FOREIGN NEWS.

The New York papers of the 21st, have an exended account of the doings in Europe, from
which we make the following extracts, that will

age the convulsion that has 'overspread the rest of Europe.' The next steamer will be looked far with the most intense interest, for it will give the evailt of the attempt at revolution in England.

EXCLAND.

A great Metropolitan Chartist meeting was to have been held on the day the Sarah Sanda left on Kennington Common. Petitions for the Charter were to be adopted, and the meeting was to repair en masse to Westminster, and present them to the House of Parliaments, to re-assemble on Tuesday, and so in procession to ask the Perliament to

day, and go in procession to ask the Parliament for an answer.

On Thursday week Dr. McLonall, delivered a lecture to the Charitist at Nottinghau. He spoke much in favor of the Charter, and said, if the petition which is to be presented on the 10th inst. was rejected, he would come to Nottingham, though he had to come thither barefooted; to put himself at the head of the people.

Such was their organization that they could assemble all their force in Loudon in two hours.—There was no law against a number of men, from every city, town and village in the empire, walking quietly to Loudon. And with 500,000 men, each carrying a gun barrel, what could Lord John Rusell do? The people would wait a long time but not forever.

The republican spirit is spreading rapidly among the laboring classes in Dublin. Letters farm Cork Waterford and Kilkenny, say that the mechanics in these cities are arming, and in daily expectation of bearing a rise in the metropolia.

The Akt-la-Chaplel Gazette of the 27th instant, axys that a private letter from St. Petersburgh of the 10th, states that the greatest confusion prevails in the city, that the Emperor was shot at in the street, and that the/sall pierced his hat. The nootes and the army are as the head of the movement.

If we are to believe the announcement which appeared in the Breslau Gazette of the 21st, a collision between Russia and Germany is imminent.—Quarters have been spoken at Kalish, says this journal.

The Paris Moniteur du Soir sives the following, from the frontiers of Foland:—30,000 Russians are cancentrated on the frontier of Gallicia, some leagues from Cracow; 50,000 men occupy Russian Poland. Warsaw has a garrison of 20,000 men.—The Russian quard is already in great part on its Poland. Warsaw has a garrison of 20,000 men.— The Russian guard is already in great part on its way for the frontier of the duchy of Posen. Re-serves have been called from the interior, and the corps stationed on the side of Odessa, and towards Turkey, have received orders to send 15,000 men-toward Gallicia. To this news we may add that the army of the Cancasus is also going to be di-minished, and that if has received orders to remain altogether on the defensive.

DESTRICTIVE FIRE.—The configation at Philadelphia on Tuesday evening, a brief account of which we gave in our Telegraphic Despatch published Wednesday, consumed the four large new Mores, known as "Cuthbert, buildings," on Delaware winsrves, above South street, and partially injured whirves, above South street, and partially injured two others adjoining them.

Two of the new stores (says the United States Gazette) were occupied by Robert Patterson & Co., who are the heavisst losers by the configation—The third new store was occupied by John F. Oil. The fourth was the occupancy of Wm. Ayres, Ir., sall dealer. Allibone and Troubstt, naval stores, and James Carstairs, groeries and liquors, were the occupants of the other two stores.

The following is a recapitulation of the loss, as far as we could ascertair:

No. 7 was occupied by Mr. Ayres, No 5 by Mr. Ohl, and No. 9 and 10 by Pat-terson & Co. Mr. Ayres tosas is triding. Mr. Ohl's loss is probably \$12,000. The loss of Patterson & Co. will. it was thought, reach \$35,000. The great-er amount of their loss is doubtless covered by in-surance.

DUTT ON HOSERY, &c.—We learn from Washington that the Secretary of the Treasury has revised the recent Circular of that Department, which raised the rate of duty on cotton stockings to 30 per cent. on the ground that the sewing on them was done by hand, and has determined to issue new instructions to Collégiors, to charge only the old rate of twenty per cent. Gen. Kearny has been installed as Governor of the State of Vera Cruz.

It is stated that the Court of Inqutry will adjourn to the United States as soon as it has taken all the testimony to be brought before it in Mexico. It is also stated that Gen. Butler is determined to send Mr. Trist out of the country as soon as possible, and had demapded of the Court that the balance of his testimony should be taken as early as possible. The reason for this course on the part of General Butler is set forth in a letter from the city of Mexico to the New Orleans Picayune, as follows:

And let me again ask, if these persons who were here on the ground, and acquainted with all the circumstances of the past and the present, are not likely to know the motive and promptings of the negotiator, and the object he had in view!. When Mr. Trist is thus assailed, Generals Scott and But-ler are assailed; the American army is assailed, and the honor and fame of our nation comes in for plarge share of the disgrace, if any there be. But more of this ambject, and I pledge myself to show clearly and distinctly, at the proper time, that these shunders and libels have been originated by aspiring demagogues and pecuniarily interested individuals, and that instead of their promulgation of them being governed by a patriotic impulse, they have given currency and circulation to them with a sortidi interest, or governed by a most inveterate personal hatred and unjustifiable ambition.

We have accounts from our different posts at Toluca, Real del Monte, and Cuernavaca. There is nothing very instructing or important from thee, except that the bealth of our troops is improving. No doubt the prospect of peace and the idea of going home has some effect on the sick.

Mr. Trist is still here, being detained on account of being a witness on the Court of Isquiry. There is no telling now when he will be able to go, perhaps next fall. He may get away from here previous to the rage of the vomito on the coast. The Court, however, is "in for the bulance of the season."

A PRUDENT ARRAGEMENT.—A prudent an well disposed member of the "Society of Friends, once gave the following friendly advice.—Jolu, said he, "J hear thou art to be married." "Yes, replied John, "I am." Well," rejoined the friend "I have one little piece of advice to give thee, at that is, never to marry a woman worth more that thou art.
