tive system, there can be no doubt; the danger is that the delay will ruin thousands, and impoverish the country. The effects of the present policy are strikingly depicted, in the following extract from the N. Y. Tribune

teamboat men, &c.

"Preparing the Hearts of the People for War."

good blood with marked deliberation, and with em

phasis, as the following history of the circumstance as related in the New York Express, will show:

God's earth, than in wading to victory through

Boston Traveller gives the amount of revenue at that port for the quarter just ended as \$1,114,750, being a decrease of \$304,069, compared with the same quarter last year. In the first quarter of the

\$2,416,440 14; for the first six months of 1847 \$2,464,159 50. Decrease in the first six months of 1849, \$18,719 42. The number of foreign arri-vals in the first six months of 1848, was 1292; same

"Thus it will be seen that with an increase of foreign arrivals, the revenue is decreased. The reason of this probably is that a large quantity of goods which were brought here last year in the English steamers for New York account, now go directly to that city. Deduct this item, and the revenue will be found to have materially increased for the past

267. The Traveller says:

and in sool blood by General

we beggre the country is now shearly out cap-idly approaching a crists, wherein a return to the Protective Policy or universal prostration & bank-ruptcy is nevitable. At this moment half the man-ufactories in the country are running at a loss, many have stopped, and more muse stop if some decided change is not effected. Our Iron Works, hitherto manufacturing for rathroads are closing up, while British rails till our ports and are spread

The Factory Question.

We give, in another column, the calm and sen-sible statement of the Factory proprietors of Al-legheny City, and ask for it the unprejudiced altention of every citizen. The reasons given for not agreeing to deduct two hours daily from their running time, appear to us reasonable and conclu-sive; and those who know the men, will feel assured that the resolution they have adopted, compe poverish the operatives, by depriving them of the produce of their labor, and to injure the proprietors very seriously. These are the present results—the prospective are, to prevent the establishment of any further factories in this State, and to drive away, finally, those which are here.

If the operatives are not under the control of bad holding out can do no possible good. They mu have only stated their firm resolution. If they can employment, until some general plan can be arranged, on which the factories in all the States can run ten hours a day, an object greatly to be desir

regulating the hours of labor for adult persons, is very injudicious, and calculated greatly to injure paperity of the State, without doing any por sible good that we can see. We can hardly con lature. If it is desired to show the world that Penn sylvania favors the ten hour system, or the eight hour system—for if there is any virtue in the ten whose manufactures come into direct competitue with ours. Let the law go into operation whenever er other States shall agree to the same system There would be sense in such an arrangemen

The Post tately stated, under the head of 1 aylor-ism in Western Virginia, that the Wheeling Times had lowered the name of Taylor, and when we denied the truth of the statement, the editor reiter-ated his former assertion. The Times thus answers

Like the good Washington, he cherishes the arts

the Post:

'The editor of the Pittaburgh Post persists in the assertion that we have lowered the Taylor flag.—
That is a beautiful state of things. We raised the flag when there were fit a half dozen Taylor men in the city. We would hardly lower it when there is nothing else but Taylor men here or elsewhere. We do not whipple round as the Post did about taniff 1842. We never shall lower the Taylor flag until he is ensconced in the White House.

meeting, of the friends of Taylor and Fillmore, was held in the Tenth Congressional District, in this State, at the Borough of Easton, on the 25th July. Henry Maxwell presided. Alexander E Brown. Delegate to the Philadelphia Convention, and Hon. E. J. Morris, addressed the meeting. The meeting was enthusiastic, and gave cheering indication of the success of the Whig cause in that quarter Among the resolutions is one recommending Px TEE T. MICHIER, as Whig candidate for Gov.

Rev. Joshus Monroe is appointed Presiding E der of the Allegheny District, in the Methodist E-piscopal Church, in place of Rev. J. W. Miner, de-

Clar Inon Sanous have been invented by

Montgomery's Patent Steam Boiler. We had the pleasure, the other day, of making he acquaintance of Mr. James Montgomery, the ably noticed in New Orleans and New York and which is already in operation quite extensive

lains' and 'scoundrels.' The hard names may brough the city hastily, and we had but a short nough that the Editor of the Post has no belief in the maxim, that 'easy blows kill the devil.' I not tice the article, however, for the great injustic ew boiler, and the certificates he placed in our done to the Whigs in Congress, in a single state nave tested its properties, we infer that it is one o "Two years ago, owing to the war in Mexico twenty or thirty new clerks were needed to atten the most important discoveries of the age, and cal-culated to produce an almost total revolution in steamboat and other business, where steam por er is used. Several steamers on the Mississipp as Mr. Montgomery informed us, have adopted b our city is as much interested in the manufactu

twenty or thirty new clerks were needed to attend to the business then preasing upon these branches of the civil service. The wants of the Department are now no less than they were then; but on the contrary, are probably much more pressing; yet, notwithstanding such is the fact, we understand that a Federal majority in the House, while they do not increase the force in either Department by a single clerk, have actually passed a bill, cutting off four clerks from the office of the Second Auditor of the Treasury. Thus must the poor soldier wait for his pay, his extra allowance, perhaps even for his land warrant, for a year, and it may be longer, while these Federal patriots' are squandering thousands of the public money daily, in attempts to villify the administration; bolster up their rotten cause, under the name of General Taylor, and dely examined and tested by our enterprizing m scription of this invention, we take from th INPROVENENTS IN STEAM BOILES MACHINERY.

Among the numerous inventions and improvements that have been recently made or attempted there are few which promise to be of greater public advantage than the steam boiler which has been patented by Mr. James Montgomery, and which is already in successful operation in different manue factories in this city and elsewhere. Its merits have been sufficiently tested to establish its superiority also re all others that have ever been employed, and there is little doubt but it will speedily come into general use. In some of our principal foundries and machine shops, boilers which were well arranged, of the ordinary make have been taken down, and those of Mr. Montgomery have been substituted in their place, and like alterations are still going on in others, and those too, the most extensive establishments amongst us. The first engineers and the most experienced and practical mechanics in this sountry, who have seen and examined this boiler, give it their decided approbation and preference, and it must, most unquestionably, create an entire revolution in the mode of making boilers. It seems, in fact, to unite every advantage, economy in time, fuel, and space for generating steam.

the Whigs were in a majority, they have reported favorably upon every recommendation of the Sec appointed them all of his own party, and some clerks, and activity in the discharge of duties muc

But the Post, which can use such hard words a therefore, requested from the Clerk of the House an official record of the number of clerks authori ed by law, since the meeting of Congress.

I hereby certify that the following items of appropriation are contained in the 'act further to supply deficiences in the appropriations for the service of the fiscal year, ending the 39th of June 1815. Approved March 27, 1848.

'For extra clerk hire for the settlement of the in crease of business in the office of the Secretary of the Navy, occasioned by the Mexican War 86,000.

the case. We may well wonder that one individual has been able by his ingenuity and skilful contrivance to obviate at once ao many of the objections that were applicable to the old fashioned boiler, and by a method of construction peculiarly his
own, to concentrate such a variety of valuable and
useful properties. The article of fuel alone, which
it will save, will be of the most incalculable benefit
of only to ranufacturers, but to the public generaily. Then also, nearly, if not quite one half the
quantity and weight of iron will hardly be necessary to answer the same beneficial results. Boilers
of this description, on ship board or in boats per
pelled by steam, will take up only one half the
space, leaving much more room for freight, or for
the accommodation of passengers, and buildings
of less size will be required where steam is employed for manufacturing purposes. To say nothing of the saving of time, which til take to
raise a sufficient head of steam, which will be
equal to such an amount of wealth acquired, the

ized in the above extract. ance may some times be excused, if corrected when pointed out, but the Past publishes the Laws given the best answer to its own misrspresentation

informed us, that an extensive Tow Boat Company in that city, after trying the boiler, and testing nonths' extra pay bill, for the Volunteers, and it s advantages, had concluded to adopt it on their has become a law. Also, three months' extra pay boats, and were constructing them for that purpose Mr. Armstrong will take pleasure in exhibiting this model, and in describing it to Engine builders

From the National Intelligence New Schemes of Conquest and Annexa

tion of Territory ! This most iniquitous and destructive sentiment quences of the Texan-Mexican War, the Public is not, we believe, aware how near at hand is the ment when those words are to find employof Mexico by an armed force, and then "annexoe of liberty, the destroyer of morality, the chosen

ready arrived. We give notice of it to Congress' who are kept in ignorance of it and to the Peo-ple of the United States, who are not dreaming who are kept in ignorance of it, and to the People of the United States, who are not dreaming of it, except the few, very few, we trust, in proportion to the whole, who are in the secret of this conspiracy against the peace, the honor, and the reputation of our country—not to speak of possible consequences more appalling than the loss of all these, which have been already sufficiently compromised by the wilful and wanton. National war, just brought to a close, with results anything but auspicious to the public weal.

Without further preface, we place before our readers, in the precise language of our authority o murder, to destroy-not to promote peace and readers, in the precise language of our authority information upon which we place entire reliance

readers, in the precise language of our authority information upon which we place entire reliance.

"Arrangements are nearly completed for the contemplated new Republe, to consist of the Mexican Provinces on the Ric Grande, with San Luis as the capital, and Tampico and Matamoras as the scaports. Gen. Shields is at the head of the movement, and is now propably at San Luis in general council to make the final arrangements. Many have already gobe from New Orleans to meet him: the American force will not be less than five throusand men. Our Government [the Executive] were consulted; but they raid that they would neither aid nor oppose it. They well aid it, notwith standing their declaration. They can leave arms, ammunition, &c., at Tampico, and on the Rio Grande, and let the invading force toke them. Further annexation is the object, after the new Republic of 'Sierra Madar' has declared its independence of Mexico."

"I have a perfect horror—adds our informant, in whose sentiment we entirely concur—of this Annexation System. Texas and the recent Treaty Territory have been and will be the greatest curse that ever betell the country. We have only taken the first draught of the bitter cup, to the extent of the loss of twenty thousand lives and the expenditure of two hundred millions of dollara—Would to God that that were all that the affair is to cost us! It is, however, only the beginning—This new Republic is to be the second act in the drama: but which may God in his mercy defeat."

Our own warning and protestations against the combination of speculators and politicians to bring

passas, as the following instory of the circumstance, as related in the New York Express, will show:

"On the 15th of December, 1845, a debate arose in the Senate on the prospect of a war with England, growing out of the then existing state of the Oregon question; in the course of which Mr. Allen, of Ohio, the well known 'gong,') made the extraordinary declaration that one of the best undes of preparing for war is to prepare the hearts of the propie for it. So startling an exclamation very naturally excited some attention at the time, among the lew who did not know the speaker; to all others it seemed only a new and appropriate outbreak from the source whence it sprang. On the 14th of January, however,—about a month afterward,—Mr. Cass made an elaborate speech in the Senate, in support of Mr. Allen's resolution, directing the President to give Great Britain a most summary "notice" of the termination of joint occupation, etc.; and in the course of it, be availed himself of the occasion to exposes the sentiment of Mr. Allen respecting the necessity of preparing the hearts of the people for war. He desired, he said, that his own country should be aware of her true position, and prepared to meet her responsibility; "prepared in head, in HAND, in HEART." "Yes, sir," said he, "nowithstanding the severe commen laries which a casual expression of the honora' le Senator from Ohio has, encountered from a portion of the public press, I will repeat the expression, PRE-PARED IN THE HEART."

If Mr. Cass. from his high place in the Senate, PARED IN THE HEART."

If Mr. Cass, from his high place in the Senate, ould promulee such sentiments, what may we not expect, should the country be so unfortunate at to see him promoted to the high office of Pre aident? Will he not use every means possible to drams: but which may God in his mercy defeat?"
Our own warning and protestations against the combination of speculators and politicians to bring Texas into the Union, and against the rapacious purposes of the authors of the late war with Mexico, proved unavailing. Onward they marched to the completion of their designs, trampling down all barriers of the Constitution which stood in their carry out his shocking sentiments? to degrade the nation to the level of an association of robbers and cut-throats! Such would be the result could his views be carried out.

What a delightful contrast is presented by the way. May this warning not be disregarded by either Congress or the People, but means be taken effectually to put a stop to this projected violation veteran Taylor. His humanity and love of peace are as well known as his great abilities as a sol dier and Commander. In his Allison Letter, he says—"War, at all times, and under all circumstan-

ccs, is a national calamity, to be avoided, if compat-ible with national honor." He would prepare the honor!
What! after a ruthless invasion, a bloody conquest, a prescription of the terms upon which we would renew relations of Peace with Mexico, will this Nation, before yet three moons have filled their horns since Peace has been sworn between us, connive at expeditions from the United States to invade the remaining territories of Mexico, with arms of the United States in their hands? Forbid

is Justice! Forbid it Honor! A New Project.—The Washington corresp dent of the North American mentions a new pro-ject, in regard to the new territories, as follows:

THE FACTORY QUESTION.

STATEMENT OF THE MANUFACTURERS The undersigned, proprietors of the various con I observe in the Morning Post, of the 27th of n mills, situate in the city of Allegheny, having July, an article full of hard names against t in view a desent respect for public opinion, and to shield ourselves from the obliquy and reproach Whigs, and some of the mildest of which are 'vilpdeayored to be cast upon our characters, by va called the ten hour law, have judged that the time

sary that it should be submitted to the Legislatures of the different States for their approval.

As regards the recent movements of the antago onto facts, might be proper and useful in directing the public mind to just and equitable consistions.

The profits of manufacturing yarn and coarse cotton goods, has been greatly overrated in the U. States for a long time. It has had its seasons of prosperity, with alternate periods of depression and adversity—while public estimates appear all to have been predicated upon the bright and sunny side of the picture. That the general and aggregate result has not been at all adequate to justify the traik and trouble incident to its parsuit, is the experience of nearly all who have been long engaged in the business,—at the present time it is a boring under considerable adversity of which the suspended establishments in the North, and the reduction of wages in that favored region, are unmatrially and the considerable evidences. Nor is the future free from strong and gloomy apprehensions—these arise principally from the immense importations under low dutes—the searcity of money—and the vest increase of machinery and its productions in the Luited Stater, which has reduced the domestic and the considerable adversity, only the consequence of his reverses, to Celaya, about the first list and principally from the immense importations under low dutes—the searcity of money—and the vest increase of machinery and its productions in the Luited Stater, which has reduced the domestic and the consequence of his reverses, to Celaya, about the first list and the united states and the prediction of money—and the vest increase of machinery and its productions in the Luited Stater, which has reduced the domestic and the consequence of his reverses, to Celaya, about the first list and the consequence of his reverses, to Celaya, about the first list and the author of his troops had deserted. Bustamente the confesser, in a despatch dated the 5th list, at the Luited Stater, which has reduced the do

Pittsburgh, August 2, 1848. Map of Pennsylvania.

Mr. R. L. Barnes, of Philadelphia, has lately re published, under the authority of an Act of the Legislature, a State Map of Pennsylvania, from the plates belonging to the Commonwealth, with all the modern improvements. This map was originally published by the State, and constructed from the country surveys, suthorized by the State, and from other original documents; and is now pub-lished, as stated above, under a resolution of the Legislature, revised and improved under the su-pervision of Wm. E. Morris, Civil Engineer, upon data procured in each county, and has been ap data procured in each county, and man ocen up-proved by the County Board of Philadelphia, as pro-vided for in the Act authorizing the publication.— Provision is made for its introduction into the Com-mon Schools, and it is recommended by all the au-thorities of the State. Its size is 61 by 41 feet, handsomely colored, and mounted of rollers. It is indeed a splendid map, and is invaluable to every cution who wishes to inform himself correctly in relation to the Chorography of our Ancient Commonwealth. Every township is distinctly marked you tand colored, and it is worth the price of it to a citizen to become acquainted with his own country, in so cut uplas ours is. Mr. J. B. Hayes, the general Agent of the publishers, is now in town, for the purpose of receiving subscriptions, and appointing local agents. He brings testimonials of undoubted respectability, and we take pleasure in recommending him to the favorable notice of our citizens—

We should be pleased if he could succeed in legal endement their stores and offices with country, the 19th day of August, and offices with considering the city.

The Drad Sza Experition.—From letters which have been shown to the editor of the Boston Transcript, it appears that the Dead Sea Exploring party have successfully and satisfactorily completed their task, and returned to Jerusalem, where they were on the 19th of May. They have sounded the sea in all it parts, to the depth of 600 Quthoms, and offices and breast long threat wages given. Sold was successfully and satisfactorily completed their task, and returned to Jerusalem, where they were on the 19th of May. They have sounded the sea in all it parts, to the depth of 600 Quthoms, and found the bottom crystalized salt. The pestilential defects attributed to the waters turn out to be fabrillous. Ducks were seen skimming over the surface, and partinges abounded along the shore. The part is received to the depth of 600 Quthoms, and provided and partinges abounded along the shore. The part is provided and provided along the shore. The part is provided and provided and provided along the shore. The part is provided and provided along the shore. The part is provided and provided along the shore. The part is provided and provided along the shore. The part is provided along the shore. The part is provided and provided along the shore. The part is provided alo relation to the Chorography of our Ancient Com-monwealth. Every township is distinctly marked

dent of the North American menuous a dent of the North American menuous and the North men of the Jordan," as they call them, the greatest heroes of the day. Lieutenants Lyuch and Dale will visit, under the most favorable circumstances.
