the Hibertais, about that the anticipations of a faiture of the potato crop will be fully realized, and that an immense amount of bread stuffs will be required from this country. This news commercial, by, and to our farmers, is of the very highest importance, as it will have the effect of equalizing exchanges, reliaving the anticipated pressure upon the money market, owing to excessive importations, and of creating a brisk demand and fair prices for the great staple productions of the grain growing States.

While we may therefore congratulate ourselves upon these improved prospects, we should not forget that our fellow men in Great Britain and irreduced in the sale of the sale was a captured by an experiment of the sale was compressed to the sale was produced in the sale was compressed to the sale was produced to spare, it is our duty, of our abundance, to supply those who lack. We hope, therefore, there will be no speculative efforts to raise the price of grain beyond a living standard, that our farmers will not hold back for extravagant rates, but that these will be a disposition manifested, on all hands, to embrace the market opened up, with prompteness, and arresumable rates. Neither do we think there is any thing in the state- of the case, to insidir a high price. All that can be expected, is a brisk domain, at 'fair rates, and this is all any one ought to desire.
