Mr. Van Buren and the Tariff. The "Morning Chronicle," Mr. Van Buren's or, gan in this section, makes a lame effort to defend his position on the Tariff question. The editor admis that the people of Pennsylvania are almost unanimously in favor of Protection, and he sees

the necessity of some defence to make his candi-date acceptible. It is a vain effort, however. Mr. Van Buren his boldly declared himself in favor of a system of "Direct Taxation," instead of a system of import duties, and has thrown the weight of hi influence against Penusylvania's cherished policy. This it is folly to deny. Yielding to the necessities of the case, he is willing to submit to a Tariff of duties to carry on the government and pay its deb but such a Tariff may be made to discriminat

against American Industry, instead of its favor. Mr. Van Buren inselways opposed Protection, and has not abated one iota of his former -hostility.

Mr. Van Buren and Polk. In 1844, Mr. Van Buren gave his influence and vote for James K. Polk, in full view of the Texas swindle, and all its disastrous consequences which have been war, public debt, a thirst fo conquest, extension of slavery, and extension of territory. He now claims to be a Free Soil man, par errollence, and Whigs who have always been onsistent in opposition to the extension of slavery are asked to vote for him! Some of Mr. Ven Bu

ren's zealous supporters, have pretended to disbe-lieve that he did support Polk. To set the matter at rest, we take the following extract from his leter to Ganesworth Melville, and others, asking him o preside at a Polk meeting in New York. It is dated at Lindenwald, June 3, 1914.

"Let no one for a moment suppose that, in thus yielding to the proprieties of my position, (decii-ning to preside at a public meeting) I an in the alightest degree influenced by lakewarmness, much less hostility to the success of the nominations to which it is the purpose of those you represent to respond. Far, very far, is that from being the true state of my feelings. I have known both Messra Polk and Dallas loug and intumately. • • •

any other in the United States, yet when the British can send us ruls at \$49 p ton, on account of the small duty and the cheapness of labor in that course try, our iron men must knock under—' and alt this for Fillmore, and not for Taylor.) The Journal says; (in the language of a locofoco paper) sr-caused by democratic rule?"

The ruinous effects of the tariff of '46 are daily developing themselves in the stopping of manufac-tories, in the immense importations of foreign goods, in the expertation of specie, in the low price of produce, and in the impoverished condition of the who have been thrown out of employment. Thes ious effects will continue to increase until the Whigs come into power Every other party i opposed to fostering American industry by a judi-cious Revenue Tariff, so discriminating as to encourage American manufactures.

Cass, by The Washington correspondent of the N. Y Commercial says that "the people of the District, within the limits of the intended State of Sierra Madre, have not the slightest desire for a separa tion from Mexico. They regard any movemen looking to ultimate union with this country with dread and abhorrence. All classes of the popula organization on this side of the line, they have the fillest, and I may add well founded, confidence in their capacity to repel and to punish any des-subor in varies who may venture scross." from the light ultory invaders who may venture across."

also, of this indignation movement :

"Democrats are not so silly. If they can get you from the opposite party for one of their candidates and not for all, they gladly take what is offered knowing that every vote thus obtained, is so much deducted from the opposite candidate." -----

Dr. Bailey, the Editor of the National Era, the or. name, une cance or une reasonal tra, the agent at Washington, the Lev. Win o leading atti-slavery paper of the Union, truly and wroa a "The interest and honor of the country, and even freedom itself, would be safer in the hands of Tay-i log the Slaveholder, than Cass the Servie." Duquestionably it would. Wherefore then waste

your energy and ability in seeking to elect General ass, by supporting Van Buren! It was these worthern madcaps, however, who elected James Polk, who annexed Texas, which brought on " Jornigro war, which gave us California and New Mexico, which the Abolitionists are now practically endeavoring to convert into slave territory, by the election of Lowis Casa
