From the Buffalo Co A.Man Over the Falls! by our correspondent. There is something terribity appelling, almost sublime, in the struggles for life of a stroug, self possessed man, when drawn into the torrent that, with the speed of a race horreseweeps him anward to cortain destruction. A moment accarcely elapses between entire safety and a most fearful death, yet in that moment what a wealth of life may be compressed. How like li hrings must flash through the mind, all the pleasant recollections of childhood, the firm resolves of vigerous manhood, the bopes of the future, the endearments of home and friends, repentance for past errors, and prayer for forgivaess in that dread presence to which he is so awfully summoned.

Namara Falla. Oct. 2d, 1848.**

**At about sun down last evening a man was carried over the Falls. Who he was is not known from his management of the sail boat in which he came down the river, I thick he was not well acquainted with the current or the rapids. His dress, and appearance indicated respectability, and after he got into the rapids his self possession was most extraordinary. His boat was a very good one—dealed over on the bow, and I should think would carry three or four tons. From what I learn of a sail boat having heep seen below Black Rock, coming down, I think it is from three or Buffalo. No other than a person unacquainted with the current above the rapids would veature so near them.

I was on the head of Goat Island when I first
