This medicine, the invention of a man who gave the subject of Pulmonary, Bronchall and Pectoral diseases the most rigid examination, has now been before the public near four years. During this period it has performed some of the most remarkable cures on record of Pulmonary, Dornamption—secured the nor record of Pulmonary Consumption—secured the notice, and the warmest approval of thousands of persons un ordinary and severe Colds, Cougns, in Houseness, Spitting of Blood, &2. acrivinguing Ciribas and severe Colds, Cougns, in Hoarsenees, Spitting of Blood, &c.

Blood, &c.

About four years since I was ettacked with Typhus Pever, which left me in a miserable statyof health, in extreme debidity with a general prostration of the system, with violent pains in the breast and loss of apperitie, in consequence of which I was anable to attend to my usual business, or perioris any kind of work. I applied, to several physicians and used various remedies, but without any benefit, and had despaired of ever obtaining a recovery of my former health. But sometime last June I was advised to try Thomson's Compound Strup of Tux and Wood Napha, and incredible as it may appear, by the time I had taken three bottles the debility, pain and every sense of suffering were completely removed, and I was able to attend with restored health to my usual avocations. ith to my usual avocations.

VALUABLE TESTIMONV.

This may cernify that in the spring of 1946, my heath was very feeble; I was stilicted with pain in the side, with other slarming symptoms, and suffered much from great debility. At that time I purchased from Moses Dame two bottles of Thomson's Compound Syrup of Tay and Wood Naptha, from which I experienced great benefit, my health being now good; and I cheerfully recommend the article to all persons who may be suffering with general debility, with symptoms of a doeline.

INGS.—Scroids in all the multiplied forms whether in that of King's Evil, enlargements in the glands or bones, Gottre, White Swellings, Coronic Rheumatism, Canser, descase of the Skin or Spine, or of Palmonary Consumption, emanate from one and the same cause, which is a poisonous princepier more or less inhereat in the human system. Therefore, notes this principile can be destroyed, no radical cure can be effected, but if the principle upon which the disease depends, is removed, a cure must of necessity follow, no matter memory as of the principle upon which the disease depends, in removed, a cure must of necessity follow, no matter what form the disease should manifest itself. This, therefore is the reason why Jarag's Airtrartire is so universally successful in removing o many mainguand diseases. It destroys the virus or principle troop where those diseases have their origin, by entering into the circuittion, and with the blood is conveyed to the minutest fibre, removing every prucie of diseases from the system.
