PATENT PRESS BRICK MACHINE
THE subscribers having obtained a patent, May 16 1846, for the above Machine, and having since been thoroughly tested in ability, are now prepared to sell rights and contract to deliver machines to any part of the U States. This machine is designed to make Brick from crude clay, and will make 30,000 good brick from common brick yard clay, sufficiently hard to stand up in the kiln, by exhibiting the following facts, viz: Separate the clay, drying and handling the brick after being moulded. It is simple, strong, not liable to get out of repair, and is constructed so that it can be put in a piece and put together with great facility, thus rendering it portable. We now building machines, which can furnish them on short notice. For further information we would refer to a machine now in successful operation, which is still kept there, near the West end of Eighth street, where we shall be happy to explain its principles connected with it to all who may call. We have at the present time a machine for sale. All letters to our address will be promptly attended to—
