INGS.—Seronts in sall the multiplied forms whether in that of King's Evil, enlargements of the glands of bones, Golfre, White Swellings, Caronia the minimum through the same cause, of the Skin of Spine, or of Pulmounty Communition, emanate from one and the same cause, which is a poisonous principle more or less inherent in the human system. Therefore, unless this principle can be destroyed, as radical cure can be effected; but if the principle, you which the disease depends, is removed, as cardinated the case of the same cause, which is a position of the disease should manifest theil. This, therefore is the reason why JAYRE'S ALTERATIVE is so universily successful in removing so many imignant diseases. It destroys the virus or principle from which those diseases have their origin, by entering into the circulation, and with the blood is conveyed to the manutest their, removing overy particle of disease from the system. power to cure!

Permurately, 785.14, 1935.

It is a distant companied with samination of the cure of which she used different cough remedies, and had the solvice of the most eminent physicians in England, burull was unavailing. By chance I heard of your imperial Cough Syrup, and was instituced so bay a bottle for trial, sithoegir I had no belief that anything could 'remove her' complaint. To my great surprise, two doses gave her immediate relief. She is attiffer involved with a cough, but two teaspoonshift of Syrup aiways stops it. I am satisfied, after a trial of three or tour years, that Seller's Cough Syrup is the best sength medicine I have ever tried either in the Old or New World.
