What Southers Whige Say.

The Chronicle, and other opponents of Gen Taylor, are very industrious in guy what teads or, in other words, breaking down our own hands of the following is what the clection of a Whig Governor, fifteen Whig seals for the market. Let the facts the market of the Northern Whige knowing speak for themselves.

The following are the prices when Europe fur-

teresting nature to the United States, worth the trouble of expense of a correspondent, from this far famed capital; but, during the last few weeks, certain matters have come to light, concerning the relations between the United States and Spain, relations between the United States and Spain, which present points of the deepest importance to both of those countries, and to the world at large; and which, when fully known, will no doubt, create a great sensation throughout England, and the whole of Europe. I have reference to negotiations which have recently been opened on the part of the United States, with the Spanish Ministry here, for the creation of the itland of Cuba to the United

ne United States, with the Spanish Ministry here, for the ceasion of the island of Cuba to the United States, on the payment of a considerable sum of money. I speak of matters, you will observe, which, at present, are only known among the displomatic corps, but which will probably get into the newspapers, and become a general subject of European remarks, in a short time. European remarks, in a short time.

As far as I can ascertain the facts, from the best diplomatic sources, and in every possible way I learn that, in July or Angust last, the United States government sent a despatch, through Mr. Sawyer, Secretary of Legation, addressed to Mr. Saunders, it he American Minister here, containing directions for him to sound the Spanish government, on their disposition to sell or cede the Island of Cuba to the United States, and, if such gould be accomplished, to commence negotisticins as secretly and and as fast as possible, so as to prevent opposition or hostility from the British of other governments. Mr. Sawyer has been hare for some time, and Mr. Saunders, I understand, has been taking some steps in the matter.

I am not able to inform you of what progress, has been made in these negotiations, but I shall endeavor to secretain and inform you by the next British steamer, and give you all the additional information in my power. Mr. Saundera, I believe, made only an informalinqury as to the disposition of the Spanish government in the matter; but is very certain that, several times, one of the Spanish. or the opanish government in the matter, but is very certain that, several times, one of the Spanish Ministers, on the occasion of soirce given by the Queen in this capitol, let out such information on the general subject as called forth from the press here and elsewhere, the immaterial and merely diplomatic contradiction I have referred to, which, in fact, amounted to no contradiction at all.

IMPORTANCE OF ONE VOTE-We stated, a day two since, that for want of a dozen votes in Louisi ans, when more than that number were seeking their way to the city, that the Whigs lost four mem-bers of the Legislature; and that this loss resulted greatest, number, without distinction of property, birth, or race.

Ges. Tatlos's Abilities—At a large Whig meeting in Roxbury, last week, Gen. William if Sommer prended, he said he was personally acquainted with Zachary Taylor many years agonal been on a Board of officers with him for ax weeks at a time, and could bear testimony to his capacity, his sense of justice and his incorruptible integrity. General Sumner alluded to the charges brought against Gen. Taylor by some of his opponents of his literary incapacity inactueth that he was unable to write his own letters—and refuted them in the most satisfactory manner, by exhibiting to the andience the celebrated letter of Rough and Ready to Gen. Gaines which created such consternation in Mr. Folk's cabinet. The letter was Taylor's own handwriting—and, very closely written, covering four pages, containing but few creatures, no ungramatical expressions or errors in orthography. This letter was banded to the audience, and examined with much interest and currousity by many persons present.

The "Strange Case in Surgery." We gave some account, a few weeks ago, of the wonderful case of Mr. Gage, foremanion the Ruisboad in Cavendish, who, in preparing a charge fr plasting a rock, had an iron bar driven through air head, entering through his cheek, and passing out at the top of his head, with a force that carried the bar some rods, after performing its wonderful journey through shall and brains. The pron was in diameter an inch and a quarter, and in length three feet and seven inchet; the upper end of the iron, however, tapering to the diameter of one fourth of an inch. We repeat the diameters of one fourth of an inch. We repeat the dimensions of the rod, as we observe some of the papers that copied the article substituted the word circumference for diameter, thinking, perhaps, the story told in that way would be quite as large as could well be believed. But we refer to this wonderful case again to say that the patient not only survives, but is much improved; the wound in his head is healed, the sentitie in his roof is closing up, and he is likely to be out again, with how visible injury but the loss of an eya—Woodstock, V. Marcury.

by the Democracy here, that it is a poor business land, when all parts of our own country more or less abound in them—and when the men employ. ed in bringing them to a maket, consume thousands of dollars worth of home agricultural products. The The farmer, the miner and the collier, have all

heard from officially but one. The aggregate of the Whig majorities is 448!—of the Locofoco mas orities, 4724-difference, 243. Appling, the count be heard from, gave last year 29 majority to the Locofoco candidate, and is now reported at 18.— This would make the whole Locofoco majority 261. When it is considered that the Locofoco majority last year was 1289, the Whigs have great reason to congratulate themselves on the result, and every reason to believe the State will go for Gen. Tayor in November. We consider that date safe for Taylor by 500 to 1000 majority.

EDITORS IN LUCE. - James Brooks and Horac Greely are going to Congress. We learn from the Express of Saturday, that in the sixth Congression al District, James Monroe having declined the Whig nomination, for the short term, the Convenion was re-assembled at Constitution Hall, and ceeded to a ballot for a candidate to fill the vaproceeded to a batiot for a candidate to his the va-cancy in the present Congress, the coming winter.) Upon the first ballot, Horace Greely received 13 votes, scattering 12, and upon the second ballot 18 (17 being necessary for a choice) whereupon Mr. Greely was declared the nominee unanimously, and the licket now stands, James Brooks for a long term, and Horace Greely for the short term.

He made a very able address—exhibiting the aggressive and insatiable ambition of the slave power to 'rule or ruin' the country, with a clearness and vigor of expression, which we have nover heard excelled. He showed clearly that the opinion of General Cass and others, that Congress has no power over Stavery in the Terristories was flativ contradicted by the opinion and

partiality to either. The Whigs clapped and shour ed, when he 'cut up' Case, and the Democrate abouted in their turn, when he alluded to Taylor, while the Free Soilers had their fin in both cases.
