But much as they have contr two hundred and seventy soven thousand four of hundred and sity eight dollars and eighty two the hundred and sity eight dollars and eighty two eenist. The Hand writing on the Wall. If we use not deceived by our advices from Presentrysia, the Presidential context is substan-tially decided. We write in the conviction, based on expressed and telegraphic returns from two-lifting of the Shata, that Witzaar F. Jonsaros has been scheen. Governor, and Nuz Minotzawarm to Canal Commissioner, with a decided majority of the members of Congress and Legislature, carrying, in the general average, the vast patronage of the State and her public improvements. If the bo so, by however small an aggregate majority, we think fow intelligent politicians can doubt the election of the Tsyles and Filmore Electors by quadruple f the present majority. Mr. Van Beren is personal-ity strong amorg the German Democracy of this State, as is the principle on which he stand be-fore the public as candidate, and thousands who have seen no reason to desert the party nominee for Governor in favor of a Whig, will vote for Van Barca in November, write as many if the bottom has fallen out of the whole business as would have a bighty respectable and gopular citizen, proleased to none of the objections urged against Gen. Cans, ex orgy that of being a Cass man. There will be two tas for Van Barca from both sides, but we think two as sumy from Longstret's poll as from Jaha-stors, especially if the former be defacted. For this magnificent and astonding victory, much credit is drove to Gov. Johnston himseti. His ted to the advancement of it, yet it was reserved the boy, and so both stood still, until the man found he must back out. The breast have an influx of foreign goods volved, but be can in a second of time entirely stop the flow of the ourrest. Another casefuld dif-ference between this and all former inventions con-vints in the fact that the floid is not.conveyed by abrupt shocks, but in one continued, genite, smooth carrent. A first it is so genite that it can but just be perceived. It glides genity slong in its destined course, but scon if witched) it increases in power until it would become far too powerful for man to be an experiment of the subject of the statistic of the proved highly satisfactory to the andicate, which was, I am sorry to asy, very shmith. Bit soo bad that a ceintific letturer is not better encour-ing proceuse encough persons to make it appear a conching like a sprinkling; and there are hardly encouch present to give the feature heart to proin influt of the set o vention or mass meeting to be celled from all those counties, to be held in day light, so that the ladies may attend, and to whom a special invitation and the result in the 24th district is not certa Ary point, and many that operations." The lenses (artificatio carry on their operations." The lenses indicted upon home labor, are the same in all de-partments, and in selecting the statistics; to show the extent of this lors, iron and its manufactures will come right home to the great interest of the Keystone State. Let the iron worker's remember, that under the free trade splicy of the Administra-tion the imports of iron, rotour work in New York ending, Oct. 6, were, iron thousand are Amdred bundles. (1001, tors of Rig irons, 2324 - bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron, 600 bundles of hoop, 531 bundles of abcet iron of a silon bundles above and the set iron ware assorted, invited at 18161159 and consign about \$220,000. At this rate, for our week, let it be remembered, that the value per anome of iron im-ports at New York slone will reach at 12,000,000,----nearly all of which might be kept at home under a 1 proper system of asilonal economy. This analyce us result in any sur district in our certainly after tained. If no change takes place, the Whigs wi have gained one member and the Democran two-and the Delegation will stand 14 Whigs, 9 Demo twice as many from Longstreth's poll as from John-ton's, especially if the former be defatted. For this magnifecture and astoidding victory, mach credit is due to Gov. Johnston himself. His able and useful carcer as a legislator, his general hiberality of views and countery toward adversa-tics, his early, ardent and effective devotion to the Free Soil principle, and the talent and energy wherewilk he has conversed the State, have com-bined to render him a formidable childidate, in spile of forectors attacks upon binnself as the Shinplaster, Relief Note, Specie payment. Suprenson, Biddle-Bank, turncoat candidate. He has been tried as by firs, and he has come unscathed from the fur-nace which has devoured his defaming adversa-rics. same which has devoured his defauing adversa-by firm. Matters and handy workers of the State of the artificers and handy workers and be area space on ant Priday evenue. Staturday, Cel. 14th, 15ts. Dawn place should be given. FACTS ABOUT THE CHOLERA -It has been from

Haron Roorz, (La.) SET. 23, 1345. SIR-I have had the honor to recourse your com-munication of July 3, and with it the gold medal voted by a joint resolution of Congress, as a testi-monial of my services in the reduction of Monta-rey. I beg leave to express my deep sense of the distinguished honor which the Houses of Congress have seen fit to confer upon ma by the presentation of this medal, an honor which is enhanced by its reception as the hands of the Chief Magistrate of the Republic. I have the honor to be, with high respect, your ty remarked (says the New York Express) that during the cholers in New York, in 1632, that there was no electricity in the atmosphere; but a correpondent of the Journal of Com ca mys his to the Republic. I have the honor to be, with high respect, you Z. TAYLOR, ords show the contrary of this, and that ten thus nost obedient servant, Major General U. S. Army Hon. JAMES K. POLK, President of the United States, Washington der storms were active here during that period. A writer in Chambers' Edinburgh Journal malatains that electrical changes are the true cause of such interest of the second second

President of the United States, we taking our Correspondence of the Commercial Advertiser. **FIRE AT PATTERBOR.** Guandar Orricz.] Patterson, N. J. Oct. 11, 1845. 5 We had another extensive fire here last night It broke out shout midnight, nearly in the rest of the Phaneir Buildings, in Main street, which be-ing of brick resisted the fames and remained com-neartirely uninjured. fore, is the partification of the atmosphere, and the chief object to effect this is Chlorine Gas, which is an ingredient in common salt. Whole street and towns can be famigated with cholorine gas as

and towns can be famigated with cholorine gas as it easily as single dwellings. "In 1832, the town of Dumfarine, in Scotland, was affected with cholers from the 3d of September noti the 23d of October. At that date, every street, fame and alley was famiguted with chlorine gas Within five days the positience was entirely anni-bilited. In Edinburgh the gas was used, but rather bilited. In Edinburgh the gas was used, but rather iste, and in several other towns with files effect. It was amountaiged beyond a shadow' of doubt, in the affected districts in which chlorine gas was used as a disinfering ugest in the cholers of 1652, enjoyed an absolute finnmung from the disease, and it has fact is begreat preservative against that fight it has fact is the great preservative against that fight it has fact is the great preservative against that fight it has fact is the great preservative against that fight it has fact is the great preservative against that fight it is origin to electrical changes in the atmosphere. Rev. George W. Lane, professor of ancient langua ges in Emory College, pays the following just tr

Labor. The tornation that services in the regions underlaid with Coal and Iron. Schrytkill, the fo-cuss of Anthracite, is the focus, also, of the revolu-tion. While the sanguine calculations based on Arkansas and Lowa, Missouri, and aren Georgia, Buena Vista, and Old Whitey', have proved de-loaire, the calm intelligence and keens espacity of the colliers of Postsville, the iron workers of Lo-the colliers of Postsville, the iron workers of Lo-the colliers of Postsville, the iron workers of Lo-rerne, the weavers of Manayunk and Norristows, have settled the great question. The States, in gain which Gen. Taylor was nominated, have not yet avunced any zery grateful sense of the conde-sonnio; while Pennsylvania and Obio@the former hardly consulted, and the latter daringly defied, in making a candidate, have done the business. We gain no U. S. Beautor where we fashed so ventur-ocaly for them; we gain two here, because the People's principles and interests impel them to act with the Wing party. There are in these results Kev. George W. Lane, processor of ancient langual ges in Emory College, pays the following just tri-bute to his memory.— With the promise of a long and useful his before him, in the prime of his prears and in the mids of valcable labors, he is suddenly stricken down. The institution of which he was so efficient an officer-gring it public character by his fine scholar-ship; attaching its undergraduates to him by his unwavering aniability; mansing its fiscal affairs with tact and sagacity—will feel his loss most deeply. The conference of which he has been secretary at heso many successive sesions; on thefloor of which has always been heard with a respect due to superi-or wisdom and worth, will suffer as when a standard bearer falls. The congregations he standard bearer falls in the congregations he standard bearer falls in the conduct a standard bearer falls in the standard when the formati-rity. Simple in his manners, bearty and fast un his friendships, generous in his spirit, evincing equal prodence and shifty in his spirit, evincing equal prodence and standard in his conduct, a man of faith and prayer, and power with God, he erowided into a public life of filteen years results which will be his noblest monument. He died in the faith of Jesus, and in the hops of cereral life through his merits. The tears of his pupils, mingle with those of his fineds. Tears are for us, survivors, but for the, dead who die in the Lord there is paught but iov.</ making a candidate, have only the barber of the barber ously for them, we gain two here, because the People's principles and interests inspiel them to act a with the Whitz party. There are in these results it the Whitz party. There are in these results them to know this people better and respect them more deeply. We shall reen to the subject here-alter, and discuss it with entire freedom. Mean-time, since it a should be restrict that the Whitz Legislature, and highly probable that they have carried the Governor and Canal Commissioner-centain, at the worst, that these can only be defau-do a very meagre majority, which cannot stop he swelling tide of popular sentiment which is now runking on to a change of mean and measures in the National Commission of '4t'. She has marked them now, abe will fully settle with them on the first Tuesday of November.-N.Y. Trrians.

Professor Lane was the son of the Rev. Geo. Professor Lance was the san of the Kev. Geo. Lance, sonior, book agent of the Methodist Episco-pal Church. Deep as must be the father's sorrow in his boreavement, the prefume of a good name and sanctified talents, which the deceased has left behind him, must be a grateful theme for reflection n the hour of grief.

The following is fisttering testimony to the ex-cellence of the Hells cast by our old friend Andrew Fulton. We copy from the Hudson, (Ohio) Obser-

"CHURCH BELLS -- Pittsburgh seems destined to excel every other city in the Union, not only in the number and variety of its manufactures, but also in their quality. In the manufacture of glass, iron, whiteslead, and heavy machinery of every kind, it has excelled for some time. It seems that now, this "fron City" is gaining the caviable dis-

action of successful competition with an Easter city in casting bells. The citizens of the flourshing village of Newton

Falls, having recently purchased one of them, sends us the following communication for the

OFFICE and residence on Four Pittsburgh Bank. Office hours (M., and from 2 o'clock to 5 P. M.

Newton Falls, Sept. 16, 1848.

NEW CHURCHED NEAR PHYNEURAR.—The Ger-man Catholics in Allegheny City have purchased a handsome lot at the conser of Liberty and North streets for a new church. They have siready com-

menced the erection of a temporary building, which will be ready for use in less than two months. They will then immediately take the necessary steps to commence the erection of a large and per-

St. Michael's Church near Binningham will be ready for divine service in a few weeks. A lot has been purchased at the corner of the Canal and Cedar strest, Allegheny City, for a church for the English Catholics. The Rev. J. O'Connor, who hitherto has had the charge of obtaining sub-scriptions, has met with the gradesi encourage-mendal The plans for the church are-being made. When completed, the contract for the building will be entered into--*Pitts. Catholic.*

ing of brick resisted up infines and remain and the paratively uniquered. The frame buildings, which occupy Main street from Gledhill's new buildings to the decrare below, six in number, were totally desiroyed and two others on Broadway. All these buildings were occupied joinly as stores were saved. The part of the town destroyed was the locality for the principal buildings of the place, sithogh the buildings were old and of themelves of inle value. As far as we can asofrain, the par-ties were generally mared. They will suffer towniderable incoverfigues for some time. steps to commence the crection of a large and per-manent church. St. Michael's Church near Birmingham will be

BATON ROUGE, (La.) SEPT. 28, 1848

Steam Bost Accident and Loss of Life New Onizara, Oct. 10. The steamer Fincy Woods, bound to this port, has been burned on Lake Foncharten. 16 fires a total active speed. Among the

with bells. Mesars. EDRIORS.—Being fully satisfied that it will be a benefit to the churches on the Reserve, we will do ourselves the plasture of faviting the sitestion of all who may be interested, to the fun-dary of A. Futnors, Elithough, as producing bells which well deserve precedence over those of equal weight, cast in Troy, N. T. The one we received from Folton's last summer, of only 600, hs. weight, will not suffer in comparison with those weighing several hundred pounds more. MANY CITIZENA Newton Falls, Sept. 16, 1848.

"benefit" of those churches which are not provided
