TO OUR READERS. We expected, when we undertook to n ceive the Message by telegraph, to lay it be-

readers for the lack of the usual variety and quantity of matter in our columns to-day. After all the hands connected with the establishment had been kept on their feet and busily employed for nearly thirty hours conely, in getting out the Message, we could not ask them for further exertion. Tomorrow we shall be all right again.

THE formation of a "Taylor Republican Association," as has been recommended and attempted by some of our Whig friends in Philadelphia, seems increasingly objections as we said before, we do not understand the exact design of this movement, and have not been made acquainted with the motives which have originated it, yet we must enter our protest against any measure which appears to be calculated in its nature to weak en the influence and efficiency, if not destroy altogether, the glorious Whig party with which it has been our pride and pleasure to

be associated for so many years. Any movement designed to change the name, or any of the great and leading principles of the Whig party, to be successful must disband the present effective organiza thus wantonly throwing away the herculear labor of years, and ruthlessly destroying as

in the country. The Whig party, as now constituted, num bers in its ranks the true republican and con servative feeling of the country. It is the bulwark of our institutions, protecting them om the dangers of concentration, through ignorant and blind devotion to party and person, on the one hand, and a destructive and levelling spirit on the other. Divide up and amalgamate parties as you will, which seems to be one object of the Philadelphia ent, the members composing the will in time seek their natural and educa tional affinities, and two parties will always exist, of characteristics similar to the present

Whig and Locoloco organizations. Why, then, disturb the harmony of existprinciples, and has been disabused of long nbittered prejudices? What good can it do-what object of general welfare will be effected by it? Will it not throw us back for years, and compel us to commence the work of building up a national conservative party, favorable to safe social progress, over again?
