MEDICAL.

VALUABLE DISCOVERY!
CONSUMPTIVES, BE ON YOUR GUARD!
DR. SWAYNE'S
COMPOUND SYRUP OF WILD CHERRY,
THE GREAT REMEDY FOR
Consumption, Coughs, Colds, Asthma, Bronchitis, Inflammation, Croup, Broken Constitution, Sore Throat, Nervous Debility, and all Diseases of the Throat, Breast and Lungs; the most effectual, speedy cure ever known for any of the above diseases.

DR. SWAYNE'S
Compound Syrup of Wild Cherry!

This medicine is no longer among those of doubtful utility. It has passed away from the thousands daily launched upon the tide of experiment, and now stands higher in reputation, and is becoming more extensively used than any other preparation of medicine ever offered for the relief of suffering man.

It has been introduced very generally through the United States and Europe, and there are few forms of importance, but what contain the most remarkable evidence of its good effects. For proof of the foregoing statements, and of the value and efficacy of this medicine, the proprietor will insert a few of the many hundreds of testimonials which have been presented to him by men of the first respectability—men who have higher views of moral responsibility and feeling, than to sacrifice to facts; because it will do another a favor, and themselves no injustice. Such testimony proves conclusively, that its surprising excellence is established by its intrinsic merit, and the unanimous sanction of public opinion. The instantaneous relief it affords, and the soothing influence diffused through the whole frame by its use, renders it a most agreeable remedy for the afflicted.

REMEMBER!

When men, acting from conscientious impulses, voluntarily bear testimony to the truth of a thing, or particular fact, such testimony, being contrary to their worldly interests and purposes, coerces conviction of its truth, and commends itself in a special manner to universal confidence.—Pilgrim's Moral Maxims.

STILL ANOTHER CURE OF PULMONARY CONSUMPTION.

There never was a medicine that has been as successful in desperate cases of Consumption, as Dr. Swayne's Compound Syrup of Wild Cherry. It strengthens the system, and appears to go directly to the seat of disease, and with great and rich blood, power possessed by no other medicine.

Grierson Co., April 25th, 1843.

Dr. Swayne—Dear Sir: I verily believe your Compound Syrup of Wild Cherry has been the means of saving my life. I caught a severe cold, which gradually grew worse, attended with a severe cough, that all my own remedies which I had recourse to, still increased all the symptoms of a decline. I then called in the assistance of Dr. Pulming, a skilful physician, who pronounced my complaint Pulmonary Consumption. Everything I tried seemed to have no effect, and my complaint increased so rapidly that my friends as well as myself, gave up all hopes of my recovery. At this time I was recommended to try your invaluable medicine! I did so with the most happy result. The first bottle had the effect to loosen the cough, causing me to expectorate freely; and by the time I had used three bottles, I was entirely well, and am now as hearty a man as I ever was in my life, and have no hesitancy in giving any information respecting my case, that other sufferers may be benefited by it, should they call on me personally. For the truth of the above statement, I refer you to Peter Rush, Grocer, West Chester, of whom I purchased the medicine.

JAMES MORGAN.

Respectfully yours, &c.

Wonderful Cure of a Methodist Minister.

Dr. Swayne—Dear Sir: I feel it my duty and gratification to you—as a duty to the afflicted generally, to offer the following testimony in favor of your Compound Syrup of Wild Cherry. Some three years since I was violently attacked with a cold and inflammation of the throat, which was accompanied with a distressing cough, with pain in the breast and head, a very considerable discharge of offensive matter from the lungs, and terrible discharge of offensive matter from the lungs, and terrible night sweats, which left me so weak, however slight. At first I felt no alarm about my condition, but was pretty soon convinced that I was rapidly going into consumption. I grew daily weaker, and was sought after to preach my funeral sermon, or speak above a whisper, such was the exceeding weakness of my lungs. During this time I had tried various preparations of medicine, and at this time had tried one of great notoriety all the time worse. But I was advised and persuaded by a dear friend in Dover Township, to make trial of your Syrup of Wild Cherry. I must confess that previously I had been quite prejudiced against patent medicines, and I am still against those coming out of the hands of empirics, but understanding your claims to be predicated upon the well established faith in the saying of my medicine, and having purchased of Dr. Shaw, one of your friends, I forthwith purchased of Dr. Shaw, one of your agents, a few bottles, and commenced using. To my astonishment, at that time, one of my friends standing consciously it was deeply seated. I found, however, considerable relief from the use of the first four or five bottles. But being a public preacher, I frequently felt impelled to preach with my increasing strength, and thereby ruptured those vessels that had already begun to heal, in this way, downing all that was going to heal, in consequence of acting thus imprudently, returned. In consequence of acting thus imprudently, I had to use twelve or fifteen bottles before I was perfectly restored. I have no questions, as much as any member of society, to ask of me sound, but for the use of intoxication. The Syrup allayed the feverish habit, took away the distressing cough, put a stop to the discharge of matter from the lungs, and gave them and the entire system good health. I have deferred offering this certificate until now, for the purpose of being perfectly satisfied with the permanency of the cure, and now that I feel perfectly well I offer it with pleasure.

Rev. J. P. JORDAN.

Dublin county, N. C.

Important Caution—Read! Read!

There is but one genuine preparation of Wild Cherry, and that is Dr. SWAYNE'S, the first ever offered to the public, which has been said largely throughout the United States, and some parts of Europe, and all preparations called by the name of Wild Cherry have been put out since this, under deceptive circumstances, in order to give currency to their sales. By a little observation, no person need mistake the genuine from the false. Each bottle of the genuine is enveloped in a pink steel engraving, with the likeness of William Penn thereon; also, Dr. Swayne's signature and as further security, the portrait of Dr. Swayne, will be found inscribed on the outside wrapper. This preparation is from all others. Now, it it was not for the great curative properties and known virtues of Dr. Swayne's Compound Syrup of Wild Cherry, no person would be so contemptible as to give currency to their "pernicious nostrums" by stealing the name of Wild Cherry. Remember, always bear in mind the name of Dr. Swayne, and be not deceived.

Principal Office, corner of Eighth and Race streets, Philadelphia.

For sale wholesale and retail by OGDEN & SNOWDEN, cor 2d and Wood, sts. B A FAHNESTOCK & Co, cor 1st and Wood, and D M CURRY, Allegheny City. S MORRISON, Manchester. 120 Liberty st. JAS A JONES, cor Hand and Penn sts; JOHN MITCHELL, Allegheny city, and by all respectable dealers in medicine.

B. A. Fahnestock's Anti-Bilious Pills.

THIS valuable compound combines smallness of bulk with efficiency and comparative mildness of purgative action, and having a peculiar tendency to the biliary organs, is extremely valuable in this country, in which bilious fevers and other complaints, attended with congestion of the liver, so much abound.—They have now stood the test of 20 years, and during that time had various preparations of medicine evidently used than any other preparation of medicine ever offered for the relief of suffering man.

It has been introduced very generally through the United States and Europe, and there are few forms of importance, but what contain the most remarkable evidence of its good effects. For proof of the foregoing statements, and of the value and efficacy of this medicine, the proprietor will insert a few of the many hundreds of testimonials which have been presented to him by men of the first respectability—men who have higher views of moral responsibility and feeling, than to sacrifice to facts; because it will do another a favor, and themselves no injustice. Such testimony proves conclusively, that its surprising excellence is established by its intrinsic merit, and the unanimous sanction of public opinion. The instantaneous relief it affords, and the soothing influence diffused through the whole frame by its use, renders it a most agreeable remedy for the afflicted.

REMEMBER!

When men, acting from conscientious impulses, voluntarily bear testimony to the truth of a thing, or particular fact, such testimony, being contrary to their worldly interests and purposes, coerces conviction of its truth, and commends itself in a special manner to universal confidence.—Pilgrim's Moral Maxims.
