An engregement had taken place between the Government troops, commanded by Busamente, and the usurgents, under the lead of Paredes, in which the former was routed. The Reads throughout the whole of Mexico are stated to be infested with robbers, who were plum-dering all that came in their way. Another arrival brings two days later intells ge>co fdb success of the insurgents, and announ-ces that they will probably overturn the Govern-ment, and drive Herenze from power and dissolve the existing authorities. [The Intelligence from Mexico above given, is of starting importance, and it is very probable that the interference of our Government may yet be ro-quisite to protect our own rights, as signilated in the recent ratified Treaty.]
