His visit to this country is for the purpose of traveling, and is more a pleasure excurtion than one of business. It is possible, however, that he may examine closely into our public and private finances, our commercial resources, &c., for the purpose of seeing if it would be good policy in the part of the European house to establish a house in this city. This is, no doubt, the actual cause of the visit, although extensibly it may be for travel and recreation. Sooner or later, these shrewd financiers will become deeply involved in the financial and commercial operations of this country, notwithstanding the bitter briguidices they have heretofore entertained against our institutions."

21. About one third of those received have been able to pay towards their support, while in the bospital. The average cost of each patient has beer \$2 65 per week. This amount would of course be reduced, if the number of patients was larger. The cost is materially reduced by the nursing department and general superintendence being entirely without cost to the friends of the institution except in the board of the Sisters.

There has been reconved from various sources towards the support of the hospital, \$1234 it Expended in furniture and household expenses, including medicine and funeral expenses, including medicine and funeral expenses.

By a reference to the above report, it will be perceived that the funds of the institution are nearly exhausted, and that money is wanted not only to pay off debts already contracted, but to insure the continuance—even on its heretofore limited scale—of its usefulness. How many amongst us, when preparing for another world, and dividing their thousands among those having often little need of those accessives might, by a small contribution, aid in relieving the suderings of a class which has pecular claims or charity. We are considered there exists in the community sufficient of this good feeting to sustain a charity such as this in fair view. All that has a charity such as this in fair view. SILVER CRADLE.—in accordance with an ancient custom in England, the worshipful lady of the mayor of Liverpool was recently compianented with the gift of an elegant and massive silver crudle, for a new "responsibility" with which she had presented his mayorship. We have heard of folks being born with a "silver spoon in their mouth, but this idea of coming forth in a silver cradle excepts it. The ceremonies attending the presentation were as ridiculous as all other "official" affairs in England.

TRUE PROGRESS.

The Commonwealth of Massacucarris is a bound and a shining light. She is an example of the true progress of a nation—not that baybarna progress in the aris of war and bloodshed of which such conquerors as Alexander, and Tameriane, and Alaric have furnished the examples—but the progress of human virtue, intelligence, cavilization, and true happiness, not the progress which ruins neighboring nations, but that which improves, enriches, exalts, and adorns our own.

Last year the people of Massachusetts voluntarily taxed temselves about a million of dollars for the support of CommonSchools. There is not a native born child in the State, old enough to learn, who is not able to read and write. In the city of Boaton during the three mouths preceding the loth of April, iast, \$200,000 were spent in building public school houses. The high school just finished in Cambridge, with two other school houses, cost \$25,000. Another, of splendid and costly character, was laterly funded in Cambridge with two other school houses.
