Patronage and the Veto Power.

When our Federal Constitution was submitted to the spreral States for their adoption, it will be remembered that Patrick Henry took a bold and decided stand against it. His main objection wa to the powers conferred on the President. Thes powers, he argued, might, when exercised by good and wise man, tend to the prosperity of the country, but in the hands of a wicked and ambi person, they might be employed to subver

he liberties of the people. The clause which provides for an impeachme the pronounced a "mere sham and mockery."-Clothed with the power of patronage and the Vet Cothed with the power of patronage and the Veta the President would, in his estimation, be placed beyond the reach of Congress or the People.
