to subject a child to months of painful fabor and ortification, and final expulsion, from an ambition

as to stimulate production, and to accumulate stock in the country which will now come out, and before navigation closes again, four dellars will buy a harrel of Genesee Flour, in New York. Corn i Corn Meal has sold largely at \$2 624, and \$2 50 would not be refused for large lots.

Quite a panie occurred in Wall street yesterday in consequence of the absence of one of the most enteritied and leading brokers, Mr. H. N. Scott. His bank account was found to be overdrawn some three thousand dollars, and acry of defaileation raised. Father inquiry showed that large sums were due, him upon stock contracts, which made people more churitable. Lest night he came back from New Jersey, where he was found with elevent thousand dollars on his person. He was violently insane, and was captured running through the woods. The money he obtained from his checks. While at the bank, he complained of illness, which terminated in the loss of his intellect, a calamity which has befullen two of his near relatives. The occurrence has created a good deal of feeling; and the restoration of Mr. Scott is looked for with much solicitude.

The largest packet ship in the world, "The Constellation," a name rendered immortal in our naval annal, by the gallant Trasture—was launched to-day, for the Liverpool trade. She is 2900 tons burden, and look as a formidable as a line of baille, ship. The "Empire City" steamship, of 2000 tons, was also launched to-day, owned by Mieszra. J. Hóward & Sou; who have it in contemplation to roin a daily line to New Orleans. The trip can be made in leas than the present mult time, and the route would be cheap and agreeable. The Charleston and Savannah ships are coining money, and the feeling now is all in favor of steam speculation.
