DAILY WORK.

BY G. MORRIS.

Who lags for dread of daily work,
And his appointed task would shirk,
Commits a folly and a crime;
A soulless slave;
A paltry knave;
A clog upon the wheels of time,
Without work to do, and store of health,
The man's unworthy to be free,
Who will not give,
That he may live,
His daily toil for daily fee.
No! let us work! We only ask
Reward proportioned to our task:
We have no quarrel with the great;
No feud with rank;
With mill or bank;
No envy of a lord's estate.
If we can earn sufficient store
To satisfy our daily need,
And can retain,
For age and pain,
A fraction; we are rich indeed.

No dread of fall have we or ours,
We know our worth, and weigh our powers;
The more we work, the more we win;
Success to trade!
Success to spade!
And to the corn that's coming in.
And joy to him who o'er his task,
Remembers toil is nature's plan;
Who working, thinks,
And never sinks
His independence as a man!

Who only asks for humble wealth,
Enough for competence and health;
And leisure when his work is done,
To read his book
By chimney nook,
Or stroll at setting sun the sun.
Who tells us every man should toil,
For fair reward, erect and free,
These are the man,
The best of men,
These are the men we need to be!

Address

TO THE COLORED PEOPLE OF THE U. S. OF NORTH AMERICA.

St. Domingo, July 10, 1847.

Dear Friends:—We, being native Americans who emigrated to this country in 1824, being now in body assembled, have resolved to offer to our brethren of the United States the law of emigration passed by our house of Congress, on the 5th inst. It invites all strangers here to participate in our glorious liberty, without distinction of color; and all who will come by this invitation, will have their passage paid, at the rate of $14 per head; and those who will come with the avowed intention of becoming farmers, will have, in addition to the payment of their passage, fifty acres of land, as a donation to them forever, together with the implements of husbandry, and a regular maintenance until they are able to maintain themselves; and they will be entirely exempt from military service, as also their offspring, in order that they may attend to the agricultural pursuits. We presume that this law can fully be depended on, by all who may feel disposed to embrace its offers, as it is founded on necessity. As we have a very healthy climate, and, perhaps, one of the best soils in the world, with a generous population, all we stand in need of is American society—or, in other words, tillers of the ground; in fact, by the aid of foreigners, this might be made a paradisical garden. We have the full right of its liberty of conscience. We have a Methodist church in the city of Port Plat, one in Samana, and one in this city, where we worship God according to the dictates of our consciences without the least molestation. Our friends may depend on this information as being strictly true; and up to the present time we have a majority of colored population, of more than two-thirds. We expect that many white people will accept this offer, as they seem generally more disposed for adventure than the colored. However, we hope that our friends will not let this fine opportunity pass without attending to.

There is a vessel engaged to bring our emigrants. She is consigned to the house of Messrs. Amar & Co., New York, Persons interested will do well to call on the above gentlemen. Furthermore, should it become a general desire, any merchant who would choose to fit out a vessel, for the purpose of bringing out emigrants, will be sure to receive $14 a head, including all expenses, for as many as they will land here. If any merchant should like to have a guaranty, they could by writing to our president on the subject. His name is "Pedro Santana," president of the Dominican Republic. It will not be as inconvenient to new comers hereafter as it was with us. We can give them all the necessary information how to conduct themselves in this country.

We remain, dear brethren, yours,
Signed in behalf of the meeting,
REV. JAMES FALLS, Chairman.
Elijah B. Gross, Secretary.

Cheap Shower Bath.

Who would do without a shower bath? Among the various improvements of the age, we notice one in the shape of a shower bath, invented by a student of Yale College, which surpasses all others in cleanliness and efficiency. It is very simple, and very easily made, by any of common tact of tinkering. It consists of a common wooden pail, with its bottom thoroughly perforated. Then a new second bottom is put in about 14 or 2 inches square, with the under side covered with sheep skin. A string from the valve to a lever fastened on the brim of the pail raises the valve when pulled. The whole is then suspended by cords and pullers. A curtain made of common cloth is then fastened up to the wall in such a way as to allow the apparatus to rise and fall freely. The cloth may be sewed to a common barrel hoop, ingress and egress being where the edges meet. The last is necessary, both for concealment and to keep the water from spattering off on other articles. The other and only thing is a tub (one-half of a barrel, if you like,)—in which the operator stands and the lower end of the curtain terminates. Thus the water that gets on the curtain is carried directly into the tub. The expense will of course vary with the taste and fancy of individuals; but I have learned from some of my acquaintances in college, who have them, that it is only $1,50 for the whole. They declare it superior, in some respects, to the patent ones. It requires no more room than enough for the tub to stand on, and if put up snug in your sleeping apartment, so far from being a troublesome appendage, is very convenient and salutary in its effects. I made one for myself in a few hours, and would not part with it for any money. Before retiring to bed I lower the pail, fill it with water, and raise it to its place, where it stands till I rise in the morning and pull the string. I need not tell you of the exhilirating of invigorating effects of this practice, for that has been told you before. Every farmer, mechanic or man of whatever calling, ought to have and use one of the same things, so cheap and convenient for all. I take a bath uniformly every morning throughout the year, and (what was not true before) I am neither troubled with colds or cold feet since I began the practice. Such is my experience, and yours will be the same if you try it. Numbness, paralysis, rheumatic pains, and colds all yield to this treatment.—*Cor. of the Boston Cultivator.*

MEDICAL.

SEVERAL REASONS WHY DR. LEDDY'S "SARSAPARILLA BLOOD PILLS are becoming so universally popular:

First, Because they are prepared by Dr. S. Leddy himself, a regular Druggist, Chemist and Physician of Philadelphia, who knows the nature; the quality and character of the Medicines used in his pills and their adaptation to disease.

Second, Because the public can take them with greater confidence than most other pills which are prepared by persons ignorant both of medicine and disease.

Third, Because their contained effects, proper tion not contained in any other pills; namely, purging from the stomach and bowels all substances, and at the same time purifying the blood and fluids of the body.

Fourth, Because they are the cheapest and best medicine known—a single box costing but 25 cents, and containing 40 pills, giving to persons as many doses of the "Leddy's Blood Pills," and numerous medicines bought & tried on the recommendation of others.

WHAT LIKE THE ADVICE.

Whereas if you have occasion to take any medicine, do not be trifling with your constitution by trying all kinds of pills or other medicines you see published and recommended by one and another but take at once

Dr. Leddy's Sarsaparilla Blood Pills

and you will not have occasion to take anything else. They will always be found good in almost all sorts of disease, inflamation of the stomach, bowels, liver and intestines, cramps of the stomach, colds, Waterbrash: inward fevers, foul breath, bad taste in the mouth, sour eructations and acidity of the stomach, costiveness and indigestion, want of appetite, bililous affections, diseases of the spleen and kidneys, diseases of the skin, scaly eruptions dry and watery pimples or blotches of the face and body, tetter, rash, prickle heat and salt rheum, headache, giddiness, faintness, pains over the heart, in the breast, sides, along the back and spine, the first and last gout, fevers of all kinds, small pox, various cancers, scrofula, erysipelas, and in short they are good in all diseases having their origin in the stomach, liver, and intestines, and impurity of the blood.

☞ Twenty-five cents a Box.

Sold Wholesale and Retail by B. A. Fahnestock & Co., corner of First and Wood; also corner of Sixth and Wood streets.

DR. JAYNE'S FAMILY MEDICINES.

It is our principle in the management of this paper to notice anything which we find out, from personal inspection, to be of utility to the public. Some of Dr. Jayne's medicines we have used in our family for many years. For instance the EXPECTORANT, the CARMINATIVE, and VERMIFUGE, which we know to be good for the complaints they profess to cure. When Dr. Jayne first came to Philadelphia, he was a total stranger, and suspended at any height in its University, or capacity to execute work of all kinds, from the largest to the smallest, under the same manner.

Its Simplicity, Compactness and Cheapness.

Its Accessibility upon all sides, by the workmen.

All the hammers are made Self-Acting.

The subscribers continue to execute orders for these hammers with the most punctuality, upon reasonable terms.

For further particulars, inquire of

CARRIAGES.

WILLIAM ODLE, COACH AND HARNESS MAKER, 230 Chestnut St., Philadelphia, late of the firm of Odle & Wilson, respectfully informs his friends and the public, that he has on hand the largest assortment of Carriages, Coaches of all styles and descriptions made to order at the shortest possible notice, and warranted in the very best manner of selected material. feb20-1y

JAMES S. SMITH,
No. 58 North Third street, below Race, Philadelphia,
HAS just received in addition to his former large assortment, a fresh lot of new pattern Clocks of the most celebrated makers, such as Farrow ville Manufacturing Co., Jerome and others, having all the patterns of the Eight day and Thirty hour Clocks, of the different manufacturers. Also two, month, step and alarm Clocks. Dealers will do well to give us a call. Orders by mail promptly attended to. oct19 (m)

PURE! PURE!! PURE!!!

THE subscriber would respectfully invite Ladies and Gentlemen visiting Philadelphia, to call in west at FANCY FURS, such as Sable, Ermine, Martin &c., to give us a call before purchasing elsewhere, as they will find it to their advantage, and to assure all of every article sold to be fully represented as it is. 32 North Third st., above Arch, Philadelphia.

Fancy Furs made to order on short notice. oct19

SCRATCH, SCRATCH, SCRATCH!

ITCH, ITCH, ITCH, SALT RHEUM, &c—Who would be without a single day scratch, scratch, scratch, if they knew who would relieve and cure them.

It is horrible to be obliged to scratch and scratch when alone, but more horrible to abstain from it, (for decency sake,) when in company. Let it be remembered that DR. LEDDY'S TETTER AND ITCH OINTMENT, is the most efficacious of any other preparation in existence in curing the Tetter, Itch, and other diseases of the skin. As all diseases of the skin must arise from the impurity of the blood and fluids of the body, and where each disease be of long standing, and the constitution affected thereby, if Dr. Leddy's Sarsaparilla Blood Pills be used with the Ointment, they will cure any case whatever, let it be what it may, the money will be returned by Dr. Leddy. Most cases, however, will be effectually cured by Dr Leddy's Tetter and Itch Ointment, unless the whole system is impoverished by the diseased humors, which will be completely carried off from the system by Dr Leddy's Blood Pills, and the surface of the skin healed by the Ointment. Price of Ointment 25 cents. For sale by

PULMONARY BALSAM.

Messrs. Reed & Cutler—I feel it a duty I owe to my fellow creatures to state among numerous remedies I use Vegetable Pulmonary Balsam. Since I first used the Balsam, almost eleven years ago, the happy effect of which I then gave, an account of, I have had several severe complaints and attacks of my lungs—on a few days since—and in every instance I have used the Balsam alone with complete and perfect success. It has effected a relief and cure in a very few days. It is certainly a safe medicine. I do not know that it will cure a fixed consumption, but I believe it will be in many cases a preventative, and prevention is better than cure. I do therefore, for the love of my fellow men, earnestly recommend the use of this Balsam, in all pulmonary complaints. I am confident that it has been the means of preserving my life to this day.

MORGAN'S COUGH SYRUP.—It purges out the great Panacea in curing my child's distressing cough.

From the Temperance Banner, Nov. 3, '47.

COUGH SYRUP.—We are not in the habit of puffing, much less taking Patent Medicines, but we feel disposed to recommend Morgan's Syrup to those who are afflicted with a cough. After having tried the usual remedies to remove a constant and distressing cough, that had for several days all but one of our children, without success, we were induced to try Morgan's Cough Syrup; and by it relief was obtained in a few hours. It proved to be the panacea in this case at least.

MISCELLANEOUS.

CHILD BIRTH.

DR. BORDELOQUE'S CELEBRATED REMEDY.

FOR relieving the pains and cramps incident to Pregnancy and Child Birth, which insures the easy and unprolonged process of the functions of human Nature, when unhindered by the luxuries of civilized life, intended should be performed expeditiously, with little pain, and without subsequent indisposition.

Dr Bordeloque during his travels in Asia, observed this remarkable fact. That the women of those countries are peculiarly different from all other females, in this respect—that they are free from the pains and dangers, which make the period of Pregnancy an object of so much anticipated suffering and risk. Curiosity and the zeal for Scientific discovery prompted him to investigate the cause of this remarkable exception to the severe trials to which the married females are generally subjected, and the result was the discovery of the fact that the women of those countries were in the habit of using during the last stages of Pregnancy, certain plants which possess the faculty of imparting that degree of tone and elasticity to the nerves and blood vessels of the Uterus, or Womb which enables it to perform its functions in all their native simplicity of action and freedom from pain.

It is a singular fact, also, that the Indian women of North America are in a remarkable degree free from those pains and dangers of pregnancy and child birth to which the white women are subjected. Whether they use the same plants as do the women of Asia we cannot tell. Certain it is that the fact is no less remarkable than true.

This Remedy is now extensively used throughout France with the most marked success and many females who were once single through apprehensions of the dangers consequent to the state of marriage are now by the use of this medicine, performing the duties of wives and mothers with comfort and happiness.

It is at this time now first presented to the women of America, by Dr Bordeloque, through his sole agent, Dr. A. C MORTIMER, and he feels confident that independent of its intrinsic merits it will recommend itself to the moral part of the community, as it is fully calculated to do away with that horrid crime of which some, through fear of pains of child birth, are guilty, (the production of premature delivery.)

This medicine is also remarkable for remedying that hitherto incurable disease Barrenness, and in almost certain accompaniment Fluor Albus, the fact that relaxed and fallen state of the Womb which accompanies this disease is never felt after the shortest use of this medicine.

This medicine is prepared in such a way as to be agreeable and pleasant to the taste.

Dr A C MORTIMER No 36 1-2 Lispenard st, New York, has been appointed sole agent for the United States, by Dr Bordeloque, my lawful and only authorized person in this country who is authorized to vend this invaluable medicine, as the following letter will show:

(Translated from the French.)

PARIS, June 10th, 1847.

DR A C MORTIMER—Dear Sir—According to the agreement entered into between us, I wish by this letter to give you that written authority to sell throughout the United States, my Female Remedy relieving the pains and dangers incident to pregnancy and child birth, which it is necessary for you to have to satisfy the public of its genuineness and purity. As you are well aware, I have given you medicine to the influence of the sea air obliged me to send it to you in air tight vessels. I have also sent with it a specimen of the manner in which it is put up in France. In like manner should it be put up to appear in the United States. Sir, with great respect I remain yours, F E BORDELOQUE, M. D.

P S—I also send you a copy of a letter received by me from the Royal Academy of Science, in Paris.

(Translated from the French.)

Paris, Jan 23, 1846.

To M. BORDELOQUE—Sir—The commissioners of the Academy have appointed me to be assigned from their number, as a committee to report regarding the merits of the remedy laid before us by you for relieving the pains and dangers incident to pregnancy and child birth. Several surgeons having submitted to the Academy the results of their experience in the use of your remedy, we hasten to lay it before you, believing it, to be the best medicine regarding its effects in so long use, and of great value, that either you or the public could have wished. Whatever influence this body may possess on the members of this profession will exerted to further the adoption of this remedy to general use, which as a scientific discovery and an enfeebling remedy, it so richly deserves. Eight Physicians having used this medicine, each in fifty cases of delivery, found it entirely successful in promoting a remarkable ease and way delivery, free from pain and danger. With the exception of three patients of Dr Briquet there was a perfect immunity from any subsequent weakness of disease; one of these three a laboring woman who had given birth to a male child a few months previous to delivery, was taken immediately after that event with a profuse hemorrhage, which was with difficulty arrested. The other two of the patients of the physician in question suffered pain. These few exceptions in so great a number of cases as four hundred, show the undoubted efficacy of your remedy, and have determined us to give it the strongest recommendation. Wishing you due to it, and the furtherance of scientific medicine (Signed) M BRESCHET, M D.
L MAGENDIE, M D.

Com of the Commissioners of the R. Academy of Science.

The public are cautioned against purchasing this medicine from any persons except of the sole agent Dr A C Mortimer, No 36 1-2 Lispenard st, New York, where this medicine is put up in packages suitable for being sent by mail to any part of the country.

Price Two dollars a package containing full directions.

Persons desirous of obtaining this Great Remedy will please address Dr A C MORTIMER, Sole Agent for the U S
sept27 5w No 36 1-2 Lispenard st, New York.

GAZZAM'S PATENT BEDSTEAD.

THIS *No Flat Slats* improvement has now been in use for the last two years, and wherever it is known, preferred to all other Bedsteads.

For cheapness, strength and convenience it has not its equal, being unqualified, as it is decidedly the best, cheapest and most convenient Bedstead in use, and perfectly proof against Bugs.

Cabinet Makers and Turners in Allegheny city and in Pittsburgh, have secured Rights to manufacture and sell the article. As there are spurious and entirely imperfect imitations in the market, purchasers would do well to examine the cast iron plates on which is the genuine article the name of the patentee, E. F. Gazzam, carefully cast. As my Bedstead is the only one I claimed for Gazzam's Bedsteads, the following certificate from Cabinet makers well known in Pittsburgh and in Western Pennsylvania, is submitted to the public:

We, the subscribers, practical cabinet makers and Bedstead manufacturers of the cities of Pittsburgh and Allegheny, Pa., do hereby certify that we have bought the right to manufacture bedsteads with Gazzam's Patent fastenings, and consider the same *superior* to any Bedstead fastening with which we are acquainted.
