This would seem only characteristic of the man who has since proved himself equally rough and ready under the sourch-ing sun of the tropics. But, looking back through hing years to many a pleasant hour spent in the well selected library of the post which Colonel Taylor then commanded—we were moved with f

ed from the point of divergence to the Chestne Ridge, a distance of thirty six miles, except in a instances. On the Greensburg line great many free releases have been obtained, the not so generally as upon the other. Many conditional subscriptions of stock have been obtained on both lines, but in this particular, also, we wer surprised to hear that the enterprising citizens of the north were ahead of their more wealthy southern neighbors. Our Greensburg friends should look to this matter, for if the relative advantages of the two routes prove to be nearly balanced, re leases and local subscriptions may have an impor-tant bearing upon the Company's final decision. We are satisfied that the Company will perm
