the management of this paper to notice anything which we find out, from personal investigation, to be of utility to the public. Some of Dr. Jayne's medicines we have used in our family for many years: For instance the EXPECTORANT, the CARMINATIVE, and VERMIFUGE, which we know to be good for the complaints they profess to cure. We were on Lake Ontario the past summer, when several persons were taking passage, (most having, in Western New York, drank, for many days, the limestone water of that region, were badly attacked with violent Diarrhœa and Dysentery. Mr. B. happily provided himself previous to leaving home, with "The Carminative of Dr Jayne," and in all cases of its use, among five sufferers, it was successful in effecting a speedy cure.

The Expectorant we have known used among our intimate friends with equal success; and we feel that we shall do a good act to families (especially those situated as they cannot have access to immediate medical skill,) to advise them to keep on hand both the Expectorant and Carminative. The Expectorant is believed by good physicians to be the best recipe for Pulmonary Consumptive Complaints, that has ever yet been compounded. The reason is, Dr. Jayne is not a quack, but a regular, scientific, and able medical practitioner himself. His medicines are used by the best physicians.

For sale in Pittsburgh at the PEKIN TEA STORE, 72 Fourth st, near Wood. sep29

DR. JAYNE'S CARMINATIVE BALSAM FROM the Rev ASA SHINN, a well known and popular Clergyman of the Protestant Methodist Church in the

The undersigned having been afflicted during the past winter with a disease of the stomach, sometimes producing great pain in the stomach for from twelve hours without intermission, and after having tried various remedies with little effect, was furnished with a bottle of Dr Jayne's Carminative Balsam. This he used according to the directions, and found invariably that this medicine caused the pain to abate in three or four minutes, and in fifteen or twenty minutes every uneasy sensation was entirely quieted. The medicine was at rewarded used, wherever indications of the approach of that severe paroxism were perceived, and the pain was thereby prevented. He continued to use the medicine every evening and sometimes in the morning, and in a few weeks health was so far restored, that the sufferer was relieved from a large amount of oppressive pain. From experience, therefore, he can confidently recommend Dr Jayne's Carminative Balsam, as a salutary medicine for diseases of the stomach and bowels. J A SHINN

Allegheny city, 1846.

SCROFULA AND SCROFULOUS SWELLINGS.—Scrofula in all its multiplied forms whether in that of King's Evil, enlargements of the glands or bones, Goitre, White Swellings, Chronic Rheumatism, Cancer, diseases of the Skin or Spine, or of Pulmonary Consumption, emanate from one, and the same cause, which is a poisonous principle more or less inherent in the human system. Therefore, unless this principle can be destroyed, no radical cure can be effected, but if the principle upon which the disease depends, is removed, a cure must of necessity follow, no matter under what form the disease should manifest itself. This, therefore is the reason why JAYNE'S ALTERATIVE is so universally successful in removing so many malignant diseases. It destroys the virus or principle from which those diseases have their origin, by entering into the circulation, and with the blood is conveyed to the minutest fibre, removing every particle of disease from the system. Prepared and sold at No. 8 South Third Street, Philadelphia.

Sold at the Pekin Tea Store, No. 72 Fourth street, Pittsburgh [mch31

SCRATCH, SCRATCH.—TETTER, ITCH, SALT RHEUM, &c.—Who would have a single day scratch, who afflicted with the Tetter, Itch, or other diseases of the skin, if they knew who would relieve and cure them.

This horrible to be obliged to rub and scratch when alone, but more horrible to shame from us the unsightly sight, when company is present. Let it be remembered that DR. DRIVER'S TETTER AND ITCH OINTMENT is the most efficacious of any other preparation in existance in curing the Tetter, Itch, and other diseases of the skin. As all diseases of the skin must arise from the impurity of the blood and fluids of the body, and where such disease be of long standing, and the constitution affected thereby, if Dr Leddy's Sarsaparilla Blood Pills be used with the Ointment, they will cure any case whatever, and if they do not the money will be returned by Dr. Leddy. Most cases, however, will be effectually cured by Dr Leddy's Tetter and Itch Ointment, unless the whole system is impregnated by the diseased humors, which will be completely carried off from the system by Dr Leddy's Blood Pills, and the surface of the skin healed by the Ointment. Price of Ointment 25 cents. For sale by B A FAHNESTOCK & CO

corner of Wood & front st.

PULMONARY BALSAM.—Messrs. Reed & Cutler—I feel it a duty I owe to my fellow creatures to state accurately my case respecting your Vegetable Pulmonary Balsam. Since I first used your Balsam, about eleven years ago, the happy effect of which I then gave you a account of, I have not had any severe complaints and attacks at my lungs—one a few days since—as I always find by instance I have used the Balsam alone with complete and perfect success. It has effected relief and cure in a very few days. It is certainly a safe medicine. I do not know that it will cure a fixed consumption; but I believe it will be in many cases a preventative, and prevention is better than cure. I do there for, for the love of my fellow men, earnestly recommend the use of this Balsam in all pulmonary complaints. I am confident that it has been the means of preserving my life to this day.

MORGAN'S COUGH SYRUP.—It proved to be the great Panacea in curing my child's distressing cough.

From the Temperance Banner, Nov. 3, '47.

COUGH SYRUP.—We are not in the habit of puffing much less taking Patent Medicines, but we feel pleased to recommend Morgan's Syrup to those who are afflicted with a cough. After having tried the usual remedies to remove a constant and distressing cough that had for several days afflicted one of our children, without success, we were induced to try Morgan's Cough Syrup, and by it relief was obtained in a few hours. It proved to be the panacea in this case at least.

MISCELLANEOUS

CHILD BIRTH.
DR. BORDELOQUES' CELEBRATED REMEDY.

FOR relieving the pains and dangers incident to Pregnancy and Child Birth, which insures the easy and unprolonged process of the functions of woman which Nature, when uninfluenced by the luxuries of civilized life, intended should be performed expeditiously, with little pain, and without subsequent indisposition.

Dr Bordeloque during his travels in Asia, observed this remarkable fact. That the women of those countries are peculiarly different from all other lands, in this respect—that they are free from the pains and dangers which make the period of Pregnancy an object of so much anticipated suffering and risk. Curiosity and the zeal for Scientific discovery prompted him to investigate the cause of this remarkable exception to the severe trials to which the married females are generally subjected, and the result was the discovery of the fact that the women of those countries were as the habit of using during the last stages of Pregnancy, a certain plant which have the faculty of imparting that degree of tone and elasticity to the nerves and blood vessels of the Uterus, or Womb which enables it to perform its functions with their native simplicity of action and freedom from pain.

It is a singular fact, also, that the Indian women of North America are in a remarkable degree free from those pains and dangers of pregnancy and child birth to which the white women are subjected—Whether they use the same plants as do the women of Asia we cannot tell. Certain it is that the fact is no less remarkable than true.

This Remedy is now extensively used throughout France with the most marked success and many females who were once single through apprehensions of the dangers consequent to the state of marriage are now by the use of this medicine, performing the duties of wives and mothers with comfort and happiness.

It is at this time now first presented to the women of America, by Dr Bordeloque, through his sole agent, Dr A C MORTIMER, and he feels confident that independent of its intrinsic merits it will recommend itself to the moral part of the community, as it is fully calculated to do away with that horrid crime of which some, through fear of pains of child birth, are guilty, (the production of premature delivery.)

This medicine is also remarkable for remedying that hitherto incurable disease Barrenness, and its almost constant accompaniment Fluor Albus. The fact that relaxed and fallen state of the Womb which accompanies this disease is never felt after the shortest use of this medicine.

This medicine is prepared in such a way as to be agreeable and pleasant to the palate.

Dr A C MORTIMER, No 36 1-2 Lispenard st. New York, has been appointed sole agent for the United States, by Dr Bordeloque, and is the only person in the United States who is authorized to sell this invaluable medicine, as the following letter will show!

(Translated from the French.)

PARIS, June 10th, 1847.

DR A C MORTIMER—Dear Sir—According to the agreement entered into between us, I wish by this letter to give you that written authority to sell throughout the United States, (my Remedy for relief and cure in all cases of Pregnancy and Child birth,) which it is necessary for you to have to satisfy the public of its genuineness and purity. As you are aware the exposure of the medicine to the influence of the sea air obliged me to send it to you in air tight vessels. I have also sent with it, a specimen of the manner in which it is put up in Paris. In like amanner, I should wish it to appear in the United States. You will, therefore, remain yours, F E BORDELOQUE, M D.

P S—I also send you a copy of a letter received by me from the Royal Academy of Science; in Paris.

(Translated from the French.)

Paris, Jan 23, 1846.

To M. BORDELOQUE:—Sir—The commissioners of the Academy have appointed the undersigned from their number, as a committee of reporting upon the merits of the remedy laid before us by you for relieving the pains and dangers incident to pregnancy and child birth.) Several eminent Surgeons having submitted to the Surgery the results of their experience in the use of your remedy, we hasten to lay it before you, believing it to be the best decision regarding its claim to distinction, and of its great value, that any one can form who reads it with a wished. Whatever influence this body may possess on the members of the profession will exerted to further that adoption of this remedy into general use, which as a scientific discovery and valuable remedy, it so richly deserves. Eight Physicians having used this medicine, each in fifty cases of delivery, found it entirely successful in promoting a remarkable ease and easy delivery, free from pain and danger. With the exception of three patients of Dr Briquet there was a perfect immunity from any subsequent weakness or disease; one of these three a laboring woman who had met with a severe but not dangerous delivery, was taken immediately after that event with a profuse hemorrhage, which was with difficulty arrested. The other two malformations of the pelvis, were in no wise relieved of pain. These few exceptions are quite a number of cases as long hundred, show the undoubted efficacy of your remedy, and have determined us to give it that recommendation and support which is due to its value for further trial. We remain yours truly,

(Signed) M BRESCHET, M D.
L MAGENDIE, M D.

Com of the Commissioners of the R. Academy of Sciences.

The public are cautioned against purchasing this medicine from any persons except of the sole agent Dr A C Mortimer, No 36 1-2 Lispenard st, New York, where this medicine is put up in packages suitable for being sent by mail to any part of the country.

Price Two dollars a package containing full directions.

Females desirous of obtaining this Great Remedy who reside at a distance, can do so by forwarding Two Dollars, post paid, to

MEDICAL.

DR. SWAYNE'S
COMPOUND SYRUP OF WILD CHERRY.

A certain and safe cure for coughs, colds, asthma, liver complaint, spitting blood, pains in the side or breast, nervous debility, whooping cough broken constitution, CONSUMPTION or any disease of the lungs or breast. Reader are you suffering with a cold or disease of the lungs, try this remedy, you will not be disappointed.

Read what it has done!

50,000 DEATHS BY CONSUMPTION

Would perhaps be a small estimate for the ravages of this dreadful disease in this single year; then add the fearful catalogue of those cut off by Inflammation of the Lungs, Hemorrhage, Asthma, Coughs Influenza, Bronchitis, and other diseases of the Lungs and Liver.

And the list would present an appalling proof of the fatality of these two classes of diseases. But it is important to know that nearly all of this dread waste of human life might have been prevented by a timely use of Dr. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

This medicine has now been before the public some eight years, and is the original preparation from the Wild Cherry Tree. Its reputation as a remedy for Coughs, Colds, Bronchitis, and Consumption of the Lungs based entirely upon its intrinsic merits, owes but little to inflated newspaper puffs. Those who give it a trial, being benefited by it, recommend it to their neighbors, and thus gradually and surely hasit gained an enviable reputation and worked its way into general use. One bottle never fails to cure a recent cough or cold, while with strict attention to the directions that accompany each bottle, its use in pulmonary diseases of long standing and of the most alarming character, has always given relief, and in very many instances has effected complete and permanent cures.

Dr. SWAYNE'S Celebrated Compound Syrup of Wild Cherry.

Read the most remarkable cure of Consumption ever placed upon record.

Dr Swayne—Dear Sir: I feel it a debt of gratitude due to you—and a duty to the afflicted generally to offer my humble testimony in favor of your Compound Syrup of Wild Cherry. Some three years since, I was violently attacked with cold and inflamition of the lungs, which was accompanied with a deep cough, pain in the breast and head —every considerable discharge of offensive mucus from the lungs, especially upon changes of weather. At first I felt no alarm from my cough, however slight. At last I felt no alarm from my cough, however slight. At last I felt myself rapidly going into consumption. I grew daily weaker, and at length was scarcely able to walk about or speak above a whisper, such was the exceeding weakness of my lungs. During this time I had tried various preparations and prescriptions, but found no relief—growing all the time worse. Just here I was living in the county of Delaware, Ohio, (my family and child birth,) which it is necessary for you to have to satisfy the public of its genuineness and purity. As you are aware the exposure of the medicine to the influence of the sea air obliged me to send it to you in air tight vessels. I have also sent with it, a specimen of the manner in which it is put up in Paris. In like amanner, I should wish it to appear in the United States. You will, therefore, remain yours, F E BORDELOQUE, M D.

P S—I also send you a copy of a letter received by me from the Royal Academy of Science; in Paris.

(Translated from the French.)

Paris, Jan 23, 1846.

To M. BORDELOQUE:—Sir—The commissioners of the Academy have appointed the undersigned from their number, as a committee of reporting upon the merits of the remedy laid before us by you for relieving the pains and dangers incident to pregnancy and child birth.) Whatever influence this body may possess on the members of the profession will exerted to further that adoption of this remedy into general use, which as a scientific discovery and valuable remedy, it so richly deserves. Eight Physicians having used this medicine, each in fifty cases of delivery, found it entirely successful in promoting a remarkable ease and easy delivery, free from pain and danger. With the exception of three patients of Dr Briquet there was a perfect immunity from any subsequent weakness or disease; one of these three a laboring woman who had met with a severe but not dangerous delivery, was taken immediately after that event with a profuse hemorrhage, which was with difficulty arrested. The other two malformations of the pelvis, were in no wise relieved of pain. These few exceptions are quite a number of cases as long hundred, show the undoubted efficacy of your remedy, and have determined us to give it that recommendation and support which is due to its value for further trial. We remain yours truly,

(Signed) M BRESCHET, M D.
L MAGENDIE, M D.

Com of the Commissioners of the R. Academy of Sciences.

The public are cautioned against purchasing this medicine from any persons except of the sole agent Dr A C Mortimer, No 36 1-2 Lispenard st, New York, where this medicine is put up in packages suitable for being sent by mail to any part of the country.

GAZZAM'S PATENT BEDSTEAD.

THIS *No Fine Ultra* improvement has now been in use about two years, and wherever it is known, preferred to all other Bedsteads.

For cheapness, strength and easy movement it has not and cannot be equalled, as it is decidedly the best, cheapest and most convenient Bedstead in use, and perfectly free from spring Bugs.

The principal Cabinet makers and Turners in Allegheny city and in Pittsburgh, have secured Rights to manufacture and sell this valuable article. Numerous articles and imperfect imitations in the market, puzzles sers would do well to examine the cast iron plates on which is the genuine NAME the name of the patentee, E. P. GAZZAM, is invariably cast. As a proof of all that is claimed for Gazzam's Bedsteads, the following certificate from Cabinet makers in the cities of Pittsburgh and Allegheny, Pa., do hereby certify that we have bought the right to manufacture and sell Gazzam's Patent Bedsteads, and consider the same superior to any fastenings with which we are acquainted.

James Lemon	John Shrew
D Yeoger & C	Robert Fairman
J R Hartley	James B Barr
John Liggett, Jr.	Jas. Lowry & Son
Lowrie & Larbin	Riddle & Drennan
Thomas Farley	Ramsey & McClelland
David Lafferty	Moses Hollinger
Hugh Wallace	Roberts & Kane
J Mayers	Jas W Woodwell
J Nevinger	Thomas Snyder
Wm Haslett	J McMasters & Co
	Alexander Lawson

For Rights to make and sell the above Bedsteads apply to EBENEZER F GAZZAM,
oct26 Patentee

AGENCY FOR PATENTS,
Washington, D C.

ZENAS C. ROBBINS, Mechanical Engineer and Agent for procuring Patents, will prepare the necessary Drawings and other Papers for Applicants for Patents, and transact all other business in that line of profession at the Patent Office. He can be consulted on all questions relating to the Patent Laws and decisions in the United States and Europe. For sum at a distance desirous of having examinations made at the Patent Office, prior to making application for patent, may forward a fee to be paid, consisting of five dollars, a clear statement of their case, when immediate attention will be given to it, and the information thus done, which expelled 60 very large worms. I consider your Vermifuge better than all others.

ISAAC P. SNYDER

AMERICAN ART-UNION.
NEW YORK.

THE American Art-Union is incorporated for the promotion of Fine Arts in the United States. Each subscriber of *Five Dollars* is a Member for one year. The funds are applied to the production of large and costly engravings, of which every member receives a copy; and next, to the purchase of original Paintings, and other works of art, by native or resident artists, which are distributed, by lot, among the members in December.

Last year 146 paintings were distributed. This year they will be more numerous and valuable—more than 150 are already purchased; and in addition there will be distributed 250 bronze medals of Washington Allston, now in progress. And each member will receive two engravings—The Jolly Flat-Boat Men, after Bingham; and "A Sybil," after Huntington.

The undersigned having been appointed Honorary Secretaries for Pittsburgh and vicinity is prepared to receive subscriptions.

Those wishing to become members will forward the interest of the society by doing so as soon as may be convenient. WM S CALDWELL

MEDICAL.

DR. SWAYNE'S
COMPOUND SYRUP OF WILD CHERRY.

A certain and safe cure for coughs, colds, asthma, liver complaint, spitting blood, pains in the side or breast, nervous debility, whooping cough broken constitution, CONSUMPTION or any disease of the lungs or breast. Reader are you suffering with a cold or disease of the lungs, try this remedy, you will not be disappointed.

Read what it has done!

50,000 DEATHS BY CONSUMPTION

Would perhaps be a small estimate for the ravages of this dreadful disease in this single year; then add the fearful catalogue of those cut off by Inflammation of the Lungs, Hemorrhage, Asthma, Coughs Influenza, Bronchitis, and other diseases of the Lungs and Liver.

And the list would present an appalling proof of the fatality of these two classes of diseases. But it is important to know that nearly all of this dread waste of human life might have been prevented by a timely use of Dr. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

This medicine has now been before the public some eight years, and is the original preparation from the Wild Cherry Tree. Its reputation as a remedy for Coughs, Colds, Bronchitis, and Consumption of the Lungs based entirely upon its intrinsic merits, owes but little to inflated newspaper puffs. Those who give it a trial, being benefitted by it, recommend it to their neighbors, and thus gradually and surely hasit gained an enviable reputation and worked its way into general use. One bottle never fails to cure a recent cough or cold, while with strict attention to the directions that accompany each bottle, its use in pulmonary diseases of long standing and of the most alarming character, has always given relief, and in very many instances has effected complete and permanent cures.

Dr. SWAYNE'S Celebrated Compound Syrup of Wild Cherry.

Read the most remarkable cure of Consumption ever placed upon record.

Dr Swayne—Dear Sir: I feel it a debt of gratitude due to you—and a duty to the afflicted generally to offer my humble testimony in favor of your Compound Syrup of Wild Cherry. Some three years since, I was violently attacked with cold and inflamition of the lungs, which was accompanied with a deep cough, pain in the breast and head —every considerable discharge of offensive mucus from the lungs, especially upon changes of weather. At first I felt no alarm from my cough, however slight. At last I felt myself rapidly going into consumption. I grew daily weaker, and at length was scarcely able to walk about or speak above a whisper, such was the exceeding weakness of my lungs. During this time I had tried various preparations and prescriptions, but found no relief—growing all the time worse. Just here I was living in the county of Delaware, Ohio, (my family and child birth,) which it is necessary for you to have to satisfy the public of its genuineness and purity. As you are aware the exposure of the medicine to the influence of the sea air obliged me to send it to you in air tight vessels. I have also sent with it, a specimen of the manner in which it is put up in Paris. In like amanner, I should wish it to appear in the United States. You will, therefore, remain yours, F E BORDELOQUE, M D.

P S—I also send you a copy of a letter received by me from the Royal Academy of Science; in Paris.

(Translated from the French.)

Paris, Jan 23, 1846.

To M. BORDELOQUE:—Sir—The commissioners of the Academy have app
