New York, May 11, 1848.

Flout—There is no marked change from yester. Jones Soop is used by many physicians in this city in curing the store, and we would not conscientiously sell unless we knew it to behilf we state.

As a cosmetic, the true Jones Soap is perhaps the only, sricle syer known that removed importities and cleared sad beautised the skin, making it soft, ciear, smooth and white as an infahr. Sold by WM. JACK-SON, 89 Liberty street. Grain—The market for wheat has an upward lendency. Corn and other grains are in fair demand. The corn market is steady—onthe are quiet.

Sales of prime white wheat at 1.4831.50 \$\psi\$ tu.

Prime white corn is selling at 5.50 \$\psi\$ bu; of prime yellow at 56.

STREINS FACT.—The following fact speaks volumes as to the prospects of England and the U. States.—"At the dedication of the Hancock School in Boston, Mr. Mann stated as an interesting fact, that for the fast ten years; the expeditures of the city of Boston for schools were equal to the whole expenditure for schools of people. They had kept pasce with each other from year to year.

New York Caral Freights.—The charge on a barrel of flour, in the first days of navigation this year, from \$1,25 to \$1,50. More than 1500 new boats were built last year, equal to an addition of 50 per cent to the toninge. The freights of this year are only half what they were for the corresponding period last year.

A letter from Mobile, in the New Orleans Mercury, eave: "It is rumbered, here that several large houses have suspended payment, and also some of the small firy, but I shall give no names at present."

Some Locofoco in New York writes to the editor of the Washington Union, "persovers in your patipotic and honest course." Honest course.—This is about as ridiculous as it would have been in a neighbor of Methuselah to say to that venerable specimen of mortality in the last year of his life, "go it while your'e young."—Louistrille Jour.

New Financial Openations.—We were shown yesterday, a one dollar note of the State Hank of Ohio, altered into a five. A figure "(", out from some other note, was neatly pasted over the "I", out the fright of the vignett, and the figures in the ury sait sides at 22.
