No famile who has reason to suppose she is appreaching that critical period, "The Exra of Hft," should asplect is take it, as it is a certain preventive for any of the numerous and horrible diseases to which familes are subject at this time of tife. This period may be deleged for several years by using this medicine. Here it is less ratuable for those who are approaching womahood, as it is calculated to assist sature, by quick-ching the blood and invigorating the system.
