Others. Rives.—The editor of the "Jefferson Ia-quirer" writes home a description of the progress of the improvements on the Oasgo, which he has recently been examining. The dams are built of brunk, lad write the built and down the stream, up-on which is built a stone wall about four feet thick and two beck high. These dams are built diago-nally scross the fiver, a short distance below the shools, to back the water over those shallows. A dredging machane is used to deepee the channel where it. runs through shices. The contractor syn, that the dam built at Linn Greek Shouls had even done better than was expected—the water has been raised at this point from eight to eighteen and twenty inches. The benefit of the improve-ments to fits hours anvigning the river, has been alteredy apparent, and the contractors and asso-ciation are sanguine of the success of their enter-prise. The sum already expanded on the saveral districts of the river, amount to \$45,826 & 5, of which \$4,506 94 has been expended on the third district between Erie and Warsaw.

NEW MUSICAL INSTRUMENT.

between Erie and Warsaw. Accrowrr-We are surry to learn that the steam best Rambler, Capt Caldwell, laden with Cotton, from the Ouachia, river, capsized on the 3d Inst, on Black river, while lying at a woodytrd. The engo was of course precisited into the strer.-There were no lives sucrificed, but the boat, accord-ing to the officers of the steamboat Eldgety, who brought the intelligence down, was in so critical a ente, that it is supposed she will be a total loss.-[N.
