The Report of the Judiciary committee upon The Report of the Judiciary committee upon is subject, some days since submitted to the e, has been printed in the usual number, an ing sufficiently penal in its character. The Repor vantages are upon one side. The following count of the origin of the law of 1793 has son count of the origin of the law of 1783 has soo thing of State as well as autional interest.
It appears from satements now before the consisten-that in the year 1731, the governor of Paylvania, under the provision of the constitut-relative to fugitives from justice, made a dem on the governor of Vigition for the surrender-delivery of three persons who had been indices Pennsylvania for kidasping a negro and carry limit into Vigitia. This law, has been upon the Statute Book for nee than fifty years, having been approved on the 12th of February, 1793. The following extract from the report is not without interest. It shows where old Pennsylvania was upon this question the Pring chain in the action of the State.

Already has a memorial come to Congress from a large number of citizens of Pennsylvanna, praying fur the repeal- of that law. That memorial has been referred to your committee, and it is a memorial as numerously signed, probably, as any other that has come before Congress.
