It is of course that these goods will find their way into Matam ras without paying the Mexican duties. The trade on both cides of the river is said to be very They have had some pretty savene winter weather thoughout Texas. In the western part, snow almost sufficient for single riding.

A letter from Linx county Dec. 55 says that a larger number of indians (some 300) than should be permitted to come there, had antived from the yound the Texian boundary armed and formalised with ammunition by the U.S. agents.

The Western Texian, of San Antonin' contains a Jegsi citation, by John J. Giddings' as Jlaintif, against wrenty-eight German Princes, Dakes. Counts, and Landsgraves, and one Princess, who are all made decondains. The sait is for \$9.702 which is the fabilities due for cost of surveying, the whole simbunt being \$33,3513. The control of the co king of the sugar cro

EVENTS IN ROME. Corresponding to the further of the last state form the further of the last state formation in Rome, the establishment are beginning to count the time that the Pope, his deposition from Temporal Power, must pass before the trade with the country can and the prospect of an entire separation of the State from the Church. A torm of Government ingoing to France upon the invitation of Cavaignae; but their ire mere bubbles thrown in maybap to decrive and gain time for the grand move. It is generally admitted that the pury who advised the Pope to fig. counted upon a tremendous upons it the city, and in fact throughout the Roman States it was supposed that the violent liberals would proclaim a republic, while the Papal party would proclaim a republic, while the Papal party would be the papal party would be considered than the serving an opportunity for the proclaim a republic, while the Papal party would oppose them, thus giving an opportunity for the intervention of foreign and to reinstate his Holiness. Nothing of the kind has occurred, and the deceivers have been themselves deceived. There is no dismay, no standing still; the Chambers have voted the railroad between here and Ancona, to be commenced next mouth, and have taken measures to have the poor classes employed upon the public works. All this will make necessary a new arrangement of the original piot, if plot there was; and what new scheme may be now on foot it is impossible to determine. We will not have to wait long for its "Revelopement, however, for events rush after each other with singular rapidity. Notion Money has become abundant and State from the Church. A form of Government in excess of all legitimate business demands—sanctioned by ages has been overturned, and a People supposed to be sunk in ignorance and wed. ors, and the means of keeping funds profitably em-ployed; (The tire of Government and State Stocks abroad has also given a firmer tone to the market— of men, and have evidenced a storn determina-United States Stocks. Owing to the scarcity of N.

Tork stocks for the basis of bank circulation, it is succinct history of the late events at Rome, was ow proposed to pass a law allowing government written by an American gentleman residing in that stocks to be taken for this purpose; and it will succeed, for the wants of banks have made the law imperatively necessary.

This letter, the Advertiser remarks, is valuable it is summer yet in Rome. The shining sun streams in at the windows; the air is filled with the performe of roses; the fountains outpour their silver showers; and the birds are lighting on the window sills, and singing as if snow and ice could never leave the North Pole.

THINGS IN RUSSIA.

A new era is about to commence in the instory of rail roads in this country, and we re to have an exposition of precedent events, an expose of the manner in which subscriptions are raised. The Hudson Rail, Road Company, which was forced into existence by the most vignorus personal importunity, now finds itself at a stand still for money, with its stock selling at 55 posed to have entered, and this impression, we We have had placed at our disposal a letter, just eccived by the Europa, from a most intelligent entleman in St. Petersburg, from which we make stand still for money, with its stock senting as to per cent. In this exigency, the company asserts that it has a legal claim upon the original subscriptors to compel them to make their stock full, the monarch—the detested Ferch, and cause to be known upon the books as stockholders. Common usage most vindictive, faithless, tyrannical and unprincip a few extracts of general interest. The passage Russian capital than previous accounts had led us to expect, but as the writer has ample sources of

hus forcing lenders to look to speculative borrow

GOVERNOR'S MESSAGE. be Governor's Messagn, corrected from the pri speaks in terms of high praise of the ac RELIEF NOTES.

THE VERY LATEST FROM THE CALIFOR NIA GOLD REGION. The New Orleans Bulletin of the 30th ult., ha the foll-wing later intelligence from California:

The New Orleans Bolletin of the 30th ulls, has the following later intelligence from California:

Letters have been received in the city, from the capital of Mexico, containing later intelligence from California that any which have yet been published. One of these letters from an intelligent gantleman, and who is well informed on the subject, states that further discoveries have been made in the gold region, which yield even a more abundant supply of the article than the previous "diggings." The quantity gathered aiready amounted to at least \$100.000 daily, and was constantly increasing, without apparently an exhaustion, or any limit to the supply.

There was a great deal of distress among all the diggers, for the want of the common necessaries, will be sold, for eash currency.

There was a great deal of distress among all the diggers, for the want of the common necessaries and mortality. Men loaded with gold, appear like had been sonable staple and fancy by Goods, suited by the remains of the meanest kind. It is stated that one man, who had two barrels of brandy, sold them out at the mines, by the annal wire glass, which realized him fourteen thousand dollars in gold. Even the supply and in the possession of every one, that it seemed to have lost its value.

Daily additions were made to the number employed in digging, though as yet no portion of the warf food of emigration from the United States, had survived. The first arrivals of provisions, and other supplies, will no doubt realize larger profits than any previous instance, that can be found in the annals of trade.

III The excessive or morbid secretions of bile is well known to cause violent disturbance of the digestive organs, and bring on maliguant and ulmanageable fevers, which often put an end to life. The stormach must be cleaned of these foul secretions, and this cain most readily be accomplished by the use of B A Pahnesance's Anth-Billious Pills, which are a most raduable family cathartie. They can be given with safety at all umes, and afford relief in a very short tune.

Prepaired and sold by B A PAHNENTOCK & Co. corner 1st and wyod, and corner of and wood sta. ang 29 ANOTHER CERTIFICATE TO the CRECIFICATE OF A BANK-YETMINGS!

Mesars. J. Kidd & Co.—Gentlemen. It is with pleasure I hand this, my certificate, (testifying to the general popularity of Dr. M'Lane's American Worm Specific, 10 your traveling agent, Mr. Munco. Some time ago I received from him a small iot to tell on commission. I cared a few bottles in my own family, to the good effects I can fully testify. The balance I sold to my customers and found on inquiry, that it gave very general satisfaction.
