THE CITY ELECTION. The near approach of the city election remin us of the duty of enjoining upon our Whig friend the policy and propriety of supporting our regular by nominated tickets for all the offices. The gen themen nominated according to the party usage have a right to demand, in all fairness and courtesy, the party support; and it is only in this way that we can keep up a thorough and efficient organize

tion. The Fost and its Democratic friends are end LOD FORMATION IN POINT for Mr. Adams, the regula somine of that party for Mayor, on the pretence that he is the ' Citizens' and Working Men's Can didate". If there are any Whigs who are decai ed by any such shallow pretences, they must be weak indeed; and if any number of such should succeed in assisting the Locofocos to elect their candidate, they will have the consolation of hear ing it bruited all over the Union, that the Demo crais of Pittsburgh have gained a great victor over the Whigs, and that there has a mighty rea tion taken place in old Pennsylvania: However, we have no fears of any such result. The Whigs of Pinsburgh are not so silly as to assist the Locotheos to elect a Mayor on false pretences; and such an attempt by the Post and its friends, will only tend to unite the Whigs more cordially upon the own candidate.

The Liverpool Mail, of the 16th, anounces that the basis of the new postal arrangement with the U States which has all been settled, making a con-siderable reduction on American letters, will be sent over the by the pesent iteamor. The preasing necessity for a Hospital for the ins same has frequently been mentioned in this paper and we embrace the occasion presented by a case which shows this necessity in a most striking light -which the reader will find under our local head -once more to call to it the attention of our be ant and public spirited citizens. Such cases red to are a disgrace to any Christ as the one reterred to are a diagrace to any Chris-tian people, and ought, if any thing can, to arouse the active exertions of those whom God hath bles-

sed with reason and competency. If we may be permitted to give our opinion i premises, we should say, that there exists a fail ther necessity for an Insane Asylum, than for a General Hospital, and that the money so liberally

subscribed by our citizens for the latter purpos would be more wisely and humanely applied to the former. The Government Marine Hospital, which is now in process of construction, and the Hospital of the Sisters of Mercy, which is actively en gaged in the good work, will afford relief sufficier for the destitute and the stranger, at the present while the unfortunate insane are left to rot in jai or parish in the streets. We must earnestly, there fore, beseach the Directors of the Hospital Fund

We must extractly there fore, beseech the Directors of the Happital Fund, to tay the calamitous situation of the Insue Poor under consideration, and to make such change in their contemplated, work of benevolence, as will with there at their feet.
