The Mad River and Little Miami Railroad Company, have recently concluded a contract with Keck & Davenport, for freight and passenger cure to the amount of \$10,000. This looks as though some things can be done as well as others.—{Cl. c. Margorn Pour—Mr. P. Bennet will to day, a. 3 o'clock, P. M., put in operation, on board the steamer Comberland Valley, lying at the foot of Forida street, opposite Wash's flour mill, his new ly invented patent pump, constructed on scienti-tio principles, without valve or piston, and calcu-lated for freeing susken boats from water. This pump throws up the assonishing quantity of one thousand barrels of water per minute.—[St. Louis Reveille.

LIVERPOOL IRION MARKET.

Liverpool, 9th September, 1848.

Since the 5th inst, the Iron market has presented very linde calling for remark. The demand for all descriptions of Manufactured has continued active, and prices have been maintained with great firmness, whilst upon some kinds of Staffordshire Iron rather higher rates are obtained. A partial reduction in wages only having advanced since quarter day, the prices of Iron fixed then are very unremunerating to the maker, and either a reduction in wages, Pig Iron and Coal, must take place, or us advance be made un Manufactured Iron. S ch being the state of affairs, the makers will on take orders to a very limited extent; in some in sances subject to the next quarter day's prices. Welsh Iron is less affected by the causes referred to, and the probability is that the present will continue to be shout the rates during the fall of the year. There is more activity in the Scotch Pig Iron market and an advance of is 660 2a 6d yron is obtained. Very heavy contracts are now being entered into for Cast Iron Fipes (upwards of 20,000 tons for Liverpool alone) which with a very good demand, may lead to a further rise, although we do not look this year for any considerable advance.
