WASHINGTON, March 2, 1518. Oriant case has been argued before the Court to day, "the United States versus the city of Portland." That city has taxed the Custom House as other real estate is taxed, and the tax for man years has been voluntarily paid. Recently it ha been refused, and a suit instituted for the recovery of damages. The question is whether this class property is exempt from State taxation. The At-torney General for the Government has argued against the right of the States to impose such a tax. is exempt from State taxation. The Atand George Evans, the able Ex-Senator from Maine has sustained the law and the practice. The que tion, it will be seen; involves a, nice power of dis crimination as to the line of demarcation. Mr Evans admitted that the means of the Government ould not be taxed, nor could exports, or impor ige, but the property of the Governments, he held, might be, the Custom as much as the Ware House, or the Post Office, o Collectors, or Post Masters, all of which and all of rhom it is known are taxed by State authority The "Birth Night Ball" for the Washington Mon. ument, turned out to be numerically a failure .--There was a frust for a thousand, and not half the
