"The Volunteer objects not to the reduction of

He also informed us that Mr. Case was hung and burnt in effigy in hispresence in Mexico, on account of the practical workings of this bill.

GEN. TAYLOR'S ACCEPTANCE—Some anxiety h been expressed, principally by the Locoficos, in regard to the acceptance by Gen. Taylor, of the Whig nomination. The letter of acceptance will abt be forthcoming whenever the official no arrived in New Orleans on Friday, the 30th of June, where he expected to remain a few days, to meet some of his old friends returning from Mexi-The Picayune of July 1 says:

The nomination of the Philadelphia Convention was transmitted by the President, Gov. Morehead, of North Carolina, and the letter of acceptance has been forwarded, through New Orleans, to him, and the contents will only be known when it is published by Gov. M. In the meantime, we have every assurance it will be all that every true Whig can desire.

Burna Vista.—On the 21st February, 1847, when the countless army of Santa Anna had taken up tan band of citizen soldiers under the command of Gen. Taylor, this pure and brave man thus wrote

in a private letter to a friend:

"This may be the last communication you will receive from me; I have been stripped by the government of regular troops, and reduced in volunteers, and thus stripped, and at the mercy of the foe, have been expected to retreat or reagn; but I shall do natiher. I care not for myself, but feedbeeply for the noble soldiers who are about to be sacrificed for their country—we shall stand site them battle, relying on a just Providence for a right result."

Parades has at last committed over acts against the government. On the 16th of June he entered the city Guanajusto at the head of about 400 men and made huraself master of the military stores in the city. The garrison after a show of resistance, joined him. Bustamente and Minon, who were sent against Paredes, are believed to be acting in concert with him. The State Congress of Guanajuato was immediately disolved, the lawful Governor displaced, and the country is evidently already armed at the prospect of the success of the revolutionists, though the press at the capital puts the best face possible upon the subject, and affects to treat the revolution as little formidable.

The designs of Paredes are believed to be shadowed forth in the following plan, although his name

The present acting Governor of the State, Hon Wat. F. Johnstons, is at present in town, at the St. Charles Hotel. We learned from himself, that he intends, in due time, to issue a writ for the election of Governor in October, as he considers that the Constitution in this case is imperative.

Mr. Johnston is a hearty, hale looking man, in the prime of life, with popular address, and courteous manners, and we find there is a strong current setting in, in favor of his nomination by the Whig State Convention. He would no doubt acceptable to the people and party, and if nominated, we shall support him with pleasure.

The Pennsylvania Inquirer, in noticing the resignatios, thus speaks of Mr. Johnston.

More than half of the territory of the Republic has been sold to the enemy for a sum beneath contempt.
