THE GOLD EXCITEMENT. What a wonderful ers we have fallen upon The year 1818 is more remarkable for momentor and stirring events than any year, probably, in the world's entire history. The move seem to be crowded together, and event follow avent with such amazing rapidity as to bewilde nagination, and pa siyze the faculties. single one of the great oreats which have trans pired in Europe, within the last ten months, wou have made any year, or quarter of a ce orable; but the aggregation of remarkable incident has flextroyed the effects upon the mind which an sinde one was calculated to produce.

Not the least remarkable of the strange events of the year, is the discovery of the vast deposits of Gold in California; and probably the ultimate refect of no event of the year will be more important and listing upon the whole civilized world. The acng avidence crowding upon us appears t leave no room for doubt as to the vest quantity and pure quality of the gold deposites in the valley of the Sacramenta; and these deposites seen to point to the original mines in the rocky fastnesses of the Sierra Nevada, as the prolific fruntain ome, and where whance all these riches have o probably inexhaustible supplies of the precious dust have been hidden from the avaricious gaze

of man for ages. What effect this vant addition to the standard of value will have upon the world, can only be left to conjecture. The editor of the New York Triestimates that one hundred millions of do lars, in value, of gold, will be taken from the Cal fornis mines, within the next four years. Another car of the Navy, writer says that an intelligent o who has been recently over the gold region of California, for the purpose of examining the matter thoroughly, stated that by the month of March we shall be receiving from Galifornia three millions per month in gold. This officer himself has a considcrable quantity of the gold, which has reached N Orleans, and other large amounts he knows to be on the way. The Maratlan correspondent of Messrs. Howland & Aspinwall, writes that \$100,\* 000 worth of gold has been received there, which has been assayed and proved to be 22 to 23; carata fine, which is as near as may be pure gold, too

pure for coining or mechanical purposes. One effect of this great increase of gold will certainly be a decided change in the standard of Gold will go down, or in other words, rea estate, and the various productions of human in dustry, will go up. It will take more gold than be e a day's labor, or a bushel of when but that it will add any thing to the general atoc iens, moral or physical, is very much to

A considerable increase in the m ent the standard of value, are probably desira There has been for some time a lack of coi for the increasing demands of commerce, and if the deposites in California should not more than enough to keep the supply up to a health discovery may prove a blessing .--The great danger is, that men, dasting to be rich will neglect the sober and certain pursuits of life for wild speculations; and that habits of extravaidieness, and dissipation will be engen

constituted would hardly pass it. Be the prospects however, what they may, of effecting an imme-diate change in the present Tarif law, you may rest saured, that your representative and other Whig members from your State, will spare no ef-forts to bring about a modification of the present forts to bring about a modification of the present fastures of the Tariff of '42 are not re-enacted at the present sension, it will be done ultimately, and thus the interests of Prensylvania, and Satures of the Tarif of '42 are not re-chacked at the present session, it will be done ultimately, and thus the interests of Penasylvania, and the welfare of the whole country duly cared for The people of your region are fortunate in having Mr. Hampton as their representative in the sublity will enable him to effect as much as it is ability will enable him to effect as much as it is and thus the object by the gold fever, saya-

From the Boston Traveller of last evening w

Collection at last annual meeting, Contributions at do to make the speakers Life Directors, From the Boston Traveller of last evening we copy the following:— GoLD HURTERS—A. meeting was held at the Hanover House, last evening, for the purpose of forming a company to dig gold in California. A large number of persons were present. Charles Brett was elected chairman, and W. B. Farwell, secretary, and a committee was ebosen to report on the matter of organizing such an expedition, to an adjourned meeting to be held at thefarme place at 7 o'clock this evening. The plan of the orginators of the meeting is that each momber of the company shall furnish S500, and that a ship be chartered and stocked with the proper materials for mining. Cash from the Managers re following Churches: ist 2d 3d 412 5th Cumberfand do Libert Street Methodist Episcopial, Smithfield st. do do Birmingheam do do Fifth Burret Methodist Protestant, English Lutheran, German do Associate Prasbytrian, lat Asso. Ref'd do St. Andrew Episcopial, St. Andrew Episcopial, aburre Charlow for bytrian,

and stocked with the proper materials for mining, provisions, &c. The number wanted is one hun-dred. The Plymouth Rock gives currency to a report that a band of adventurers are about to sail from Asbury Chapel, Wesley do that place.

In addition to the above, the steam abin Falcon Capt Thompson, which left New York on the 1st of December, is to form one of the line to Chagres to To Librarian for books sold, connect with the Pacific line across the lathmu of Daries, the consort of this versel will leave this port about the 25th instant. She is called the Isthmus. We copy the following from a New York

paper; it describes the most direct route to California:--

Anniversary of the Young Mens' Bibl Society of Pittsburgh, Was held in the First Presbyterian Church (Dr. Herron's) on Monday evening, November 27th. R. E. Sellers, President of the Society, called the matting to make

ation of the public

ANNUAL REPORT.

On this occasion, the Board of Managers of the Young Men's Bible Society, offer their 31 st annua

Yong Mea's Bible Society, offer their 31st annual report. Thirty-one years have passed away since the Society was organised. During this period re-markable changes have taken place in the cir-cumstances of our city and her population; the Pittaburgh of 1917 would appear as a small coun-try town compared with the Pittaburgh of J>33. In the year 1917 this society was organised, and during all that length of time the object has been invariably the same. If there was destrution of the Bible then, how much greater must it be now! If there was need of effort then, how much greater us now required? We need not fatter ourselves dist the reflection that the Bible Society increased dist the reflection that the Bible Society increased its efforts as the city uncreased in population—this

## GENERAL TAYLOR.

The New Orleans Bee, announcing the depar-ture of Gen. Taylor from that city, to his home at Baton Rouge, has the following remarks:

•Among house, use the ball with a constraint of the same of the second secon the belief that the people derive a charge of neu-and encourses in the administration of the Govern-ment, and that they elevated him to office with a view to political reforms. More than once he has declared unaffectedly, and honestly that he would have predicted the election of any other good, sub-santial Whig. He is filled with emotions of gratitude at the vote has received, and he nover speaks of Louisiana, but with a kinding eye and a face suffused with pleasure. Of Millard Fillmore, he apsais in terms of high admiration and respect, and regards him as a sound and trustworthy con-servative statemen."
