REMOULAR PITTISBURGH AND ZAMESYLLE

The fine now light dreams usessare

The fine now light dreams uses a second control of the light dreams used to be a second control of Cincinnati, Matthew Simpson, D. D. Pitt-burgh Christian Advocate, Rev. William was not then defined. Jefferson's plan was as bloodshed.

At Xionz, a town south-east of Posen nearly 1,000 insurgents, under Dombrowski; furtified themselves within the place, and bade defance to the summons of the Prussian General, notwithstanding the overwhelming force under his orders.

A sunguinary conflict ensued on the 20th bit, and the Poles, who had nearly 200 men killed and wounded, and 700 made prisoners, defended themselves with desperate valor, causing a loss of nearly, it is not not not a series of the prussian troops, after taking poissession of the lown, which was nearly destroyed by fire collected and sent their prisoners to Custria, and then not wanced to Newstadt and Miljaslow.

A similar fight occurred at Miloslaw, where the Prussians suffered much from the fire of the Polish sharpshooters, who picked on the nofficers. Several all hundred Polish soldiers of the 16th and 19th Regiments deserted to the Poles The town of Miloslaw was twice taken by the Prosen and forced to retire in the direction of Schroda.

The Government is determined to complete the disarmament by force of arms, and as energetic and desperate registence is made in every direction, the strangle can only end in the externination of one party or the retreat of the troops.

The Consordie of Turin, of the 6th, announces from Messian that, up to the 25th ult, the bombardment of the town had not ceased. The Neapolians had not even interruped their five on Good Friday. The garrison made a sally on the 24th, but were repulsed with loss. The townears skill barricaded, and the inhalatants on the qui vive.

Had the representatives of New York been allowed to take part in this nomination, it will be seen that a two third you would not have been obtained for General Cass. We are gratified that such was not the fact, and that we are then relieved from all responsibility for a nomination which reflects deep diegrace on the parties by whom it was mails. The delegrates from New York were excluded, because they were friendly to the preservation of freedom in free territories, and Generation to the preservation of freedom in free territories, and Generation teconstitutional. This is exactly the itest presented by Georgia, Virginia, and Alabama, and Fordia, and to which the Utac Convention solemaly pessived they never would submit. The Democrafic party of the Union has been dismentable to the control of the preservation of the period on this sole question, and the Democrate of New York are thrown back to the silerastive of State action and State nominations. It remains to them to act with the calmones, frames, and determination, which have always signalized their actions. OBN AND BEANS—130 bus Core; 25 bbis Benns, for sale by my20 I c BillWELL.
