THE SABBATH MEETING, on Tuesday evening, a Dr. Herron's church, was largely attended, and a deep interest was manifested. The opinion was is that the evil of Sabbath desecratio existed to a great extent, and that it ought to be abated, but the meeting was greatly divided as to the best mode of proceeding. Some thought the Councils could supply a remedy, and other thought it useless to invoke their aid. Some thought the Mayor and police were in the faul and others that they were powerless in the premi ses. The existing laws, on the one hand we held to be sufficient, while on the other they were considered wholly inadequate to prevent the evil, We annrahand the cause of the evil will be

found in a defective public opinion. No municipal law can be enforced in a community such as or the assent and co-opera najority of the people. No one is willing to tak the trouble of laying in information, or of punish-ing the crime of Sabbath breaking, while the comaity will, for so doing, brand him as officion and an intermeddler.
