TO THE PUBLIC.
undersingued, being heretofore supplemocratic Perty, and now refusing nominees of the Baltimore Convent

hereby venture to give a few of our reasons for so doing.

We are the consistent supporters of the Protective policy, and have battled for that policy before the Tariff of '42 was passed—which tariff we have looked upon as the best that has ever been adopted by the American Government. We found both political parties taking an active course in the consummation of that object. We found the Democratic Legislature of Pennsylvania, at two successive sessions, instructing our members of Congress and in the United States Senate to go against any alteration in' said Tariff, and in favor of the Protective policy; and in '14, we found nearly all the Democratic papers of the North—at least of Pennsylvania—supporting the Tariff of '42. We had it on all our banners, and we had the assurance of those who ought to know the sentiments, of our conclinded it was the doctrine of the party, and Mr. Polk's Inaugural Address, showed to us, as we thought, that the Protective policy would not be disturbed. But the course of the Administration in a short time proved to us that a different course was about to be taxen. Mr. Polk, in his Messages, thereafter, showed his hostility to all Protection, and told us that the industry of this country did not need protection—and what protection there was the his Res Taxed Testiff of Mr. waynot intended thereafter, showed his hostility to all Protection, and told us that the industry of this country did not need protection—and what protection there was in his Free Trade Tariff of 46, was not intended for that purpose; therefore the South would be content. Then we bound the Democratic papers of Pennsylvania changing their course on the Tariff question, and dropping over to the Free Trade Tariff of 46—In fine, going the full length for the Free Trade policy. And to cap the climax, the Baltimore Conventuon, where the principles of the party should be known, and where they were known, passed resolutions in favor of Free Trade, and General Casa, as the candidate of the party, endorses these resolutions, and tells us, if elected, he will carry them out to the best of his abilities.—Now, to turn in and support any man for President, when both himself and the party thât nominated him, are piedged to oppose what we consider to be our interest, as well as the interest of others, would, be contrary to our convictions of duty as good citizens; neither do we consider we act inconsistent by supporting the same measures in 48 that we were all for in 44. However, we will leave that to the public to judge, as we see numbers around us who stand in the same situation, we have no doubt of the result of their decision—if the doctrine of Fres Trade, in its broadest principles, as now promulgated by the Democratic party, should succeed, and Mr. Cass be elected, it then yearould a considered by the Democratic party, should succeed, and Mr. Cass be elected, it then yearould a considered by the Democratic party, should succeed, and Mr. Cass be elected, it then year of the considered and Mr. Cass be elected, it then year of doubt of the center of the strades of the party has the case of the protection of the center of the center of the center of the party has the protection of the protection of

We look upon it

we therefore intend to give our support to the ominees of that Convention. We view the matter ow as a party question, supported no where or y no party, but by the Whis party only.

CHRISTIAN MYERS.

FERT SOIL AT WASHINGTON.—Two Free Soil meetings have been held at Washington, of which & B. B. Sheckles was elected president, and g. Parker secretary. A constitution for the "Free Soil Democratic Association" was adopted; one of the objects of which was stated to be "to accure a more perfect union of the friends of free soil in Shaington and its vicinity, and to elect officers of the national government who are the houses friends of free principles, and the firm opponents of the extension of slavery in the terratory now free, and to promote the principles of the Buffalo platform." A committee was appointed at the soil on meeting to report an address at the next meeting. P. Blair, who has just returned from a visit to Mr. Van Baren at Kinderhook.

A "practical printer" is wanted to take charge of the "Grain Register." A fine chance to make a good living by a Whig printer.

The second secon

the Mount Savare Works, being anxious to learn the extent of damage and to present be repairs, started slove in a smill car to descend the road.

Upon-getting under way, he found that the brake was out of order, and that he could not control the car, which was soon going at he rate of sixty miles an hour. There was but filled time for thought—not more than four or five minutes. To jump off was certain death. In this fearful emergency, Mr. Graham, with admirable composure, stretched himself at full length on the bottom of the car, and there calmy awaited the risue.

The tale is soon told. The car came rushing along on the wings of the wind until it met the other cars fastened to the track. A collision took place, Mr. Graham is small care. A collision took place, was thrown some ten feet from the track, and, with the exception of a few brusses, was laten op un-

some of these acts, say his friends. But has he repented of all—and is it was to take a man of such a stamp to do the work of freedom!

Narrow Escare—It is seldom we hear of a Correspondence of the Pittsburgh Garetic.

Correspondence of the Pittsburgh Garetic.

Correspondence of the Pittsburgh Garetic.

We have heard frequent accounts from Clarical Resources and processing the processing the processing searce in that strong Folk county. The deception of the Market Processing the power of Locofcount are penaltyrian. In politics as a revery thing cise, "honesty is the best policy." A "Clarical Clarical Resources of the Processing Politics and revery thing cise, "honesty is the best policy." A "Clarical Clarical Resources of the Processing Resources of the Resources of the Processing Resources of the Resources of the Processing Resources of the Processing Resources of the Processing Resources of the Processing Re

or four days between that and Pittsburgh, feeding their passengers at great expense, and then per-hups as has been the case in many instances, have to put them ashore to seek their way to this place as best they can. Now the building of the road on the Southern route, would in effect semans the characteristics.

WHIG MEETING.

The object of the meeting baving been stated to

nisting of two persons in each Sub School District, se appointed,

Mescreed, I had the Committees showe names, or requested to hold meetings in their various Dis-tricts, and make all necessary arrangements.— Therefore, Resolved, That a mass meeting of the friends of Taylor, Fillmore and Johnston, be held at the house of James McK. Soodjersa, on Thursday, the 28th September, at one o'clock, P. M., to which we in

J. McK. SNODGRASS, Sec'y.

The discovery of a gold mine in Californis ha

puplished in the N. York Journal of Commerce says—

It has been discovered that the sands which border the American Fork and Feather River, branches of the Sacramento, are full of particles of gold, resembling in shape squirrel shot, flattened out—
It is got by washing in any vessel, from a tes sauser to a warming pan. A single person will gather by this process from one to two ounces a day—and some have gone as high as a hundred dollars worth. Two thousand whites and as many indians are now engaged in washing the sand.—All labor of every kind has stopped except a little farming. Mechanica, doctors, lawyers merchants, sailors and soldiers, have all gone in mass to the gold region.

The following song, composed by Samuel W Pearson, Eq., of Somerset, was sung at the Whig

Now the building of the road on the Southern route, would in effect remove the obstructions to transportation between this place, and — ellaville which is the lowest part of the river, and at the same time would conduce largely to the revenue from the road to the company. Much more might est aid to prove the utility of adopting the Southern route, but enough has been said to call the attention of the Directors, to this (as I think) important term, in determining the route the road shall take

speeches from the several parties, the defendants were discharged on their own recognizance. A good deal of tact, with a sur portion of 'riginatole,' was displayed on both sider, but our friend Johns seemed to have imparted his good homor to all the party, and the whole appeared to be looked on as decidedly a rich piece of fun—even by the parties litigant themselves.

Pittautraoi Making Rallway.—This work is now completed. The entire success of the undertaking is no longer a matter of doubt.

This day was set apart by the managers, as one on which a trial would be made as to the working of the machinery. Scarcely had on effort been made to set all in motion, when the stomer Financier, (on her return from Cincinnail.) hove in sight.

Nhe being in a somewhat damaged condition, Capt. Kountz bailed those at work on the Ways, and requested them to 'hanlout' his loost. He received the reply that ne case the machinery would work at all, they would "try" Captain h, contined on his course to the city wharf—landed his passengers, dropped down to the Ways, and rowers the financier sat high and dry, some 90 feet from the waters added. The accomplishment of the machinery are some land of the proper salor cases for their process.

gers, dropped down to the Ways, and in forty many the financer sat high and dry, some 90 feet from the water's edge. The accomplishment of this undertaking, required but little effort, the chains being scarcely straighted at any one time. We are truly gratified at the success which has crowned the efforts of those who have so energetically preserved in this undertaking. What will the many doubters how say! One time thing we should not fail to state in connection with this subject, viz The boats are drawn out broadside, and not endwise, as is customary on all Eastern Ways.

The first many doubters how say! The boats are drawn out broadside, and not endwise, as is customary on all Eastern Ways.
