Andress per annual; the Tri-Weckiy annual; the Weckiy is Two Dollars their favora before 5 P. M., and a tracticable.

Gall & Barris and Barris

Whig and Anti-Masonic Somination OR CANAL COMME RER. MIDDLESWARTH,

The Country we acquire by the Treaty

oved from the proce ensie and contribute largely to enlighten the p he mind as to the character of the country have acquired, ht an expense of a two years war-the loss of 20,000 lives; and a promise to pay twea-twoise millions of dollars. Failing therefore, in the yone millions of dollars. Fail

nes of information which might have been sources on intersection made in secret session, we ainhed by the speeches made in secret session, we have resorted to the public documents and othe means, which we have been enabled to lay hand apon at the seat of Government. The proposed securities of territory have already been defined in the treaty we have published, and which is cor-

rect is every essential particular. If is the country between the Nucces and the Rio Grands, claimed by the Administration befor the war begun, New Mexico, Upper Californ onh of the river Gila, on a line drawn from i section with the Colorado to a point on the P uth of the harbor of San Diego. luctance, has been com the cession of this country to the United States, and the President made war upon Mexic to compel the bargain at her hands.

sider. is the sur The question for us to co the war the lives lost the Treasure expended the price paid, or even the value of our claims up

a price paid, or even in value to be five and a qui a Mexico, supposing them to be five and a qui er millions. It is worth neither.

 on Mexico, supposing them to be live hald a duit to main the second of the state, which the is due to the state with the hearty assent of the pools. The country between the Nueces and the Rio which true democratic labored, and became the or the state, which the hearty assent of the pools. The war in which we are now engage and the state with the hearty assent of the pools. The war in which we are now engage and the state, which we are now engage and the state, which we are now engage and the state with the hearty assent of the pools. The war in which we are now engage and the state, which we are now engage and the state, which we are now engage and the state with the hearty assent of the pools. The war in which we are now engage and the state, which we are now engage and the state with the hearty assent of the pools. The war in which we are now engage and the state with which we are now engage and the state with the hearty assent of a concertaing free soil to freedom, enlists the warrous approval, the meastrees to give thom practical application having this socured is warm and generous approval, the meastrees to give thom practical application having the size of the generous approval, the meastrees to give the democratic stath aving the size of the generous approval, the meastrees to give the democratic stath and the state will will be accurate the democratic state of the generous of candidates *rridy representing them* the democratic stated.
 P. Gaines, of the House of Representatives, designed the trade the state, which we then of other to the conduct the state will will be assented for the democratic state of the state will will be assented and the state will will be assented and the state will will be assented as the democratic state of the state will will be assented and the state will will be assented and the state will be assented as a secont to the democratic state of the state will be assented as a secont will be astate will be assented as a secont will be astate will be astate scriptive of this country. He was in command , one of the Kentucky Regiments and crossed th Nueces on the 11th October, 1816. In conclusion

with not a single tree of any size of value on our ivhole route. The only tree which we saw was the ynnawnit tree, and very few of these. The muaquit is a small tree, resembling an old and decayed peach tree. The whole country may be truly called a perfoct waste, uninhabited and uninhabitabe. There is not a drop of running water between the two rivers, except in the two small streams of San Salvador and Santa Gartudas, and these only con tain water in the rainy seasor. Neither of them has running water when we pased theri. The chap

tain water in the rainy sensor. Neither of them has ranning water when we passed thend. The chap paral commences willing here of the sensor Ho Grande. This is poor, rocky and sandy, cover ed with prickly pear, thistles, and almost every sticking thing-countiming a thick and perfectly impenetrable undergrowth. For any useful or ag-ientimum diverses. The country is not worth

to far as we were able to form any opini advect upon the other routes which had this desert upon the other runtes travelled, its character overy where two rivers is pretty much the same. that the route pursued by Gen. Tayl ours, was through a county similar to that being elected, his own sense of propriety w prompt him to decline the service. Members San Antonio to 1778100 the ard ioin what we both saw and beard. Coagress are chosen for Legislative service, and and came to the conclusion which not for President-making. After a residence of six expressed—that it was worth mach o bestation in anying that I would or seven months at Washington, they are not al o bestation in any and marful man the origination of the second second

Washington, March 13, 1688. Weashington, March 13, 1688. Lieut: Franklin of this State, and of the Topo-Inter Franklin of this State, and of the Topo-traphical Borreau, says there is not a single run, graphical Borreau, says there is not a single run, ining stream between the two rivers and Charles in the second of the stream devices of covernment. Both parties congregate there in caucues, or cliques, backed
