All this time his pay was going on as Governor, Superintendant of Indian affairs in Michigan, and Superintendant of Indian affairs out of Michigan and all this time Wm. Woodbridge was doing Lewis Casa's duties at Detroit, and was paid for doing them out of the Treasury of the United States several years alterwards, and while Lewis Casa was Serstary of War.

We have here tofore so estimated it ourselves; but since the election of Monday, we incline to the opinion that Taylor and Fillmore electors will be chosen. A plurality elects. Some who voted the Dana ticket on Monday, will vote for Van Buren in November, and others will vote for Taylor. Maine must at least be put now among the doubtful States Van Buren will get several thousand more than Hamlin, while the voteffor Cass will fall short of that for Dana. The state of the case the past year me source is meanteneness as increased from \$30,000 to \$60,000. The state of the case having been made known, the subscriptions and pledges on, the spot amounted to nearly \$2000. The Slave question was brought before the Board, and an argument was heard on the Scripture as thority for Slavery, which was participated in by several eminent gentlemen, President Blanchard, of Knox College, ill, being the principal champion of the abolition view of the question. Here the matter rests for this year. The reports of the Committee on the several missionary stallons represented the most during the past year. The Board lament the loss of one of the oldest secretaries, Rev David Gress, on account of the failure of his health. Dr. S. Le Pomercy, of Bangor, Me. was elected to fill his place. The other officers are the same as last year.

In 1421, he received from Mr. Calboun corn mutation money at the rate of the whole gubernatorial term up to that time, being, as Mr. MClelland says in his speech, "for this whole gubernatorial term up to that time, for supporting Indians." REPORT.

The Committee to whom was referred the application of the delegation from Steubenville, in relation to the examination of a rout of a rail road from the mouth of Chartier's Creek to the mouth of Hai mon's Creek, have devoted as much attention to that subject as their limited time and other engagement would permit. Without intending any disparagement to the general route now under examination by the way of Beaver to Wooster and Mansfirld, the committee have concluded to express their opinion, that such an examination is on various accounts, highly desirable. The country along Chartier's Creek is well known to be richly and abundantly supplied with coal of the very best quality, and it can scarcely be necessary to dilate upon the importance of that fact to this city. We have, it is true, an almost inexhaustible deposit of coal up the Monorgabels and Youghongary rivers, and by means of our slack water tim. provements, we have strong assurance of as abundant and cheap supply at all times, unless some undirescen occurrence or casualty should destroy those improvements or render them unavailable. In November, 1796, our rivers were closed with ice, and continued so closed until the end of February or beginning of March following, being more than three months. Now, only suppose the same thing to occur the ensuing winter, what would be the condition of our inhabitants, or of those manufactories which are dependent on the river for thair supply of coal. The example of Cincipacts' devices.

But our slack water improvements are liable to But our slack water improvements are liable to interruption not by severe froats alone, but are anticet to the hazards of floods, and it is impossible to foresee the effects which such a flood as that of 1322 may have upon our locks and dema.

Should such a flood occur again—and surely we may expect it—and sweep away Dam No. 1, what then would be the situation of our city and then manufactories which depend upon the river for their supply of fired! There is nothing pleasant is the nitional properties of the succeptance o

WAY.—A fire broke out mone of the engine houses
on the Summit, on the night of the 20th, or more
ing of the 21st, which consumed both the engine
houses, together with the sheds, and all their combousible contents. Ten cars were burred in the
sheds, five of which belonged to Bingham's line, were filled
with coffee, dry goods, &c. The other five were
empty. Amount of loss not estimated—but pretty
heavy. The expectation on Saturday was, that not
more than a weel's interesting the state of t heavy. The expectation on Saturday was, that not more than a week's interruption would result.

A VOLUNTEER ROBBED.—Thomas Kelly, a returned volunteer, in the Mexican war, was rabbed of sixty dollars, at the boarding house of Michael Poley, on Water street, on Friday night last. He went to Bed, leaving the money in his pantaloons pocket. In the morning, it was gone. A man who slept in the same room, was suspected of the theft, brought to the Mayor's office, and searched. out none of the money found on him. He appear ed to be a plain, honest man. The Mayor discharged him.

A PRISERT.—A nice little baby, apparently about wo weeks old, was found in the entry of a boarding house in Colonade Row, Federal Street, Al legheny, on Friday night. The little girl was nice y rolled up in a shawl, with plenty of new clothing about it. The people of the house took care of he stranger.

Re-Arreyten.—Thomas Twitchell, who was arrested along with Norton, for passing counterfeit money, got out on \$1000 bail for his appearance at Court, and forgot to appear, has been again arrested at Buffalo, and will soon return to his quarters on the bill. Norton remains in jail, awaiting the decision of the Court in his case.

THE WHISKEY INSURRECTION.—Some days since a couple of barrels of whiskey labelled "vinegar,"
were discovered by some ardent temperance men, in or near McKeesport. They gathered to gether, and forgetting their discretion, as it would seem, knocked in the heads of the barrels. The owner of the whiskey brought suit against them, and several of them were brought down to the city on Saturday, by officer Fox, and held to ball for the effence.

FINDING TREASURE—It was reported on Satur day, that a pocket book containing \$1,200 in old U. S. Bank Notes, had been found concealed in an old building on Liberty street, which was being torn down.

Almost a row occurred in the Diamond Market Saturday, originating in a quarrel between a ouple of market men. Some butchers and other lovers of excitement, took part. No blows were struck, but there was a deal of hard threatening.
