RAILROAD MOVEMENTS.

The excitement in reference to Railroads soints west of the city, is now most intense. Ner

Among the projects which will have an indir bearing upon this city, as we may in time be con nected with it, is the Mississippi and Ohio Rad at Ghiengo, involving loss of life, and property to the amount of \$200,000. A next distance below the city, the river was completely duanned by the beavy masses of ice and boars numed in together, and here the scone was represented as appaining boyond description. At this boint there were 28 years is two promotions and here atomybased all road Company, for the construction of a road from Cincinnati to St. Louis. This company is incor porated by the States of Ohio and Indiand, and ibt, be also by Illinois, at the next me ing of the Legislature. An immense amount o essels, two-propellers and two ateamboats, being more or less injured. Several lives wer aid to be lost. A boy was crushed to death a templated line of this road, by corpore and individuals, amounting in the aggregate, if w ecollect aright, to over two millions of dollars, h by the failing of a top; mast. A number of me the act of incorporation; just passed by the Ohiu egislature, the city of Cine subscribe \$1,000,000, and the citizens are soon to be called upon to give their sanction to the measure, been reported.

Their beir project, with very prolecoworthy zeal. Their berporation is styled the "Steubenville and Indiana Riskoad Company," and we understand they have an excellent charter. They have lately procured Bradty being about to leave for California with hi some supplementary legislation, of a very imporsupplementary registration, or a very import-haracter, which authorises the company to ruct a bridge across the Ohio, with the conny him, which she refused. This caused him to co sent of Virginia, for the purpose of bringing their read to Pittsburgh, and also grants some privileges in regard to change of route. It also authorises the Mayor and Town Council of Steubenville, in was thought he would recover. Bradly has a wil Jefferson county, and all other incorporated town

This supplementary act places the company at once on vantage ground and it bids fair to be a formidable competitor to th CENTENNARIANS -- We have observed in the pa rival routes recking an eastern terminus through

this city. The "Cleveland and Pittsburgh Railroad Com pany" are pushing their road ahead with remark able persuverance and resolution. About one-ha the route, from Cleveland to Wellsville, is now under contract, and the remainder is expected, t be given out the coming spring. This Company also obtained legislation authorizing the cour of Portage, and the city of Cleveland to subsc argely to the stock of the company, and the ques tion is to be laid before the people early in April, and will, no doubt, be answered affirmatively. This ad will not only connect us with the Lakes, but with Cincinnati also, by means of the Cleve and Columbus road, which is to be put under con tract along its whole length, the coming senson. Our friends in Obio, on the line of the "Pennsyl ania and Ohio Rallroad," are not idle, amidst all adable activity. In Richland county legislation has been obtained, authorizing a sub scription of stock; and in Stark county, also, and Commissioners have notified the people to et nod yote on the subject. We regret puch that such a state of public opin in should exist. We feel sure Kentucky would be made happer and more properous in every res-t peck, by adopting Mr. Clay's plan.
