Our Book Table. Godey's Lady's Book, for December, is a super number, containing 31 engravings, and 24 pages extra matter. We can say without any exaggera-tion, that this is the finest periodical in America, if it is exceeded any where, in its illustrations and embellishments. The January number will commence a new volume, and we would advise all who wish a good literary periodical to subscribe

It has been reded by many of the best teachers in or try, and, we doubt not, is well-adapted for text book. The type is good, and the printing is securate. It has one advantage over Anthon's Series, and that is its size. The notes are suffi conious, and are arranged at the bottom of the pages, instead of the back part of the book. This we regard as of particular importance, for the pupil will hardly fail to look at each note, which would not be the case if they were put in another nart of the book. The work can be obtained at Morse's Depot, 85, Fourth street.

NARROW Escarg-An accident, of near fata termination, occurred yesterday morning at the corner of Fourth and Market streets. Wm. Schentie, a young German, in the employ of Messa emon and Williams, was driving two horses, at-Lached to the furmatine are driving two horses, al-tasched to the furmatine ear of his semployers. Hav-ing taken in a load of furniture from the dwelling of Mr. W. W. Pearns, in the Diamond, to be con-veyed to Scotch Hill-the young man was driving through the Diamond, when a stone was thrown

by some malicious boy, which striking one of the if some manneous boy, which shows forward, when a acres, caused him to plunge forward, when a chair fell off the wagon, struck one of the horses, and the team ran off. The young man was standng on the tongue, and was jolted off, between the had feet of the horses, and the car. Finding he should be kicked to death, unless he could remove from that position, he threw himself down under the vehicle, which passed over his body-injuring him severely, but not very dangerously. The car ruck a post at the corner of Fourth and Marke the furniture was scattered and shrvered on the pavement, and the horses, leaving the body and hind wheels of the car, dashed up 6th street with the tongue and fore wheels, and finally brought a against one of the shade trees in the front of the law offices in 4th, near Smithfield. The wounds of the young German were [dressed by Mr. Thorn.-No bones appeared to be broken, but the bruises were very serious, and the bleeding profuse. The

to establish their innocence of any design to im pose on the public-and probably to show th their statement was not materially erroneous-their statement was not materially erroneous-though as to the place of the occurrences alluded to, and the parties actually concerned, they werr misinformed. We make this mention of the mat ter as an act of justice to Mesars. Hughes an Haguo-whom we believe to have been harsh victimised.

History exhibits to us two classes of agitary men. One class is military, and nothing else, and unfit for any but a military theatre of exertion: and in this are to be found some of the most distinguish-de conquerors-men at whose names the world grow pale. The other and higher class is that of a long and eventiol professional arrice, his civic mon who, in their military condownents. To this inter class belongs Zachary Taylor. We trust, that, if General Taylor is elseided to the Pre-sidency, Gen. Lane will be promptly dismissed from his Governorship. To the Delucit of the Functuring version: Singular as it may seem, the editor of the Dis-patch, it is said, is quite serious in bis endeavors to obtain the Post Office. I see in his paper of yps-terday, that he claims you as one of his supporters, and further states that he does not have his appli-cation on "party services."
