Inquestr —Yestercky the coroner held an inquest on view of the body of a man found dead on the premises of Mr. George Grierson, of Oakland, 4th Street Road, about 10 colock the previous event of the decided which could lead to the discovery of his name or on onexions. He had been observed by one or two persons the day before his death, and they testified that he appeared to be sober. One of them heard that he appeared to be sober. One of them heard that the poor man has perished from the cold, in all probability, having no home to go to—like the discovery of his money. A severe cold at present prevents him fical means and their data from the deceased is Thomas Kincaid—that he was addicted to the batts of intemperance, and was well known to the police, to whom he was very troublesome.

Winchell delivered another comic lecture last night, to a large and delighted audience. We understand that daring the last winter, the Legislature of Michigan, voted Mr. Winchell the use of their Hall, for the exhibition of his entertainments, and that he was shonored by the attendance of the Governor and his family. We are sure of one thing, that if his excellency had any laughing capabilities about him, Winchell gave him more than enough for his money. A severe cold at present prewents him from entering with full zest into all his jokes, good as they are; but should be be convaleacent in a few days, we believe he will make his appearance among us two or three eights more, at least we hope so.
