THE HOUSE—SENATE—MESSAGE—WAR—TREASURY, &c. &c.

Washington, Dec. 6, 1847.

The organization of the House of Representatives has been so far completed as to make choice of officers,—and the Whig nominees have all been elected, with the exception of Mr. McCORMICK, of the District, for the office of Postmaster of the House, an office from which he was summarily ejected two years since, to make room for the present incumbent. Some of the Whigs, more kind to their opponents than just to their friends, voted for the present Postmaster. Their names are, Messrs. Palfrey, of Mass., Houston of Del., and Pendleton, of Va.

The work of organization will occupy the Senate for the early part of next week, and in both Houses, the Committees will be announced on Monday. In the House, the Chairmen will be of the dominant party, and in the Senate the reverse of this. The effect of this organization will probably be to keep in check all party measures, originating in either House. The Senate administered a severe rebuke again to-day, by reducing more than one half, the number of Messages ordered yesterday, and these extra numbers were all ordered, as in the House, on account of the accompanying documents. It is a new thing, I believe, that the President should be so far neglected as to receive no special compliment to his annual Message. But so it is, and the omission even to read it through in the Senate on Tuesday, with a similar motion in the House, from a friend of the Executive, affords some additional evidence of the want of respect for the document itself.

The Executive Organ and the Congressional Printers, though all Administration men, are likely to be at loggerheads. The President declined to give a copy of the Message to the Printers of Congress, but made the Editors of the Union his confidents, and allowed them to monopolize the early printing, which was both an act of partiality and a source of great profit. The Printers ma'e formal complaint of the matter in the Senate to-day, with some reflections upon the Executive, for the omission of the common courtesies, which have always been to furnish the Public Printers with the Message in advance of any favorite.

Reflection upon the Message, and a more careful perusal of its contents, subjects the Executive to a severe criticism. Mr. Polk's friends feel how weak it is, and in some respects how inconsistent with itself, with his previous messages, and with truth. A combined effort will be made to harmonize all that is discordant, and to bolster up the President in his acts of bad faith and bad practice. The Executive will learn, at least from the Whigs in Congress, that he is not all in all, and that he cannot successfully falsify history, by stating and reiterating for truth what in point of fact, is sheer invention. Fabrications like those in the Preamble to the War Bill of May, 1846, stated then by the Executive, and repeated now, will hardly go down with the People. The President will be asked, too, upon what principle he claims "a right of way" across the isthmus of Tehuantepec, while denying "the right of way" to improve our own rivers and harbors. He will be called upon also to state what Constitutional power he has for the survey of the Dead Sea, while denying the Constitutional authority to survey the Ohio, the Mississippi, and the Lakes.

He will be asked to square his professed reverence for the union of the States, and the rights of, and respect for, the People, by his previous declaration that the North was to be secured to the Administration by *patronage*, and the South by *measures*. All these are grave questions,—and so are those which propose the open immorality of seizing upon what is not our own, under the plea that if we are not robbers, some others will be beforehand with us in the work of theft.—Of old, the Anglo Saxons were called the robber race, and with reason, if upon anything like an Executive authority they promulgated the doctrine that power was right, or that 'good old rule,' as it has been called

> "————the simple plan
> That they should take who have the power,
> And they should keep who can."

Then, too, as we are taught your modern Ulysses that honor demands that Mexico should be made to feel the effects of war in her vital parts. To make out our boundary, and to keep it, is not honorable, according to Mr. Polk. Nor is it honorable to recede a step from the advance we have made. We must say, burn, sack, destroy, until the Mexicans feel how reasonable we are, while demanding the surrender, not only of all the country east of the Rio Grande, but all of New Mexico, and all of California, and the right of way across to Tehuantepec, and in consideration of past obstinacy, perhaps as much more.

According to the President, the war must go on. The ten regiments of regulars, the mounted regiments of Dragoons and Riflemen, the numerical doubling of the rank and file of the Army and Navy, are not enough,—not the fifty thousand volunteers voted under the act of May, 1846, and exhausted with many re-enlistments to fill out the skeletons of these regiments. There must be more means,—more sinews of war,—more victims of disease, and more sacrifices to the great demon of war. Our *honor* demands it, and this nation will be *degraded*, if it does not whip Mexico out of existence altogether, or within an inch of her life! After this, who can doubt that we are as Mr. Polk represents, 'a great country,' or that Mr. Polk is a great man?

Mr. Polk advises a tax on tea and coffee to aid him in his war, and calls for $18,000,000 for the balance of the present fiscal year (ending June 30, 1849) and for twenty millions and a half for the next fiscal year,—being thirty-eight millions and a half beyond the receipts from customs and the sale of public lands. All this is to be added to the vast debt already accumulated and amounting now to the sum of $45,659,659 stated, and when the debt incurred is paid, to twice this amount in reality.

Mr. Polk seems delighted with so small a debt, but he neither sees, states, nor understands the real amount of the Public Debt, nor the magnitude of the evil of living upon borrowed capital, to the tune of eighteen and twenty millions of dollars a year. The annual Report of the Secretary of the Treasury is looked for with great interest, in order to learn the true state of the Treasury. As it is, I hope Mr. Dallas has compared his Pittsburgh statements of the Revenue received under the Tariff of 1846, with the statements of the Executive himself. The Vice President must now either eat his own estimates, which never had an approximation to truth, and which were made at random, to deceive the people, or he must take issue with the Executive and the Secretary of the Treasury, upon a question of fact. I turn Mr. Dallas over to his superior officer, to answer not me, but the President and the Head of the Treasury Department. E. B.

ILLNESS OF THE SECRETARY OF THE TREASURY.—A Washington letter of the 8th says:

The Secretary of the Treasury, who has been laboring incessantly, night and day, for some time past, was seized with a violent attack of vertigo, at the Department, to-day, and would have fallen but for timely assistance. He was placed in a chair, and conveyed home, and is considered much better this evening.

J McHenry Boyd, of Baltimore died in Philadelphia from the wound received by the accidental discharge of his pistol on Saturday the 4th.

POST OFFICE DEPARTMENT.

The Annual Report of the Post Master General contains many gratifying facts, showing the entire success of the Cheap Postage system, and demonstrating the fact that the Department will bear a still further reduction of Postage. The Report shows that the receipts of the past year have been,

have been,	$3,945,893
Excess over last year,	459,693
or 13 15-100 per cent.

Newspapers in the mails,	55,000,000

COST OF THE WAR.—The New Orleans Bulletin thus calculates the cost of the war up to the present time not including the value and consequent loss to the nation, of the labor of 25 or 30,000 citizens for eighteen months, which, even at a low rate of day wages which would be some 12 or 15,000,000 of dollars.

The increase of public debt, agreeably to the *Union* has been	$27,333,624 31
The error in stating the amount of the loan of 1847,	9,615,750 00
The surplus in the Treasury at the commencement of hostilities,	12,000,000 00
The additional surplus that would have accumulated up to this time, under a peace expenditure,	12,000,000 00
The further extra surplus under the operation of the Tariff of 1846, agreeably to the *Union*, of at least	5,000,000 00
The bounty lands of the Volunteers,	8,000,000 00
The arrearages for pay due the Army and Volunteer supplies, contracts and damages, etc.	12,000,000 00
To replenish our Arsenals,	4,000,000 00
The pension list, estimated on the average duration of twenty years of life to the wounded and families of the dead, *two millions per annum*,	40,000,000 00
Making a total of	$129,949,374 31

THE WAR DEBT.—The receipts of the fiscal year ending June 30, were exclusive of loans, as follows:

Customs,	$23,747,864
Lands,	2,498,355
Various,	100,570
	$26,346,789
On hand, June 30, '46,	9,126,439
	$35,473,228
Expenses same time,	59,451,177
	$23,977,949

It will be noticed that we have run in debt an amount greater than the whole receipts under the Tariff for the year. The "poor man Salt," and 'trace chains,' the 'pins and needles,' 'flat irons' and 'preserve kettles' of our farmers' wives, must be taxed for many a day, to pay for the war, nor can their tea and sugar escape.

Further Intelligence by the Britannia.

The British and North American steamers will continue to run fortnightly during the winter until the new vessels shall be ready, when the spring will commence with a weekly mail; the new arrangements will take effect on the 1st of January, on which day the Cambria will sail from Liverpool for New York.

Loss of the Packet Ship Stephen Whitney.—We find no additional particulars of the loss of the Stephen Whitney in the New York papers.—The following is a list of passengers:—

Charles W Popham, master, Irishmen; Robt Gill, 2d mate, Englishman; Thomas Bills, George Raymond and Wm Browne, New Haven; Charles Browne, James Crawford, and Robt. Hope, N Y.; William Wriggs, Bath, U. S; Cleary, Baltimore; Wm. Hicks, Mass; Benjamine Evans, also a native of America: John Williams, Carnarvon, Wales; Andrew Deall, Denmark; and Rose McCormick, and Eliza Miller, Stewardess.

All the first and second class passengers perished, comprising Dr. G[illegible]ark; Oliver Roberts, D D Fordyce, Scotland; [illegible] Robinson, Liverpool; Thos McGeagor, Ohio; Mrs Thom, Petersburgh; James McBlaskey, Mary Connor, Isabella Quinn, David McGrattan, Martha Dunsliffe and others.

The eighteen who were saved, are Thos Allen, 1st mate; James B Mackay, 2d mate; Jos Miller, steward; Wm Johnston, (boy,) John Hathway, David Ferguson, Wm Smith, Henry Hume Dan'l Graeves, Thos Jackson, John Pearson, George Prince, Adolphus Jackson, and Joseph or James Saunders (seamen;) Edw'n Ekin, Patrick Patterson, Jr, and Jos Butler, passengers.

So complete was the destruction of the doomed ship, that the only vestiges of her to be found, are small pieces of timber, not more than a foot or two long.

[The Stephen Whitney belonged to Rob't Kermit's line of New York and Liverpool packets.—She was about 8 years old, measured 850 tons burthen, and was valued, together with her cargo at $60,000, on which amount, we understand, an insurance had been affected in Wall street. She sailed from this port on the 17th October, under the command of Capt. Popham.]—*New York Herald.*

[From Baring and Brother's Circular]

LONDON, 18th Nov., 1847

We have had few failures of importance since our last advices of the 3d instant, and this circumstance alone has given more tone to commercial affairs. The minimum rate of interest charged by the Bank of England will probably remain at 8 per cent, until after the meeting of Parliament; but discount in other quarters is already to be had on cheaper terms, and as the general liabilities have now become so much reduced, there is a growing impression that money in the natural course of things, must soon become easier.

The funds have advanced considerably; consols closing this afternoon at 84 for money, and exchequer bills at 2s discount to par, The French three per cent. loan for two hundred and fifty millions francs, has been taken at fcs. 75,25, equivalent, with discounts, to a cash price of fcs. 73,30. In foreign and colonial produce there has been rather more disposition shown to operate, but we regret to say that in the manufacturing districts trade still continues in a very depressed state.

There is little doing, though a slightly improved command has manifested itself in some of the Continental markets. The Corn Market has been better supplied with farmer's wheat since our last and prices have declined, in consequence, about 3s per qr. United States wheat is also rather cheaper while barrel flour continues difficult of sale, as the quality here is generally indifferent. Indian Corn has advanced in Ireland, and holders are firmer here in consequence.—The following are the nearest quotations of the day, viz:

United States red wheat 38s a 45s per imp. quarter; white, 47sa51s per imp. in Flour, 26s to 28s per bbl. Inferior and sour Indian corn, 30s to 34s per 480 lbs. Barley 20s to 22s per imp. qr. Oats 18s to 20s per imp qr. Indian corn meal, 15s to 16s per bbl. Cotton—the advices per steamer Cambria, have not improved the Liverpool market, which yesterday was dull.

The iron trade is much depressed, and prices have declined a good deal, with still a downward tendency, and the masters have already determined to resort to reduction of wages. Common bar, in Wales, can be bought at £8 5s, with one per cent. discount; and rails at £8 per ton cash.—Scotch pig cannot be quoted over 50s. on the Clyde. Sweedish nominally £11, and Archangel £13 10s per ton. Lead—English pig is at present flat, but no sellers under £18. There are several parcels of Spanish in the market, which might be had at £17 5s.

American stocks continue without change, but are in general well held. There have been some transactions in Pennsylvania Fives at 65 per cent. No New York State Stocks to be had.

TERRITORIAL GOVERNMENT IN NEW MEXICO.—It appears that a Territorial government has already been organized in the new addition to our country. The St. Louis Republican copying from the Brunswicker says:

"That Capt. Angney, formerly a young lawyer of Jefferson City, and who commanded an infantry company at Santa Fe last year, has been elected a member of the *Legislature of New Mexico*. It was our impression, that the President of the United States had *expressly* disavowed so much of the acts of Gen. Kearney as went to establish a permanent civil and American government in New Mexico, and with it, we supposed that the idea of a Legislature was abandoned. Is the *Brunswicker* sure that such an election has been held in New Mexico?"

Another Revolutionary Soldier Gone.—The New Castle Pa. Gazette records the death of an aged hero of the Revolutionary war—Capt Jonathan Smith, who died at the advanced age of ninety-two years and three months. He actively participated in all of the most prominent battles of the war of Independence.

ANNUAL REPORT.

The Board of Managers of the Young Men's Bible Society of Pittsburgh, in presenting this, their 30th annual report, deem it proper to revert to the design of its organization, which, according to the 2d article of the constitution, "shall be to distribute the Sacred Scriptures, without note or comment, in Pittsburgh, and in such counties of the Western portion of the State as are unable to supply themselves with the Word of God, and to aid the Pennsylvania Bible Society with its surplus funds." This object—than which none can be more worthy,—has been the constant aim of this Society for the last 30 years. That all has been accomplished, during this long period, that might have been, we dare not say; but, thank God, we can say, that through the instrumentality of the Young Men's Bible Society, thousands have learned Messiah's name. The Word of God not only claims, but demands its distribution, so long as the "good tidings of great joy, which shall be to all people," remains unheard by any portion of our race. To whom is this great and all important work committed! The answer is intuitive,—to all who enjoy the blessings of the Gospel, and especially to such as have reason to know that it "is the power of God unto the salvation of those that believe."

Whilst Protestants agree to differ upon some points, they are of one mind as to the duty and obligations resting upon them, of supplying with the Bible, so far as in their power, those who have it not. Your Board of Managers, composed of members representing 12 different denominations, have been harmoniously engaged during the past year, in endeavoring to fulfil the object of their appointment.

The Librarian reports a disposition by sale and donation, of 2260 volumes, realizing from sales the amount of $161 51 cents. The diminution in the amount from books sold, compared with other years, arises from a resolution passed at the commencement of the year, "to sell no books to any persons to retail out again for profit." Previous Boards swelled the revenue from sales by disposing of books to booksellers; this your Board declined doing, as it gives trouble, without advancing the object of our organization.

For some years past, the Managers of this Society have been in the habit of appointing committees quarterly, for the purpose of supplying each steamboat leaving our wharf (that might be without) with a copy of the Bible. Mr. Cuthbert (at his own request) has been permitted by the committee to discharge this duty for the last 29 months. Mr. Cuthbert reports having supplied 125 steamboats with Bibles, and distributed to deck hands and cabin boys and immigrant passengers, 380 Testaments. Fruit from the bread of life, thus cast upon the waters, we trust, and have a right to believe, will be gathered after many days.

This report brings the pleasing intelligence, that though our efforts, and those of kindred associations, the steamboats are pretty generally supplied, and what must be a source of unfeigned pleasure to every Christian, we may now see the sacred volume occupying a prominent place upon the tables or in the libraries of these boats, and read by a portion at least of persons navigating the Western waters.

Article 3d of the constitution, and 8th of the by laws, indicate the sources from whence means are to be derived to carry on the work in hand.—According to the article of the constitution referred to every person contributing annually to the funds of the Society, shall be a member, and every person contributing at one time $10, shall be a life member, and twenty dollars shall be a life director. The bye laws look to the collection of funds in the different churches represented in the Board, and from the members of the same, by the personal efforts of the managers. As we have but very seldom the pleasure of adding to the present exceedingly limited number of life members, or life directors, the revenue of your Board depends upon the number and liberality of annual contributions and church collections.

From these sources you will find by reference to the Treasurer's Report that the sum of $575 13 has been placed in the Treasury, exceeding the amount of last year $78 57.

The amount raised this year would have been much larger, but for the financial embarrassment existing in a number of the churches represented in the Board, inducing the managers from them, to forego all efforts to contribute to the treasury, either by church collection or personal application to the members thereof.

From the constitutional mode devised for providing funds, year after year, it is manifest that the amount collected will depend, first, upon the proper composition of the Board of Managers.—If the Managers are efficient, not only believers of the Bible themselves, but ardently desiring that all others may possess it, in order to believe. Delighting in the work, deeming it a pleasure as well as a duty, to work for God, in endeavoring to promote the present and eternal welfare of their fellow beings, the Young Mens' Bible Society of Pittsburgh must and will prosper beyond all doubt. For He that would not have one sinner die, will bless and crown their efforts with success. The pastors of the different churches can very materially assist the society in the selection of 'good men and true,' for they of all others are best acquainted with the reliable persons in the membership of their churches.

In the second place, the amount collected will depend upon the liberality of our churches and fellow citizens. And surely the Bible cause—the salvation of deathless spirits,—the deplorable poverty of those who know not that to them, as well as to us, 'a child is born, a Saviour given,' will awaken and keep awake, a fellow feeling in the bosom of every lover of his race, and secure the necessary means to furnish them the truth as it is in Jesus Christ.

In surrendering the trust committed to our care, we can but express our regret that the duty enjoined has not been more faithfully discharged. Hoping that the Board to succeed us may be composed of working material ready and willing to cultivate the vineyard of their Lord, exciting a greater interest in the community in behalf of the society, telling the believers of the Bible,

> "Now thou mayest give
> The famished food, the prisoner liberty,
> Light to the darkened mind; to the lost soul
> A place in Heaven. Take thou the privilege
> With solemn gratitude. Speak as thou art
> Upon earth's surface,—gloriously exult
> To be co-workers with the King of Kings."

FLOOD.—The water was twenty-four feet in the channel, on Sunday morning—higher than it has been for some years. Some of the inhabitants of the lower part of Allegheny city, were compelled, for the second time this fall, to abandon their dwellings on account of the high water, and others were forced to pass from the streets to their houses in boats. The damage has been very great to personal and real property. We have heard nothing, as yet, from the upper country.

MATTERS AT ERIE PA.—Six inches of snow fell at Erie on Saturday night the 4th inst.

The Lake Harbors are still open and unobstructed by ice, and once in a while when the weather-signs promise fair, a steamboat shoves out for a short voyage. The *Champion* came up from Buffalo a few nights since with a full freight and lots of passengers; and after a short stop proceeded up the Lake.

The Gazette says:—The little Steamer *Champion*, bound up, took fire off Dunkirk on Monday night last, under her boiler deck, and came very near sharing the fate of the unfortunate *Phoenix*. It was with great difficulty the fire was extinguished.

MR. CLAY'S MOVEMENTS.—A Washington letter in the New York Commercial Advertiser says. Mr. Clay has engaged lodgings here for the winter. He will arrive on the 23d of December.

He has two causes to try in the Supreme Court, and it is uncertain when they will come on. One of his Kentucky friends says he will remain here till after the adjournment of the Court. His visit to this city is preceded by the annunciation that he is not and will not be a candidate for the Presidency.

INDIAN CORN CROP.—Estimates have been made that the Indian Corn crop of the United States for the present year amounts to six hundred millions of bushels which is about one-third more than it was in 1845. The exports in 1847 have amounted to 17,272,815 bushels of Corn and 945,049 bbls. of Meal. This is an enormous amount when we recollect that from 1791 to 1819 the exports never much exceeded two millions, and that from 1819 to 1845 they never amounted to one million in any year. It 1846, they were a little over two millions.

GEN. TAYLOR.—Since the arrival of Gen Taylor, at New Orleans, every thing is of interest which relates to his reception at the different points. As was some weeks since announced in our Telegraphic despatches, at Ceralvo he was received with a salute and waited upon by the officers of the Garrison; at Mier, Camargo and Matamoras, like honors were conferred upon him.

LANDING OF THE PILGRIMS.—This anniversary is to be celebrated at Cincinati by the New England Society, on the 22d inst. As it is in contemplation to form a similar society here, that day it has been suggested would be most proper for the organization of a New England Society.

ANOTHER death is announced in the Duquesne Greys. H B Allward, of this city is announced as having died in the city of Puebla, on the 25th of October last. He resigned the clerkship of the United States District Court, to fight the battles of his country. The whole territory of Mexico is not worth the life of such a soldier.

GROSS CARELESSNESS.—The Gloucester Telegraph states that the man who has the charge of the draw of the railroad bridge in Manchester, went away and left it open on Wednesday, when he knew the train was due. The engineer barely discovered the danger in time to save the whole train from plunging into the water at high tide.

TIMOTHY CHILDS.—On the announcement of the death of the Hon. Timothy Childs, brother of Col. Childs, of Puebla, and Representative of his district for several terms in Congress, the members of the Bar of Rochester held a meeting on Monday last and passed resolutions expressive of their regret for his decease.

TELEGRAPH.—There are now two Telegraphic wires from New York to Buffalo, being the first double [illegible] country.

Correspondence of Pittsburgh Gazette.

Correspondence of the Pittsburgh Gazette.
Philadelphia, Dec. 11, 4 P. M.

The New Orleans papers of the 2d December have been received. Great enthusiasm prevails in reference to the reception of Gen Taylor. The Grand procession in honor of the old hero has been postponed until to-morrow, when it is expected he will appear in ranks mounted on his war horse in full uniform. A Grand gala day is anticipated.

Col. Wynkoop of the 1st Pennsylvanian Regiment has been appointed civil Governor of Jalapa.

Correspondence of the Pittsburgh Gazette
Philadelphia, Dec. 12, 8 P. M.

The preparations for the reception of General Taylor, on the 3d inst., at New Orleans, was magnificent, and the people were enthusiastic.

The procession was the largest ever witnessed in the Crescent city, and attracted great notice on its way to the Cathedral. The Hero of Monterey and Buena Vista, mounted on his war horse, was conspicuous in the ranks.

Bishop Blane made a very appropriate address on behalf of the city, to Gen. Taylor, who replied in a short and eloquent manner.

On the following day, Gov. Johnson presented the sword voted by the last Legislature of Louisiana, accompanying it with a speech, in which he alluded to the long services of the General, in the Army of the United States—to his brilliant victories, and to his great moral worth as a citizen.—Gen. Taylor made a very short and appropriate reply.

On the 7th, Gen. Taylor left New Orleans on the steamer Missouri, for Memphis, Tennessee.

☞ Salter's Ginseng Panacea.—MEDICAL TESTIMONY.—We beg leave to call public attention to the following, from Dr. Wm. Doan, of Withamsville Clermont Co., and one of the very first practitioners in the county in which he resides, and late Senator in the State Legislature. It is cheering thus to see the leading men of the profession, bursting the bonds of professional prejudice, and giving merit its due:

"Sir: I have in my practice been using some of your Ginseng Panacea, and, so far, am well pleased in its effects in Catarrhal and Bronchial Complaints. Please send me half a dozen bottles—put them as low as you can; as I expect if it continues to render as general satisfaction as it has heretofore, to keep it constantly on hand. Respectfully, ap17 WM. DOAN, M. D.

☞ The Climate—is strangely destructive to the human cuticle, (or skin,) the sudden change from heat to cold, and the smoke causes Yellow, Dark, Coarse Complexions. Then it is requisite that the pores of the skin should be kept open—that their mouths should be freed from impurity—'twas thus the ancient Roman Philosophers cured all diseases—they computed that more diseases and unhealthy vapors left through the pores of the skin, than any other outlet of the body. It is necessary, therefore, to keep the pores open—all humors are dispelled from the skin from the pores, when they wash with Jones' Italian Chemical Soap. I have seen it cure the worst and oldest cases of Salt Rheum, Erysipelas, Old Sores, Barbar's Itch, Sore Head Ringworm, when every other internal and external remedy had failed—its effect rendering the skin white, clear and soft, though it be yellow and coarse, is wonderful—it removes Freckles, Tan, Sunburn, Morphew, and disfigurement of the skin—but persons must be particular and ask for Jones' Soap—to be had in Pittsburgh at WM. JACKSON, sign of the Big Boot, 89 Liberty st. Price 50 cents. nvl9d&wly

☞ No Cure! No Pay! Piles! Piles!—Dr Jackson's Embrocation is the only medicine that will cure this so very common and troublesome disease. It not only immediately allays pain and inflammation, stops all bleeding, subdues that intolerable itching, but effectually cures, in a very short time persons whose lives have been rendered miserable for years.—Its application produces no pain, but rather an agreeable and pleasant sensation. If persons afflicted will call and hear of the great number of cases that have been cured, they will be astonished. A gentleman of this city, who had been under the knife of the surgeon for two or three times without being cured, has by using 2 bottles of the Embrocation, been radically cured. It sells beyond precedent!—[Phil. Saturday Courier.

☞ Does your hair fall off, does your hair turn gray;
Is it harsh, is it dry, or dirty, I pray?
If 'tis thus, you can make it soft, silky and fine,
Dark and healthy, and beauteous as this hair of mine;
And to have this, you have but three shillings to give

PEACE! PEACE!! NOT IN MEXICO. But in Every Mother's Homestead.

THE undersigned has long been convinced of the necessity for some medicine adapted to the use of Children and Infants to supercede the use of all those medicines which contain opium, and has at length succeeded in preparing and offering to the public a medicine fully answering every purpose for all diseases of the bowels, without the use of that deleterious drug, or any other calculated to injure in the least. The Infant Panacea has been fully tested and tried, the last twelve months, by numerous persons, and found to possess all the extraordinary virtues, and to produce all the astonishing effects as set forth on the bill of direction. Diarrhœa, Vomiting, Cholic, Griping Pains, Sickness and Diseases arising from Teething, acting immediately without disturbing any of the functions of the body, producing the happiest and most pleasant transition from violent pain to a tranquil and joyous state of feeling in the little sufferer.

To be had wholesale and retail of the Proprietor, Dr. JOHN SARGANT, Druggist and Apothecary; John Mitchell, Elliott & Beckham, and most other Druggists in Allegheny and Pittsburgh. de13

B. A. FAHNESTOCK'S PNEUMONIC, or Cough Balsam, has a great advantage over many other Cough preparations, as its pleasant taste permits it to be used without inconvenience. But its value as a Balsam, consists in the speediness of its cure. We have known some of the most desperate coughs, some of which had been running on for a considerable length of time, yield almost immediately to its power.

In such weather as we have had during the past winter every one is liable to take cold, unless great precautions are used.

Wet feet and undue exposure to the inclemency of the weather often lays the foundation of a hacking cough which needs a quick remedy to prevent serious results.

We have numerous certificates of cures which it has performed, many of which are from persons in this city and the neighborhood, and they are a sufficient reference without saying another word in its favor.

Prepared and for sale wholesale and retail by B A FAHNESTOCK & CO, corner of Wood and 1st and Wood and 6th sts. de13

TRIUMPHANT SUCCESS.

Consumptives, remember that it is Thompson's Compound Syrup of Tar and Wood Naptha which is daily effecting such remarkable cures in

PULMONARY CONSUMPTION!!!

Asthma, Bronchitis, Spitting of Blood, Pain in the Side and Breast, Sore Throat, Hoarseness, Palpitation of the Heart, Whooping Cough, Croup, Hives, Nervous Tremors Liver Complaint and Diseased Kidneys, etc.

THEREFORE, beware of all spurious mixtures of Tar or Naptha as imitations are abroad

M. S. P. Thomson—Dear Sir—The astonishing benefit I have experienced from the use of your Compound Syrup of Tar and Naptha renders it my duty to inform you of it. I had been long afflicted with a very bad cough, causing severe pain in the breast, with great oppression, difficulty of breathing and loss of appetite. Using various remedies without effect. I became alarmed, I heard of your medicine, but being averse to using most advertised medicines, I thought I would adhere to what I had been using. Finding myself getting worse a friend persuaded me to try a bottle of your preparation, saying "he owed his life to its virtues" I immediately procured a bottle and commenced using it, and before I had taken two bottles, I was completely restored to health.

Solely for the benefit of others I make the above brief statement. Any further inquiries can be made at my residence, 148 Catharine street.

Respectfully yours, FRANCIS PREVOST.

Still another Remarkable Cure.

Carlisle, Pa., Nov. 20, 1845.

About six years since, in consequence of the sedentary nature of my business, I was attacked with severe pains in the breast, palpitation of the heart and shortness of breath, which were soon followed by the failure of appetite, extreme wakefulness at night and partial paralysis of my limbs—these symptoms of a deranged system being frequently attended with spitting of blood. For about two years I was occasionally thrown into convulsions, which left me in a miserable state of feebleness and began to affect my mind. From time to time my sufferings were more or less severe, until at length they increased to such a degree, and the violence of the symptoms were so augmented, that for a whole year I was unable to attend to any business. During this time I consulted some able physicians and attended to their prescriptions, but all their skill was unavailing to procure me relief, and at length they regarded my recovery as entirely hopeless. In this condition I was informed of the salutary effects of Thomson's Compound Syrup of Tar and Wood Naptha, in a case somewhat similar to mine, and though I had given up all expectations of a recovery of my former health by human means, yet being strongly advised to try this medicine, I was at length prevailed upon to do so, and I have now to say, that by the use of six bottles my health has been restored, and I am now able to attend to business with as much facility as usual. HENRY MYERS.
Of Dickinson Township.

Prepared only by ANGNEY & DICKSON at the N. E. corner of Fifth and Spruce streets

Sold by L. WILCOX, Jr. Pittsburgh, and respectable Druggists generally. Price 50 cts or One dollar per bottle.

CAUTION.—Beware of imitations, and purchase Thomson's Compound Syrup of Tar from none but advertised agents, or of those above the suspicion of dealing in counterfeits. dec11d3m

CIRCULAR.

WASHINGTON, D. C., Dec. 6th, 1847.

Oscar D. Thompson, Esq., Pittsburgh, Pa.—

SIR: I have read your advertisement in one of the Pittsburgh papers with not a little surprise: I find that you have copied my business Circular entire, and appropriated it to yourself. I will take the liberty to inform you that my business Circular is my own composition, and is not common property. I shall not willingly consent to be placed in a position that will induce persons who do not know me to suppose that I am not capable of composing my own business card; or that I am capable of pilfering and appropriating the card of another to my own use. I am, therefore, under the necessity of noticing and exposing your plagiarism in this manner

PERSONS brought out by this agency upon the most reasonable terms, from any part of England, Ireland, Scotland, and Wales, and in Packet Ships only. Foreign Correspondents and agents of the British Government have frequently cautioned Emigrants in America against the frauds that are continually practised upon them, and have always referred to the well known house of HARNDEN & Co. as the right place for all to apply, if they wished to be treated with punctuality and kindness.

Parties who advertise themselves Sole Agents for the Black Ball Line, state what is untrue, and thus deceive the public, as we profess to be Agents not only of the Black Ball Line, but every other good Line, and also Cunard's Steam Line.

Sight Drafts to any amount payable at any of the branches of the Provincial or National Banks of Ireland, England, Scotland, &c. We draw our own Exchange, we do not take money and send it to the East to get some one else to remit, thereby causing mistakes and delays.
