# BY MAGNETIC TELEGRAPH.

**REPORTED & TELEGRAPHED**
**For the Pittsburgh Daily Gazette.**

ADDITIONAL NEWS BY THE NIAGARA—
New York, June 4.

CANADA.

By a telegraphic despatch received by the Courier, it appears there is a rumor to the effect, that Lord Clarendon is about to resign the Lord-Royalty of Ireland, and accept the office in which he held by Lord Elgin as Governor General of the North American Provinces.

ENGLAND.

Considerable disappointment is felt throughout Great Britain, because Lord John Russell has not yet declared what the Government intends to do with the State Prisoners, particularly as rumors are prevalent that the crown has no power to transport persons convicted of High Treason.

IRELAND.

It is generally reported that no further proceedings will be taken by the government against Duffy—that his further trial is entirely abandoned.

FRANCE.

On Friday, the 15th ult., it was announced on the Bourse that intelligence had been received of the return of 200 Socialists to the French Assembly, and serious apprehensions were entertained that by the time the whole returns were received they would form a very large minority in that body, so large in fact, as to render it exceedingly probable that they would overthrow the ministerialists. This intelligence has produced considerable alarm.

ROME.

By a telegraphic despatch from Rome, dated it is announced that the Consul of Wirtemberg accompanied by the Roman ambassador, had arrived in France, with a message of peace from the Roman Government. It also stated that Oudinot and his staff had been invited into Rome, but had for the present declined to accept the invitation. All the French prisoners had been liberated. They speak in the highest terms of the liberal treatment experienced at the hands of the citizens of Rome.

ASSAULTATION.—It was currently stated yesterday, that Lorenz Pfeffercorn, the editor of the Union, had absconded to Texas, leaving a good many of his political friends in church, and in a large amounts. He is supposed to have turned his face towards California.—*St. Louis Rep., May 26.*

The steamer Mary, Captain Scott, returned to this city, evening before last, from her melancholy trip up the Missouri river. She left this city about three weeks since, with a full fine girl and nearly four hundred Mormon emigrants on board. On the second day out the Cholera made its appearance among the deck passengers, and during the trip carried off fifty-five including all ages, and of both sexes. Mr. H. Learned, one of the engineers, had a cabin passenger by the name of Nichols, died of the same disease.

On her passage up, Captain Scott found it necessary to stop and overhaul her boat frequently, and at length the ravages of the epidemic became so frightful that he was compelled to put on shore a great many of those attacked, and others likely to be so. From the time of leaving this city until his arrival at Council Bluffs, there had been fifty-eight deaths on board—a much greater mortality than we have ever known before on board a single steamer. The officers of the Mary report having left Council Bluffs, on the 17th, for Kearny on the 18th, and St. Joseph on the 19th inst.

All the California emigrants had left the different points on the river for the Plains, and the Cholera is said to be making frightful ravages among them. By a letter received at St Joseph on the 17th inst., it was ascertained that Drs. White and Brown, of this city, had proceeded about 50 miles on their way, but were then encamped on account of sickness in the company, among whom it was reported several deaths had occurred of cholera.—*St. Louis Rep., May 26.*
