ould be his duty to yeto the river and harbor bill, should it again be passed, although, while Senator, he voted for it repeatedly. Such are the pledges of General Cass. They are plain and

pointed. General Taylor is their candidate. He has given at as his decided opinion, that the veto power, as it has been of late used, is a dangerous powerthat it controls legislation, and threatens our cos mon liberties. In accordance with this opinion, h solemnly pledged himself to the following points: that, if elected President, he will NEVER veto any measure called for by the people-he will never so use it as to influence legislation. If the people call for a National Bank, he will no bill establishing one-if they call for a Tariff, they shall have it-if they ask for the improvement of their rivers and harbors, they shall be improved. If they demand that Slavery shall never enter our ries, that demand will be the law of the land -no veto shall stand in the way of freedom. In ral Taylor has pledged himself before the world, that so far as he is concerned, the people of the United States shall be free in deed as well : in name. That they shall govern themselves, and not be governed by their agents. This, then, is the contending parties. General Cass pledges himse to carry out the schemes of the present administration-General Taylor pledges himself to let the people do what they please. The Government i . They may make such laws as they see fit and he will have those laws executed. Here then, we take our atand. We advocate the elec-tion of General Taylor on the simple ground, that by electing him to the Presidency we shall restor the Government to the hands of the people. The Texan Star states that a million Mu

have been discovered on the environs of Durang Mexico. They are in a sitting posture, and have the same wrappings, bands and ornaments, as th Egyptians. Among them was found a smin ad, with a polguard of flint, chaplets, necklaces, &c., of alternated colored beads, fragments of bone polished like ivory, fine worked elastic tissues, (probably our modern india rubber cloth,) mocca ins worked like those of our Indians to-day, bone of vipers, &c. It remains to conti nue these inter enting researches, and America will become another Egypt to antiquarians, and her ruins will go back to the oldest period of the world, showing, doubtless, that the ancestors of the Montexur lived on the Nile.

The following appears in one of the Washing etters of Wednesday's New York Herald:

"The Albany Committee addressed Botts, of Vir-ginia, asking if Clay had pledged himself to Taylor. Mr. Botts replied that he had not; but to day he adds a posteripit to he letter, in which he stated that as soon as Mr. Clay receives Gen. Taylor, answer to the Whit nomination, he will publish a card, denying his acquiescence in Taylor and institut, and suggesting a separate Whit itchet." We no subschedule the Mr. Mr. and the stated ac We are authorized by Mr Botts to state, as a of justice to himself and Mr. Clay, that he

has never made such a statement of what Mr. Clay will do, and that he has no information from Mr. Clay to the effect of the statement-Nation

the Philadelphia Inquirer: LANCAFTER, Aug. 5, 1513. The mass county meeting to-day, was one of the ingress of the kind ever held in this county. There-muts have been five or six thousand persons pre-ent. The meeting was organized at 11 o'clock, A. M. in the Court House, by the appointment of THOMAS E. FAANKLY, Eaq. as President and a ve-ry large number of Vice Presidents and Secreta-ries. After the object of assembling was stated in an eloquent manner, by the President, a short, but eloquent address was made by Thomas E. Coch-ran, Esq. of York: An adjoarament then took place. At 8 o'clock, a procession was formed, which proceeded to an orchard belonging to Col. Meyer —where an able and spirited address was made by Gov. Johnston; who was followed by the Mon. Jas. Pollock, in a speech of thilling elosing, and drew forth great applause. He made himself quite a fa-vortie with the Whigs of the Old Guard, while all seemed pleased with Gov. Johnston ' Mr. Ste-vens also made a neat and approprinte address.-d At the close of the 'meeting the very carth trem-bied with the shouts and hurzans of the multillind-bir Taylo, Filmore, Middleswarth and Johnston. The Old Guard will do her part towards easing the doom of the Casnites in this Stuto at the ap-proaching election.
